COUNTY AND CITY LOCALS

"Divine Sculpture" will be the subject of the morning sermon at the Congregational church. Sunday school meets at 9:45 a. m. Junior C. E. society 6:30. Senior C. E. society 6:30. The orchestra, under the leadership of Prof. Flechtner, furnishes music at the evening service. "Lincoln" will be the theme of the Rev. Mr. MacCallum's address at the evening service.

Go to G. F. Anderson's barber shop—best tonsorial work.

Mrs. Henry D. James and Mrs. N. J. Harding, her daughter, both of Tacoma, Wash., have returned to their home after spending some time with Mrs. E. D. James in this city.

Thomas P. Randall left Saturday for the Sacramento valley, California, where he will investigate the merits of orchard land which is being marketed here with a campaign directed by a California company.

E. P. Follansbee has returned to North Yakima, Wash., after visiting here with Mr. and Mrs. Frank Moore.

Miss Nettie Simmons, of Seattle, is a guest at the Green Point home of the Misses Alma and Florence Moore.

William Fribe has returned from Pendleton, where he spent several weeks transacting business.

Delmar Powers, Lee Doty and R. W. Kirk, of Tillamook, spent the week-end in Oregon City.

George Warford, Stayton farmer, was an Oregon City visitor on Saturday.

"TAKE CARE OF YOUR EYES."—Prudden, Optometrist, Oregon City.

H. Chase of Newberg was a weekend business visitor in Oregon City.

The women of St. Paul's guild of the Episcopal church will be hostesses at a Valentine party at Woodman hall on Wednesday evening of next week.

Go to G. F. Anderson's barber shop—best tonsorial work.

Alvin Wiewiesiek and Otto Pfahl were among the University of Oregon students who returned home to spend the mid-semester holidays. Neither returned to the university, but they expect to resume their studies with the beginning of the fall term.

Neal & McClatchie Jewelry store is five doors west of elevator.

George Potts is spending several weeks on a business and pleasure trip to Seattle, Tacoma and Port Angeles, Wash.

Fred Lammers and Fred Bohlander of Beaver Creek were among the visitors from that place on Saturday.

W. E. Grunert of Sandy was a county seat visitor on Saturday.

Your eyes are your bread winners.—Prudden, optometrist, Oregon City.

M. J. Lee of Canby has been a frequent visitor in Oregon City within the past week or so.

M. A. Deaton of the East Clackamas State bank at Sandy was a business visitor in Oregon City on Monday.

A. F. Eschricht of Portland is spending the day transacting business in Oregon City.

Harry G. Smith of Gladstone has accepted employment with a Portland insurance firm and has established his headquarters in the Northwestern bank building. Mr. Smith will retain his home at Gladstone, but probably will not longer be active as president and manager of the Oregon City Athletic association.

Go to G. F. Anderson's barber shop—best tonsorial work.

John Beattie, son of former County Judge R. L. Beattie, and a student at the Corvallis high school, spent the mid-semester holidays at his father's farm at Beaver Creek. Alfred Williams, the younger son, also spent several days at the farm. Mrs. Beattie and the boys are living at Corvallis for the time being and John is preparing to enter the Oregon Agricultural college next fall.

We grind our lenses in Oregon City.—Prudden, optometrist, Oregon City.

Mr. and Mrs. C. H. Caulfield left on Tuesday for San Francisco, from where they will sail for Honolulu on next Tuesday. Mr. and Mrs. Caulfield will spend some time at the famous Mid-Pacific carnival at Honolulu.

LIVE STOCK HUSBANDRY

MEAT CONDITIONS IN THE RANGE COUNTRY

Better Methods of Handling Cattle and Sheep Will Increase Production.

[Prepared by United States department of agriculture.]

