

OREGON CITY ENTERPRISE

OREGON CITY, OREGON, FRIDAY, MAY 9, 1919

ESTABLISHED 1866

CONTRACT OF GRADING HIGHWAY HELD UP

Awarding of the contract for grading the Pacific highway on the west side of the Willamette river between Oregon City and Oswego has been held up pending an examination of the location.

J. Jensen, chairman of the State Highway Commission, said Wednesday morning that a change in the location of the survey made last year by the commission had been suggested, and that it had been pointed out that south of Oswego several railroad crossings could be eliminated. He announced that the commission would probably ask for bids for the grading, and would have these bids at a meeting of the commission to be held May 20.

County Judge Anderson is cooperating with the highway commission on this project, explained Mr. Jensen, and has tendered to the commission all of the money available from the county funds for grading the road.

H. Johnson, county surveyor, made a survey of the proposed highway a few months ago and the route he has located indicates some change from that originally made by the commission's engineers.

It is understood to be the purpose of the commission to grade the Pacific highway, this year, not only on the west side of the river, but from Astoria to Aurora, with the use of as much money as Clackamas county has spare, the difference to be advanced by the state, and if this plan is carried out, payment will be made next year in an unbroken stretch over the Pacific highway through Clackamas county from Multnomah to Marion county line.

MERCHANTS PROTEST AGAINST INCREASED PRICES OF BREAD

The grocers of Oregon City at the Commercial club Thursday evening to make formal protest to the Portland bakers for their recent price in bread prices.

Without any warning whatever the bakers informed the local men that they delivered the bread Thursday morning that the price was raised one cent on each loaf, making the price 11 cents and the 15-cent loaf 16 cents. In protest to this the merchants cut their orders to one-half the usual amount.

The merchants consider this increase unjust and claim that it borders on profiteering as the reason given by the bakers is that they have increased the wages of their men \$1.00 a day and were forced to increase prices. The local men claim that this is too much of an increase for they pay that a bakery employing 50 men will produce 50,000 loaves per day, which means \$500 increase at one cent per loaf, leaving the producers with a profit.

The merchants are making this protest in behalf of their customers and it is the latter that have to pay the increase.

It is the intention of the merchants to forward the protest to the Portland bakers and ask for the old prices.

Many people over the country are asking for the old five-cent loaf as the new is over and the new increase is a surprise to all.

ITALIAN DELEGATES ARE RETURNING TO PARIS FOR MEETING

PARIS, May 5.—The Italian delegates are returning to Paris, the Italian ambassador informed Foreign Minister Pichon this afternoon.

The ambassador said that Premier Orlando and Foreign Minister Sonnino are leaving Rome tonight and will arrive here Wednesday morning.

The "Big Three," it was learned from an authoritative source, is considering a plan whereby Fiume would become a free port under the League of Nations for three years, pending construction of a Jugo-Slav port.

BRUSSELS, May 5.—A dispatch from Vienna today reported the allies had today the Austrian peace delegates to come to St. Germain on May 12.

PARIS, May 5.—The Belgian peace council voted unanimously last night to sign the peace treaty with Germany.

CASE AGAINST SCHOOL TEACHER IS SETTLED IN PORTLAND COURTS

Upon the motion of the complaining witness, the Meier & Frank Co., of Portland, the case against Miss Lucile Roe has been dismissed, to the satisfaction of her friends in Oregon City and Portland. The issues involved in the controversy have been adjusted to the satisfaction of all of the parties concerned.

Miss Roe had been charged with attempting to defraud the store by having merchandise charged to accounts other than her own, but her friends, who have made an investigation of the circumstances, are convinced that Miss Roe, who has been a teacher in the Oregon City schools for the last two years, had no intention of defrauding either the Meier & Frank company or her friends.

PEACE TERMS GIVEN GERMANS AT VERSAILLES

VERSAILLES, May 7.—Germany today was told the terms upon which the allied and associated powers will make peace with her.

These terms were contained in a treaty some 80,000 words in length which was handed to the German plenipotentiaries at a memorable assemblage here, attended by the delegates of the 27 nations which are parties to the peace pact. The document is introduced by an extensive preamble, embodying the assertion of authority upon which the treaty is based.

PARIS, May 7.—A lengthy summary of the peace treaty was made public this afternoon, simultaneous with its presentation to the German delegates at Versailles. At the same time President Wilson made public for the first time the exact nature of the pledge he and Premier Lloyd George of Great Britain gave the French government, respecting the aid the United States might render in case France is again attacked by Germany.

