Getting Started.

What school life does for us is to get us started. The girl who talks of "finishing" an education is heard from less frequently than she used to be. For even the young realize that the owner of a college diploma in little more than started on an education. If in school we learn to work sincerely and systematically. If we acquire logical habits of thinking, as well as methodical habits of work, we have made a good start. If, on the contrary, we shirk wherever we can, we are starting wrong—Girl's Companion.

Portland Fishermen Given \$50 Fine

W. E. Schwander, a shipyard foreman, was arrested here Saturday by Constable Fortune. He was charged with fishing with a foul line and fined \$50 and costs by Justice Stipp.

The line used contained three hooks of the three-barb variety, which is known as "foul line."

The man paid the fine under protest and probably will appeal the case.

Smoking a Cause of Cancer.

Cancer of the mouth in civilized countries has been greatly reduced by good dentistry. Eighty-five per cent of the cancers of the lip occur in smokers. Formerly clay pipes, which became very hot, were much used, and there has been a notable reduction in the number of cancers of the lip since the clay pipe has gone out of fashion. Smoking, however, is the cause of most cancer of the lip, the tongue and the floor of the mouth.—Maj. W. J. Mayo, War Department Lecturer.