That the effect that settlement of public lands in the range states of the west has had in reducing production of beef and mutton in that section will be offset in the future by other forces and that the meat output should therefore slowly increase is the opinion of specialists of the United States department of agriculture. This opinion is expressed in a report of an exhaustive study of the general meat situation in the United States recently completed. While other forces than settlement of public lands have operated in the past to reduce cattle raising, it is pointed out that these have been more than compensated by the fact that high prices have made the raising of cattle increasingly profitable and by the growth of general agriculture in the region, made possible the feeding of cattle in winter and grazing on irrigated pastures and cultivated crops.

The prediction that this decrease hereafter will give way to an increase is based upon the belief that the amount of live stock on farms and homesteads will be greater in the future, that the stock ranges in the national forests will continue to improve, that the carrying capacity of the stock ranges on the public domain may be increased by legal regulation and finally that high prices of range animals and better methods will result in a more efficient utilization of the available forage or, in other words, a greater production per unit of forage.

In 1914 it was estimated that no more than 30 per cent of the new settlers had more live stock than was necessary to supply them with work and milk animals. The situation in this respect, however, was changing even then, and the movement for the production of more live stock may be expected to continue because both market and agricultural conditions make this indispensable to really successful farming. The change will be gradual, it is said, and only a few head of stock will be added to a farm.

Charles E. Burns, former chief police here and now deputy warden at the state penitentiary, was a witness in the naturalization court here on Monday.

Miss Iva Harrington, O. D. Eby, County Judge Anderson, D. F. Skene, W. A. Huntley, F. McLaren and H. G. Starkweather were visitors at the state legislature on Tuesday. They went to the state house to hear the discussion of the county division bill, and made the trip in Alvin Joyner's motor car.

Noah Stingley of Eagle Creek was a guest at the weekly Live Wire luncheon on Tuesday. Mr. Stingley is one of those most opposed to the division of Clackamas county and he has taken an active part in the fight against the division plans.

Optometry means eye service. Broken lenses replaced. Save the pieces.—Prudden, optometrist, Oregon City.

Mrs. C. B. Rivers, who came here from Alaska for the purpose, underwent a tender operation at the Oregon City hospital recently and is regaining her health rapidly. Plans are being made for the return trip to the Rivers' northern home as soon as the patient can stand the travel.

Mrs. Ida Kent of Parkplace is spending a fortnight with her mother-in-law, Mrs. Mary Kent, at Woodbury.

F. G. Jefferson of Seattle spent Monday and Tuesday in Oregon City.

R. L. Finleyson of San Francisco has been in the city this week visiting friends.

Lloyd Riches, editor of the Stanfield Standard and formerly connected with the Journal in this city, was a visitor in Oregon City Tuesday. Mr. Riches was en route to Eugene and Silverton, his former home.

Herman Martin is spending several days at Tacoma, Wash., with relatives.

When your eyesight fails, our skill prevails.—Prudden, optometrist, Oregon City.

Miss Eva Wallace returned late last week from Albany, where she attended funeral services for her grandfather, who died there last week.

Elmer Swope of Silverton is spending several days in Oregon City.

Judge Grant B. Dimick was a visitor at the state house in Salem on Tuesday. He visited his Hubbard ranch the same day.

George C. Brownell, representative from Clackamas county in the state legislature, spent the week-end at his home at Concord station. Mrs. Malva Bolle, secretary to Mr. Brownell, spent the week-end at her home in this city.

Other factors, though of less importance, that should tend to increase the future production of live stock are greater economy in the use of forage both on the range and on the farm, the use of more and higher grade bulls and better management of the breeding animals through the year. The last two, it is said, offer the possibility of increasing the calf crop 5 or 10 per cent and the average weight of a two-year-old steer perhaps thirty pounds.

Where winter feeding is practiced it is believed that a yearling steer will cost approximately \$30 and a "long" two-year-old \$45. In the range sections of the southwest, on the other hand, the costs may be estimated at from \$15 to \$19 for a yearling and from \$20 to \$25 for a two-year-old.

FINE SPECIMEN OF ANGUS BULL.