In addition to the securities afforded in the treaty of peace, said an official statement issued on his behalf, "the president of the United States has pledged himself to propose to the senate of the United States, and a prime minister of Great Britain has pledged himself to propose to the parliament of Great Britain an engagement, subject to the approval of the council of the League of Nations, to come immediately to the assistance of France in case of unprovoked attack by Germany."

Under the provisions of the treaty: Alsace-Lorraine goes to France. The Saar valley will be temporarily internationalized. Dantzig will be permanently internationalized. Germany renounces all territorial rights outside Europe. Germany recognizes the independence of Poland and Czechoslovakia. The German army is reduced to 100,000 officers and men, and conscription within Germany is abolished. The German navy is reduced to 24 warships and no submarines; that Germany may have only 100 unarmed seaplanes to search for mines off her coast. Germany will pay an indemnity, the amount of which is not yet fixed, the initial payment to be 25,000,000,000 marks, about six billion dollars. Germany cedes a large part of her merchant fleet to the allies. Germany agrees to the trial of the ex-kaiser. The disposition of the surrendered German fleet, the German colonies and the German cables is left to future action. The League of Nations becomes a living organization.

SALEM, May 3.—General revision of telephone exchange rates, which means all local telephone rates, is denied by an order issued today by the public service commission in the Pacific Telephone & Telegraph company case, which is the largest telephone rate case ever heard by the commission.

Increases in rates, however, were allowed by the commission for all business telephones operated by this company in the state, and increases were allowed in rates for residence telephones at Albany, Corvallis, Oregon City and Grants Pass.

Increases in the rates for business telephones range from \$1.50 per telephone in Portland down to 25 cents on other slight increase in smaller towns and cities.

PHONE RATES INCREASED FOR OREGON CITY

SALEM, May 3.—General revision of telephone exchange rates, which means all local telephone rates, is denied by an order issued today by the public service commission in the Pacific Telephone & Telegraph company case, which is the largest telephone rate case ever heard by the commission.

Increases in rates, however, were allowed by the commission for all business telephones operated by this company in the state, and increases were allowed in rates for residence telephones at Albany, Corvallis, Oregon City and Grants Pass.

Increases in the rates for business telephones range from \$1.50 per telephone in Portland down to 25 cents on other slight increase in smaller towns and cities.

Tapping the Loop

The proposal to tap the Mount Hood loop road by constructing a highway from the vicinity of Firwood, through the George and Estacada districts and down Eagle Creek and the Clackamas river to connect with the Pacific highway at Oregon City is worthy of commendation.

This project is one that should have the backing of Oregon City road enthusiasts and business men to the limit. Such a road offers not only wonderful scenic advantages, but would be a real market road, and would bring to Oregon City thousands of dollars in business that now is diverted into Portland by reason of the superior roads in that direction.

Let us approach this project in a sane spirit, and remember that this is no piker's idea, for the cost of construction will run into big figures. It is the fond hope of the promoters that aid may be obtained from the government, through post road funds, from the state, from the county and from the road districts through which the highway will pass.

The Mount Hood loop road proper will be financed by the federal government, the state highway commission, and possibly the counties of Hood River and Clackamas, through which the loop highway will run, and by Multnomah county, which was authorized by the 1919 session of the legislature to expend some of its road money on highways situated in counties adjacent and contiguous to it.

Eastern Clackamas people and residents of Oregon City have formed an organization for the purpose of securing this Clackamas river highway, and if the difference of opinion that may arise over the exact location of the road does not spoil the project at its inception, we may reasonably foresee the completion, within a few years, of a main artery east and west through Clackamas county.

Oregon City should bend all its energies to bring its country neighbors closer to the county seat, and should embrace an opportunity to assist a movement, the success of which will probably kill the county division bogey.

OREGON GOES OVER TOP IN LOAN DRIVE

PORTLAND, May 3.—By the closing effort of its campaign, as clean and powerful as a sword sweep, Oregon has cut the knot of its victory loan quota and announced to the nation that her task in the fifth issue is finished. The state quota of \$26,747,550 is over-subscribed.

Third of the states to finish the task and first on the Pacific coast, the state of Oregon lays claim to being the first state in the sisterhood to close its victory quota by popular subscription. Iowa and Michigan, which have already closed their quotas, are generally understood to have done so through the aid of their banks, which are said to have underwritten the allotments. But Oregon's drive has been a genuine appeal to her citizens—who have responded.

