

CUT OF ALMOST MILLION IN TIMBER ASSESSMENTS SOUGHT

Big timber interests in Clackamas county, represented by C. L. Star, a Portland attorney, have opened their annual fight on assessments. Mr. Star represents the Weyerhaeuser Land company, Frank E. Dooley, E. B. Collins, the estate of T. D. Collins, W. H. Hurt and the estate of George H. Lacy.

The total assessment of properties represented by Mr. Star is \$1,354,126 and he asks that the assessments be reduced to \$629,363.

The county board of equalization, before whom these cases are brought, Tuesday set October 3 as the date for a hearing. The county and the Weyerhaeuser people have fought the validity of these timber assessments through the circuit court into the supreme court. The case now is pending before the higher tribunal.

The board of equalization Tuesday cleared up most of the cases brought this year. On petition of the trustees of the First Presbyterian church, of Portland, the board made the church's home for human derelicts, at Estacada, exempt from taxation. The property was assessed at \$389.

The disposition of other cases follows:

Hans Larsen, denied; Agnes Shindler, Automatic Call building, Milwaukie, denied; John Z. Olson, reduction of \$450; E. P. Riley, granted; E. P. Riley, 66.86 acres in Samuel Miller D. L. M'CORMICK'S FIGURES HAVE BIG HOLE IN THEM

IF WILSON GETS 15 PER CENT OF
THE PROGRESSIVE VOTE
HUGHES IS ELECTED.

(By W. Y. Morgan.)

CHICAGO, Ill., Sept. 27.—Two days after the Maine election Chairman M'Cormick of the democratic national committee issued a statement in which he forecasted the re-election of Wilson. He predicted this forecast on the claim that Wilson would receive quite 15 per cent of the progressive vote of 1912, and that, he said, would be amply sufficient for democratic success in November.

Granting, for the sake of illustration, that Mr. M'Cormick is right in his contention that Mr. Wilson will get 15 per cent of Colonel Roosevelt's vote in 1912—which however many observers are unwilling to concede—it is difficult to understand how Mr.

M'Cormick reaches his conclusion. On the contrary, if Wilson secures only 15 per cent of the Roosevelt 1912 vote, in addition to his own vote in that year, his defeat is foredoomed, as a little calculation makes manifest. Taking 15 per cent of the Roosevelt vote of 1912 and adding it to the Wilson vote of 1912, and giving Hughes the balance, the result shows that Hughes will carry 24 states, with a total of 292 electoral votes, or 26 more electoral votes than the 266 necessary for election.

And this leaves out of the accounting a number of states in which, it is believed, Hughes has a fighting chance or better—for example, West Virginia, Kentucky, Missouri, Oklahoma, Nebraska, South Dakota, California and Arizona.

States that Hughes will carry under the calculation suggested by the M'Cormick interview follows:

Deducting 15 per cent from the progressive vote in the several states in 1912 and adding that percentage to the democratic vote of that year, the result stands as follows in the following named state, giving Hughes 292 electoral votes and Wilson 239 at the coming presidential election (necessary for choice 266):

Plans To Improve Old Hatchery Site

E. M. HOWELL, HIGH BIDDER AT
RECENT AUCTION, PLANS
SUMMER HOME.

E. M. Howell, who was high bidder at the government auction sale of the old hatchery site on the Clackamas river, is planning a summer home to be built on the property. A rustic wagon bridge, built for the public

use, will connect the county road to Mr. Howell's land.

The present building on the ground, with its 11 rooms and two fireplaces, formerly used by the government, will remain as it is for the present. In the early spring a portion of the structure will be torn away, and remodeled, but not to be used as a residence. The grounds surrounding the site of the new home of Mr. Howell are to be beautified with prettily laid out gardens, and trees are to be planted this fall.

Construction work will soon commence on the new residence, and will be one of the most modern in Clackamas county. There are 16 acres of land with a fine water power system.

Grand Champion Guernsey Bull

Katonah's Sequel's Masher, grand champion Guernsey bull at the Clackamas county fair of 1916, was grand champion at the Oregon State fair of 1914 and 1915, and first at the Pacific International Livestock show of 1913.