With sheep there is a similar variation. In California the cost of producing a lamb is placed at \$1.55, in the southwest at \$1.71 and in the northwest at \$1.82. In considering these figures it must be remembered that they all may be materially altered by increasing or diminishing the percentages of births in the herds and flocks. Better methods, it is pointed out, will almost certainly increase the calf and lamb crops and in this way reduce the cost of production per head.

In estimating these costs the investigators charged against the stock the market value in the vicinity of all the feed consumed. In this way the necessity of considering the money invested in land and equipment was eliminated; but, on the other hand, allowing the stock owner a profit on the feed increases somewhat the estimate of cost of producing animals. As the owner might not get his profit on the feed if he did not raise stock to utilize it, the actual profits in stock raising are probably somewhat greater than the difference between the market price of the animals and the report's estimates of the cost of production.

SELECTING THE BOAR.

Dams Should Be Considered When Choosing Head of the Herd.

The time is at hand when all breeders and farmers will make their selection of a herd boar to use in their herd for their coming crop of spring pigs, writes a correspondent of the White Breeders' Gazette. Very careful consideration should be exercised in making this selection, as the herd boar is half the foundation of the herd.

Choose a boar that, to your judgment, will cross best with the dams which you have to breed. The large medium type has the preference among most breeders. The boar should be strong in points of breeding, have a masculine appearance with broad head and short jaw; strong, arched back, broad between legs and with good feet. The last point mentioned should be watched very carefully.

There will be a number of sales held this fall where the very best boars will be sold at public auction, and every breeder and farmer will have an opportunity to visit these sales and make his selection.

The price paid for a good herd boar should never be compared with the market price of hogs, but should be governed by the quality of the individual, and a hundred dollars or even more paid for a good boar will be every dollar well spent.

Alfalfa For Fattening Hogs.

Alfalfa hay and meal have been recognized as valuable feeds to be used in the ration for fattening brood sows, and trials at the Nebraska station have demonstrated the fact that they are also valuable as supplements to corn for fattening hogs. However, because of its bulky nature alfalfa cannot be classed with a high protein concentrate, like tankage, and unless it is very low in price and the tankage extremely high the latter is the more economical supplement to corn for fattening swine. The same trials above referred to also demonstrated that it does not pay to grind alfalfa for hogs.

Wounds on Animals.

If any of the farm animals has a sore do not neglect it. Even though it is not serious at the start, failure to give it attention may cause it to become dangerous in its development. If it is serious neglect may be paid for dearly.

LIVE STOCK NOTES.

♦ If the corn is to be made into pork, why not do it early? Let the pigs get it themselves.

♦ Never tease a colt. Meanness can easily be developed by teasing. Petting will bring out the best in a colt, teasing the worst.

♦ Second growth clover is fine for sheep.

♦ Keep a watchful eye on the colts at weaning time and be sure that they do not become constipated.

♦ All ewe lambs that are not up to the standard should be sent to the butcher.

♦ Pigs turn money quickly, and it pays to give them a chance.

♦ If pigs are handled properly they simply grunt and grow and put money in your pocket.

OVERRIDE VETO

U. S. Senators from Oregon Desire Retention of Alien Test

The United States senate at Washington on Monday by a vote of 62 to 19 repassed the immigration bill over the veto of the president, despite a warning from the state department that the Asiatic exclusion section might result in disturbing amicable relations with Japan. The measure, containing the literacy test fought over for 20 years and vetoed by three presidents, now becomes a law. The house passed it over the veto last week.

New objections from Japan to the language of the Asiatic exclusion section of the bill were disclosed when Senator Reed, fighting the proposal to repass the bill over the president's veto, announced he had been authorized by the state department to say that the Japanese embassy had called attention to the provisions. There were some indications that the international situation might influence the senate not to repass the bill.