SMALL DISTRICT OF HAZELIA IS FAR OVER TOP

The Liberty Loan Victory meeting held at the Hazelia school house Wednesday evening was one of the most enthusiastic meetings held at that place. George C. Brownell gave a patriotic address, which assisted the district going over the top. The quota for that little settlement was \$2900, but \$6400 was raised.

The following are those who subscribed: Frank Whitten, \$1000; Anton Neilson, \$100; D. E. Long, \$50; H. T. Duncan, \$100; Jerry Flala, \$100; J. P. S. L. and W. B. Cook, \$500; Robert Wanker, \$4000; F. W. Wanker, \$500; R. J. Zivney, \$50.

Hazelia has gone over the top in every drive, and the people of that place are proud of the flags that have been awarded for the patriotic spirit of that section of the county.

GOOD ROADS ARE BOOSTED AT ESTACADA

Two radical changes in the administrative methods of road construction in Clackamas county were advocated at the big good roads meeting at Estacada Wednesday evening and were favorably received by the 150 farmers and business men who gathered in the school house at the eastern Clackamas county metropolis. A few years ago these suggestions would have been hooted down in a like meeting.

The first change was advocated by County Judge H. S. Anderson who proposed that the 57 odd road districts in Clackamas county, outside of the special districts within the corporate limits of cities, be merged into one big district.

"The day of thinking in the terms of a small road district is past," said Judge Anderson. "We must think in broader terms and I am of the opinion that we could do more constructive road work if we would abolish the antiquated small road district system, like other counties have done, and consider it as county, outside of cities, as one district."

Road Master Thomas Roots seconded Judge Anderson in this suggestion. He explained the difficulties the county experienced in making the meager 30 per cent of the road fund spread over all the general road work of the county.

The second suggestion was made by Rufus Holman, county commissioner of Multnomah county, who urged, in a rousing speech, a bond issue in Clackamas county. His suggestion was received with much applause.

Dr. L. A. Morris, chairman of the road committee of Oregon City also advocated a single road district plan and urged the eastern county men to get behind one road between Estacada and Oregon City and see that it was put in.

E. H. Bartlett of Estacada presided at the meeting. H. E. Cross, W. H. Harris and W. A. Proctor spoke briefly on the road question.

Briefly but clearly, E. E. Brodie took up each constitutional amendment and appropriation by bond issues on the state which will be submitted to the voters at the special June election. He explained the present laws of the state which would be changed by the constitutional amendments and told the purpose and distribution of the several bonding measures.

TAYLOR SENTENCED

Edward Taylor, who was found guilty by the circuit court jury of contributing to the delinquency of a minor, was sentenced Monday to six months in the county jail and to pay a fine of \$100.

The jail sentence was remitted and Taylor is to report to the district attorney each month either in person or in writing.

COUNTY IS DEFENDANT IN SUIT TO PREVENT MAKING NEW ROAD

S. B. Berg entered suit Saturday against Clackamas county to prevent them from running a new county road through his property.

A petition was presented to the county court some time ago and was signed by a number of freeholders asking for a new road near the Joslyn bridge in section 32. The court made preparations for the road and the plaintiff alleges the proceedings were null and void because they did not state that the road was a public necessity and the boundaries were not according to the affidavits filed by the road reviewers. He further claims that he was not notified of the intention to pass through his property and that this road would ruin good farm land and tear down some of his fences.

MANY ROADS ARE ASKED OF COUNTY COURT

Petitioners for new roads in all parts of the county thronged the county court rooms Wednesday, the first day of the meeting of the court.

Representatives of Marquam, Needy, Yoderville, and Macksburg, presented a petition signed by 411, asking the county court to survey for the establishment of a new road from Canby to Marquam. This would be a market road, taking the most direct line between the two towns, the farmers proposing to give the rights of way through their lands.

It is proposed to pay for the road through general taxation, using it as a dirt road at first and then paving later. This road would begin east of Canby, cross the Molalla river at Good's bridge, run through Gribble Prairie on to Marquam.

Five other petitions for new roads were presented to the county court Wednesday and were referred to the road reviewers. These roads were located in the Dover district, Clackamas district, Damascus, Molalla and Mulling districts.

Petition was presented for the vacation of the township of Robertson, near Ferry Station. This will come up for hearing Friday at 1:30 o'clock.

Remonstrance against a petition for the reestablishment of a road near Glad Tidings was filed and prevailed.

