ADVENTURES OF JIMMY COON

Cousin Bruin's little black eyes sparkled with joy as he saw Jimmy Coon break the shell and eat the oyster inside, so he put his paw into the barrel, way down, just in the same way that he did when he stirred up the ant hill, and he drew it quickly back with a low growl, for those oysters were packed in ice. The cold ice felt on Cousin Bruin's paw, just like hot coals of fire. Cousin Bruin sat down on his haunches, sucked his cold and half frozen paw, looked at Jimmy Coon with a glare of rage, and he began to growl. But Jimmy plucked up heart and said, "Now Cousin Bruin cool off and push that barrel over, and the oysters will roll out. You don't know what ice is. It can't hurt you. You sleep all winter and you don't know about ice and snow. Why those silly people want to put ice on perfectly good oysters is more than I can tell."

Now Teddy Possum didn't care for oysters on the half shell or on the whole shell, and so he was keeping watch on the door of the wood shed, and he could hear Ranger whining in the barn and so he said, "Hurry, hurry!"

Over went the barrel. Cousin Bruin, crushed the oysters with his big paws, and chew at them with his sharp teeth. Little Jimmy cracked as many as he could and ate as fast as possible, and soon not an oyster was left. Ice was all over the floor and Cousin Bruin had crushed in the side of the barrel, with his huge paw.

But now, Ranger in the barn began to grow uneasy. His white became a soft bark and the a louder bark, and then he began to howl. Little William began to hear him in his sleep. He turned over in bed and said sleepily, "Oh Ranger, shut up, can't you let a fellow get a wink of sleep," and then Little William snored louder than ever.

And Farmer Jones woke up enough to say in a cross voice, "Dra! that dog Ranger, if I live 'till morning I will kill that dog or give him away," and Mrs. Jones just smiled, and only half awake she said, "Now

there, there, Ranger is a good old dog, and you won't do anything of the kind. That is a stray cat prowling around.

And so all the Jones' family settled themselves for a long summer's nap, for they felt perfectly safe with Ranger to guard them.

Tomorrow—The Chase.

POLICE OF WINNIPEG ARE OUT ON STRIKE INDUSTRY PARALYZED

VANCOUVER, B. C., May 21.—Police have walked off the streets at Winnipeg, according to advices here, with the consequence that a state of martial law is being proclaimed. Dispatches said that the members of the force were dissatisfied because of interference on the part of the military, also protecting life and property, and that the entire critical situation was then left in the hands of the soldiers.

GERMAN ENVOY DECLARES FOOD IS MAIN ITEM

BERLIN, May 15.—Count Von Brockdorff-Rantzau, head of the German peace mission at Versailles, handed to M. Clemenceau, president of the peace conference yesterday, three notes, one of which deals with the economic aspect of the peace terms and the effect they will have on Germany. It is pointed out in the note that Germany is no longer an agrarian state and cannot feed more than 40,000,000 people.

The economic terms of the peace treaty with their restrictions of trade and other factors which are involved means, the note says, that many millions of people in Germany will perish all the more quickly, as the nation's health is already broken by the blockade.

U. S. SOLDIERS BEING HELD ON RHINE RIVER

WASHINGTON, May 20.—Apparently authentic reports from Paris, received here through semi-official channels, that all American troop movements home ceased after May 16 and that all American troops are being held for the time being, awaiting the action of the Germans, were credited here in well informed circles. The last information officially given out by the war department yesterday dealt entirely with ships sailing not later than last Friday, May 16. This was a list of 12 troopships and gave full detail of the passenger list and all the military units.

Senator Would Move Capital

WASHINGTON, May 21.—Senator Sherman, of Illinois, threatened today to have the capital of the United States removed from Washington to the Middle West.

The senator is still on the warpath against profiteering landlords of the District of Columbia and says if they persist in gouging the public after war-time legislation restraining them becomes inoperative, he will "up and move" the capital westward to grow up with the country. Washington never was a good place for it anyway, he insisted.

MORE TIME IS GIVEN HUNS ON PEACE TERMS

PARIS, May 21.—Count Von Brockdorff-Rantzau, head of the German peace delegation, has asked an extension of time for Germany to present her reply regarding the peace terms. The count stated that further notes were being prepared and that it would be impossible to complete them by 1 P. M. Thursday, when the time limit is up.