The administration has successfully used its influence to prevent passage of anti-alien land bills in Idaho and Oregon, objected to by Japan, and a desire not to aggravate relations with Japan now is evident in all administration quarters. This has been accentuated by the favorable reception in Japan of President Wilson's action in breaking off diplomatic relations with Germany, which has been most gratifying to the government.

The vote on repassing of the bill was as follows:

To override the veto—Democrats: Ashurst, Bankhead, Beckham, Bryan, Chamberlain, Chilton, Culberson, Fletcher, Hardwick, Hughes, James, Johnson of Maine, Kern, Kirby, Kane, Lee, Martin, Myers, Overman, Phelan, Pittman, Pomerene, Robinson, Shafroth, Sheppard, Shields, Simmons, Smith of Georgia, Smith of South Carolina, Thomas, Tillman, Underwood, Vardaman, Williams—34. Republicans: Borah, Brady, Clapp, Cummins, Curtis, Dillingham, Fall, Gallinger, Gronna, Harding, Jones, Kenyon, La Follette, Lodge, McCumber, Nelson, Norris, Page, Penrose, Poinsett, Smoot, Sterling, Sutherland, Townsend, Wadsworth, Watson, Weeks, Works—28. Total 62.

ESTATE IS TANGLED

Administrator is Restrained From Sale of McCormick Property

A complicated estate is brought to Judge Campbell's court for untangling in the suit filed here Tuesday by Edward Burke and Lucy Basche against M. A. Deaton, administrator, and the heirs of the Michael McCormick estate. Judge Campbell immediately issued a restraining order against the sale of any of the property of the estate, which was to have been disposed of by the sheriff next week.

It appears from the complaint that upon the death of Mrs. McCormick her children were heirs and her husband guardian under a \$2000 bond. Mr. McCormick sold some of the property of the estate, invested the money and later married. From the second union there were six children to whom, when he died, Mr. McCormick willed a share of his estate and that of his former wife. It is alleged that the property added to the estate after the second marriage was bought with money belonging to the heirs of Mrs. McCormick. The original estate was valued at \$15,000.

Neal & McClatchie make a specialty of repairing watches, clocks or anything pertaining to the jewelry business.

ANOTHER ANSWER CALLED

Mr. and Mrs. Cartledge Will Make Charge More Definite

The fourth amended answer in the \$20,000 damage case of F. J. Toose against Mr. and Mrs. H. B. Cartledge was called for by order of Judge Campbell Monday. The judge allowed certain parts of the most recent answer and specified, after hearing the arguments of attorneys, certain sections which are to be made more definite. Mr. and Mrs. Cartledge have until next Monday to prepare and submit the fourth amended answer.

Mrs. Cartledge was formerly head of the English department in the Oregon City high school, which is in charge of Mr. Toose as city school superintendent. She retired last spring with a number of other teachers because of friction with the superintendent. She and Mr. Cartledge have admitted authorship of Bulletin No. 1, asking for an investigation into school affairs and the document upon which Mr. Toose bases his suit for \$20,000 damages.

OREGON CITY ELIMINATED

O. C. H. S. Debating Teams Defeat Tillamook, Lose to Silverton

The debating teams of the Oregon City high school last Friday night participated in their second contest under the direction of the Oregon State Debating league, winning from Tillamook high school by a 3 to 0 decision and losing to Silverton high school by a similar vote. Silverton won from Tillamook the same evening, thus carrying away the honors of the evening, and eliminating Oregon City and Tillamook from succeeding contests.

The question debated was: "Resolved, that Oregon should adopt a compulsory state health insurance law embodying the essential features of the standard bill of the American Federation for Labor Legislation." The affirmative arguments, presented in the debate in this city by Delmer Powers and Lee Doty, of Tillamook, were based on the financial losses of laborers during periods of sickness, and the success of compulsory health insurance in Germany. The negative team, consisting of Audrey Tuor and

Butcher's Hood River Lime and Sulphur Spray

Per barrel \$9.50 (\$1 returned for barrel)
Five gallon can \$1.25 (container free)
Per gallon 25c (container extra)

On or about February 20th we can also supply Srerwin-Williams Dry Lime-Sulphur. This is not a substitute for Lime-Sulphur Solution—but IS Lime-Sulphur Solution with the water evaporated.