Katonah's Sequel's Masher's daughter, Red Wing's Model's Daunt, was junior champion at the Oregon State fair of 1915, winning over the heifer that was junior champion of eight fairs in 1915, the Panama Pacific included.

This animal's sire, imported Sequel's Monogram, won the King's cup for the best bull exhibited on the Island of Guernsey in 1908. A half

brother to Katonah's Sequel's Masher, imported Clara's Sequel, the same sire, won the King's cup in 1910, and has half sisters from the same sire who have entered the advanced registry with 500 pounds of fat and over as two years old. The requirements for advanced registry at two years is 250.5 pounds of fat, adding one tenth of a pound of fat for every day up to five years, when the requirements are 360 pounds of fat, full age requirements.

This animal, owned by A. L. and J. Hughes, of Oregon City, Route No. 2 was taken to the Oregon State fair Friday morning with the remainder of the herd, their being 15 head in all.

TOMBURKETAKES UPCROSS'DUTIES FORCHAUTAUQUA

AFTER 23 YEARS' WORK WITH
ASSOCIATION VETERAN SEC-
RETARY QUILTS WORK.

ARRANGEMENTS ARE MADE FOR NEW AUDITORIUM AT GLADSTONE PARK

Building Committee is Named at An-
nual Meeting of Directors of Wil-
lamette Valley Chautauqua
Association Friday Night.

Harvey E. Cross, veteran secretary of the Willamette Valley Chautauqua association, refused to be re-elected at the annual meeting of the directors in the Commercial club Friday afternoon, and Thomas A. Burke was elected to his place.

Mr. Cross has been with the association since its organization 23 years ago, and has held an office every year during that time. For about 18 years he was secretary of the association, and he was always actively connected with its management. Much of the success of the association, held annually in Gladstone park, is attributed to him.

Mr. Burke, who takes his place, is experienced in chautauqua work. For several years he has handled publicity for the association and has been in close touch with the other affairs of the association. As Mr. Cross' assistant to the office, probably the most important in actual chautauqua management, with a knowledge of chautauqua work.

C. H. Dye was re-elected president and E. G. Canfield treasurer at the meeting Friday afternoon. Both Mr. Dye and Mr. Canfield have been connected with the association for many years.

Plans for the construction of a new auditorium were discussed at the meeting and a building committee, composed of E. G. Canfield, Harvey Cross, Fred Olmsted, C. Schuebel and John W. Loder, was named.

Drawings and estimates for a new auditorium will be gathered this fall and construction will be under way early next spring. The association has enough money on hand to insure the erection of a modern building without further delay and several plans already have been suggested.

DEPRESSION FELT IN WORLD'S WHEAT TRADE

MARKET IS FIRM AND HIGH ONE
MOMENT AND WEAK AND
LOW THE NEXT.

PORTLAND, Ore., Sept. 21.—Depression was again general in the world's wheat trade for the day. Recent trading has been very erratic, being firm and higher one moment and weak and lower the next. This feeling is naturally shared to some extent by the local trade, although it must be said to the credit of Pacific northwest wheat buyers, they have been less stampeded by the recent downward fluctuations elsewhere than has been the case in other sections.

To some extent, perhaps, this is due to the fact that the moment that prices go off a fraction here, selling in the country is entirely suspended.

PORTLAND, Ore., Sept. 21.—The peach market is showing considerable strength locally and at shipping points. Sales along the wholesale way are reported around 70c for favorable sizes of Elberta and Crawford. There are few Crawfords offering at this time and what stock is available consists almost entirely of extremely large fruit or very small sizes. Medium sizes are scarce. Nevertheless some sales of the ordinary sizes are reported strong at 55c, with limited business 24c above this.

Market for Gravenstein apples is firmer with extra fancy showing quite fair sales around \$1.75 and fancy stock at \$1.50. While some other varieties are offering, there is little demand for them aside from cooking apples. Sales of off grade Gravensteins are reported down to 50c a box.

Extreme strength continues in the market for eggs here with receipts still on a nominal basis.