Masked Bandits Hold Up Bank

PORTLAND, May 5.—Two masked automobile bandits this morning at 9:30 o'clock, entered the Clarke county bank in Washougal, held up Cashier T. S. Keet, George P. Dibble, a customer, and two young women assistants and made away with \$7000 in currency. Miss Kathryn Keet, daughter of the cashier, and also one of the assistants, followed the pair to their car, left a block away, and obtained the license number Oregon 55545.

The robbers drove up the Washougal river, crossed the bridge and turned back toward the Columbia, followed by several automobiles filled with Washougal men. Near Cape Horn former Sheriff Tappington and several men in one of the pursuing cars were reported to be about a quarter of a mile behind the robbers.

Posse Captures One Of Bank Robbers

THE DALLES, May 7.—One of the three men who held up the Clarke county bank at Washougal was captured at The Dalles this morning after a fight in which Chief of Police Gibbons was probably fatally shot.

Angry citizens, armed, threatened to lynch the robber after his capture, but were held off by Sheriff Chrisman at the point of his revolver until an automobile came along. Chrisman put the robber into the machine and took him to the city jail, where he is being held.

A second of the robbers escaped from Chrisman following the shooting of Gibbons, and is being sought by a large posse. He started east from The Dalles. The third robber, who is wounded, has disappeared.

American Troops Home by August

WASHINGTON, May 7.—Practically the entire American army, except the army of occupation, probably will have left France in August, Secretary of War Baker stated today.

Ship movements have been so rapid he said, that all but a small working force, which it may be necessary to maintain in France, should have sailed for the United States by that time.

TELEPHONE COMPANIES TO UNITE ON JUNE 1

After June 1 the duplicate telephone service in Oregon City will be eliminated.

This announcement was authorized Wednesday by W. D. Phillips, commercial manager of the Pacific Telephone & Telegraph Co., which purchased the local Home Telephone company, known as the Oregon City & Farmers Independent Telephone company, several months ago. Mr. Phillips said that on June 1 he expected the offices of the two companies would be consolidated at the office of the Pacific company, and that service over the local Home company would be discontinued from that date. Physical connections with the several locally owned farmers lines running into Oregon City will be established through the office of the Pacific company.

Consolidation of the two concerns has been anticipated for some time past, and will result in a saving to the business public of Oregon City, which has been forced to subscribe to both systems in order to obtain connection with the country districts, now served by the Home company. While the recent order of the Public Service Commission will result in an advance in local phone rates, the net amount to be paid by people who have been subscribing to both phones will be considerably less than now paid.

The local offices of the Home company, located in the Andressen building, will be closed, and all business transacted at the office of the Pacific company in the building adjoining the First National Bank. Ben Hayhurst, for a number of years local manager of the Home company, has been appointed acting manager of the Pacific company and is now directing the activities of both concerns.

In increases in rates only affects the business phones, these being increased \$1.00, making the two-party line \$3.00 and the individual line \$3.50 over the old rates of \$2.00 and \$2.50. An additional charge of 25 cents will be made for desk sets.

The old Home company subscribers in the resident district will be increased 25 cents over their old rates as the Pacific company rates are that much higher than those of the Home company. The Pacific rates in the resident district will be the same as before.

New directories containing both the old Home company and the Pacific company subscribers will be issued when the two systems consolidate.

PLANS OF HOUSING COMMITTEE OUTLINED

Plans of the housing committee of the Commercial Club, which is aiming at 50 new homes in Oregon City this year, are taking concrete form. Several meetings of the committee have been held since the preliminary report was made to the club and within a few days an intensive campaign will be begun to raise the necessary funds for the organization.

The plans as outlined by the committee, call for a co-operative corporation with a capital stock of \$50,000 as a working basis. This money will be subscribed by the manufacturing, business and property interests of Oregon City and used to secure suitable sites, erect homes and sell these homes to Oregon City workers at cost, on an easy payment plan. The organization will be governed by officers working without any compensation other than their dividends from stock. Overhead expense will be kept at a minimum and it is estimated that the homes can be sold at a saving of from 12 to 15 per cent, and the stockholders realize about 5 per cent on their investments.

The success of the plan seems practically assured. Already volunteer offers of stock subscriptions in pleasing amounts have been made to the committee and a number of applications have been received for homes from workers in this city.

The plan is to list up the available vacant property in this community and immediate district, and let the prospective home-owner choose his lot from the list. Already several attractive offers of city lots have been made. In this connection, the committee has requested that any property owner desiring to offer holdings, list it in writing with the chairman, A. R. Jacobs, or the secretary, Lloyd Riches.

W. A. Huntley, one of the larger business men of the city, has been added to the committee.
