People everywhere in this country are showing the French visitors great things. They are a great nation and have displayed great courage and military skill in fighting for their homes and driving back the German invaders. The Crown Prince when he advanced on Verdun said he would run over the little French monkey. He lost over 400,000 men and didn't run over anything only a few hills in falling back from the little French monkey. France is a republic like we are and the foolish notion that nothing but an empire is strong or efficient is pretty thoroughly exploded as they are knocking the Germans every day.

WHAT OUR NEIGHBORS IN CALIFORNIA SAY.

Pasadena, Cal.—"I want to extend to you my heartfelt thanks for the benefits derived from the use of your medicines, and for the kind and good advice obtained. I am a proud mother."

"I had been a great sufferer; three times I was given up to die—once taking 'Favorite Prescription'."

"Four months ago the doctors and nurse said it would be a year or more before I would be able to do my housework, and, of course, I thought so myself as I was not able to walk across the floor for several weeks. I am now able to do my housework and to care for my children and I do not feel as though I could ever thank you enough for the benefits I have received."—MRS. MAURELLE KIPP, 184 South Pasadena Ave.

Why should any woman continue to worry, to lead a miserable existence, when Dr. Pierce's Favorite Prescription is sold by druggists, in either tablet or liquid form?

The last time being four months ago, I doctored with several doctors but obtained no relief. Was told that an operation would effect a cure, so I submitted to one, but this proved like all the medicines I had taken—not beneficial. I obtained, and started at once taking 'Favorite Prescription'."