Sales of case count are reported in Portland, wholesale at 31½¢ to 32¢ a dozen, with candled stock firm at 34¢ to 35c, the latter for extra select.

HUNTER BAGS 2 DEER, 2 BEARS IN 4 DAYS

R. J. ZIVNEY, OF HAZELIA, RE-
TURNS FROM SUCCESSFUL TRIP
IN SOUTHERN OREGON.

R. J. Zivney, of Hazelia, has returned to Oregon City from his hunting trip, bringing back carcasses of a five and a four pointed buck and the hide of a large black bear. Her cub also met its fate at the hands of Zivney, but owing to the weather conditions in the mountains it was impossible to bring the cub's pelt back.

Zivney left this city Sunday evening, September 17, and at Riddle, southern Oregon, he secured the services of James Dumont, an Indian guide. The two men took the stage as far as Tillier, Oregon, a distance of 36 miles, and from that point packed 14 miles, along the Umpqua river. Camp was pitched at a point what was termed "The Golden Wedding Camp." Monday the two started out for their hunt for big game in the wilds of the Cow Creek canyon, both of the hunters being familiar with this wild country.

The first day's hunt was Tuesday, and Zivney came across a large black bear and her cub partaking of berries in the mountains. With good aim and quick shot the mother first met her fate, and a few minutes later the cub. The mother weighed 200 pounds and the two men found it a difficult task to get her out of the canyon. Wednesday's hunt brought no game, but on Thursday they were more successful. The four point buck, weighing 155 pounds, was carried off by means of the pack horse. These three animals were shot within one or two miles from camp. Thursday camp was changed, the hunters crossing the Umpqua river to what is known as the Frank George's camp. They remained at this point until Saturday, when they started on another hunting trip, and secured a five-point buck weighing 150 pounds. This was placed on the back of one of the pack horses, and the two men started towards camp with their burden.

Zivney is one of the crack shots of Clackamas county. He has for the last seven years made his annual hunting trip to the Cow Creek canyon section, and so far has never failed to bring in some of the big game that abounds there. His guide, James Dumont, is familiar with every nook and corner of that wild country, and during the hunting season this year has taken a large number of hunters in the mountains. His father, Frank Dumont, is also a mountain guide of southern Oregon.

CLACKAMAS PAVING IS LIKED IN PORTLAND

PORTLAND, Ore., Sept. 25.—Following investigation of pavement being laid by Clackamas county on the road between Sellwood and Milwaukie, Commissioner Dieck has recommended that the same type be laid on East Ninth street, between Spokane and Umatilla avenues. About one-half of the property owners along this street have petitioned for use of this pavement.

Commissioner Dieck says investigation has shown that soil and drainage conditions on East Ninth street are suitable for the new class of pavement and it can be laid probably with safety. He reports that it complies with one set of the city's present paving specifications.

HIGHWAY UP WILLAMETTE RIVER NOW IS PROPOSED

UP-VALLEY TOWNS URGE CON-
STRUCTION OF ROAD LIKE
COLUMBIA HIGHWAY.

Newberg, McMinnville and other up-valley towns have on foot a plan to build a road, somewhat similar to the Columbia highway, south out of Portland to Eugene. The proposed road would follow the west bank of the Willamette, and its backers believe that it would rival in every way the now famous road up the Columbia.

A meeting of men from several communities was held at Newberg last Tuesday night to consider the plan and a second meeting will be held tomorrow.

Backers of the plan suggest that the road be hard surfaced, and that it follow the design of the Columbia river highway. The route of the road, beyond the plan of following the west bank of the river, has not yet been worked out, but it would be difficult to map a road leading south out of Eugene along the Willamette which would not cut through Clackamas county.

A Distinctive Reason

What is the chief reason for the superiority of Royal Baking Powder?

There are several good reasons, but there is one which distinguishes Royal from other baking powders.

This reason, which every woman should know, is that Royal Baking Powder is made from cream of tartar, which comes from grapes. This means a healthful fruit origin. It means natural food as distinguished from mineral substitutes used in other baking powders.