PARIS, May 21.—The German peace delegation has been granted an extension of seven days, or until May 29, in which to reply in full to the peace terms, according to an official announcement.

BERLIN, May 20.—Germany declines to sign the peace terms laid before it because they spell the "economic destruction, political dishonor and moral degradation of the entire nation, not only for the present, but also for still unborn generations," was a statement authorized by cable this morning.

The investigation is being conducted in the office of Lloyd J. Wentworth, district supervisor of the government's wood shipbuilding activities of the Oregon district.

Lancaster was removed from his position as district engineer some three weeks ago, but the news did not become known until the investigation was started today.

PRESIDENT HAS MERCY FOR BEER AND WINE

WASHINGTON, May 20.—President Wilson's cabled message outlining legislation for the extra session of the new congress was read separately in the senate and house today by clerks, and arrangements were made by congressional leaders for immediate consideration of the vast legislative program, with the equal suffrage resolution to come up tomorrow in the house.

Major recommendations of the president were for the early return to private ownership of railroads, telegraphs and telephones, for repeal of war-time prohibition insofar as applying to beer and wine, for women suffrage, retaliatory tariffs, protection of the dyestuff industry and labor and employment measures. The president announced his intention to turn back the railroads at the end of the calendar year.

Health Suggestions

To Cure a Sting of Bee or Wasp—

Bind on common baking soda, dampened with water. Or mix common earth to about the consistency of mud.

Leanness—Is caused generally by lack of power in the digestive organs to digest and assimilate the fat-producing elements of food. First restore digestion, take plenty of sleep, drink all the water the stomach will bear in the morning on rising. Take moderate exercise in the open air, eat oatmeal, cracked wheat, graham mush, baked sweet apples, roasted and broiled beef, cultivate jolly people and bathe daily.

Toothache—Oil cloves, one-half

drachm; oil peppermint, one-half

drachm. Mix. Moisten a small piece

of cotton in this mixture and insert in

the hollow tooth.

Relief for Asthma—Sufferers from

asthma should get a muskrat skin and

wear it over the lungs with the fur

side next to the body. It will bring

certain relief. Or soak a blotting

paper in saltpetre water, then dry, burning

a night in the patient's bedroom.

Another excellent remedy is: Take

a powdered licorice root, powdered

elecampane root, powdered aniseed,

each one drachm, powdered

licorice, ten grains; powdered lobelia,

ten grains; add sufficient amount of

tar to form into pills of ordinary size.

Take three or four pills on going

to bed. An excellent remedy for asthma

or shortness of breath.

WEEKLY SOLDIER LETTER

The following letter has been received by Mrs. W. P. Kirchman of Logan, from her son, Floyd, who received his discharge from the service at New York, May 3, and who has arrived at the family home at Logan:

U. S. S. Western Belle,

Constantinople, Turkey,

March 5, 1919.

"Dear Mother:

"Well, I've been among the Turks

for almost two weeks now, and have

not been killed, so guess they are not

so dangerous after all.

"We came back here from Der-

inje, March 2, after discharging the

cargo there. We are taking on some

tobacco and mohair here, but the bulk

of our cargo will be taken up on the

way.

"Have had a very good time here

so far; are many interesting things

to see, and got a few souvenirs.

"I drove a Geo truck at Derinje,

hauling flour from the ship to the

warehouse. It's wonderful how much

stuff the United States is sending

here for the Armenians. Since Febru-

ary 5 there has been four more ships

here with everything from toilet

paper to trucks and tractors. I came

very near being set off there as the

U. S. N. commander wanted to attach

me to the station there, to help take

care of the trucks, do guard duty,

etc., but our skipper said nix, for he

was short of men. If I had stayed I

would have been a year at least.

(ugh!)

"The warehouses and railroads at

Derinje were built by the Germans in

1912. In the Berlin and Bagdad rail-

way.

"There is a large quantity of

Krupp ammunition, mostly 65 centi-

needful of men to bring the doughboys

back.

"It may be of interest to you

to know that a Portland built boat

was the first to go from a United States

port into Germany. We went through

the Kiel Canal and thence on up

through the Baltic to Danzig. Of

course it is now an international

port, but at that time both Poland

and Germany wanted it and there were

numerous small fights and at least

they were all ready to fight at the