Eighty pounds of S-W Dry Lime Sulphur will make one hundred gallons of solution. Figure the saving yourself.

Prices on S-W Dry Lime-Sulphur:

5 lb. can 16c per lb. 25 lb. can 14c per lb.
10 lb. can 15c per lb. 100 lb. can 91-2c per lb.
150 lb. can 9c per lb.

It is more economical to buy and handle than the liquid and more efficient. Let us tell you why.

HE SPENT HER CASH

Mrs. McGraw Stood Drink and Brutality Eight Years

F. W. McGraw beat his wife with his clenched fist and dissipated her personal fortune in drink and in other ways, says the complaint filed here Tuesday by Emma McGraw, through which she seeks divorce from Mr. McGraw. They were married at St. Johns, Ore., December 6, 1908.

When they were married Mrs. McGraw had \$1800 in personal property and cash. Her husband traded and squandered the entire amount, she says. Mrs. McGraw owns 200 acres of land in the Richard Young donation land claim and claims her legal interest in lots and a house at 300 East Seventy-fourth street, North Portland. She asks the custody of a child, aged 7, and for \$25 monthly alimony.

Administrator's SALE

I will sell at Public Auction on the farm of the late J. S. Yoder, at the Yoder saw mill 5 miles west of Molalla, 1/4 of a mile north of Yoder on the W. V. S. R. R., on

Thurs., Feb. 15, 1917

the following personal property, to-wit:

HORSES

1 Mare, weight 1400, 21 years old; 1 Mare, weight 1200, 21 years old; 1 Mare, weight 900, 21 years old; 1 Horse, weight 1300, 7 years old.

CATTLE

1 Cow, giving milk; 1 Cow with calf; 8 Heifers, fat, 2 years old; 2 Calves.

GRAIN

75 bushels of Oats; 20 bushels of Wheat; 50 bushels Barley and Oats mixed; 25 pounds Timothy seed; 150 pounds of Clover seed; 5 tons of Hay.

FARM IMPLEMENTS

One Binder; One Mower and Windrower; One Rake; One Manure Spreader; One Walking Cultivator; One Disk, 14 disks; One Corn Planter; One Fetzner Grain Drill; One Sucker State Drill; One Grass Seeder; One Wagon, 3-inch tire; One Wagon, 2-inch tire; One Saddle and Bridle; One Spraying outfit; One Ditching Plow; One Fanning Mill; One Seed Grader; One Sickle Grinder; One Scraper; One Platform Scales, cap. 600; One Garr Scott Engine, 16 H. P.; One Garr Scott Separator, 28x49; One Water Tank; One 4-H. Steam Engine, without boiler; One 4-section Harrow.

TERMS

All sums of \$10 or under cash. All sums of more than \$10 a credit of 9 months will be given with interest at 6 per cent per annum, on bankable notes. A discount of 5 per cent will be given on sums of more than \$10 if paid in cash. Terms on the threshing outfit are one-half payable in 9 months, one-half payable in 21 months, at 6 per cent interest.

Scott & Borne, Bloomfield, N. J.

GLADSTONE MAY BUILD

Council Needs Chambers for Its Meetings and a Fine Hall

Gladstone taxpayers and the city council are talking of the construction at an early date of a modern city hall, to provide office room for the several city officials and council chambers.

The structure as tentatively suggested may be a two-story building, and in such event, the lower floor will be made a home for a volunteer

fire department. The department itself will be a new institution, since Gladstone is not equipped for fire fighting at present. It is understood that the city council will officially consider the matter of a city hall at an early meeting.

Marriage License

A marriage license was issued here Tuesday to Mrs. K. E. Turner and George T. Angel, of Sherwood, route 5.
