ADVENTURES OF JIMMY COON

Cousin Bruin's little black eyes sparkled with joy as he saw Jimmy Coon break the shell and eat the oyster inside, so he put his paw into the barrel, way down, just in the same way that he did when he stirred up the ant hill, and he drew it quickly back with a low growl, for those oysters were packed in ice. The cold ice felt on Cousin Bruin's paw, just like hot coals of fire. Cousin Bruin sat down on his haunches, sucked his cold and half frozen paw, looked at Jimmy Coon with a glare of rage, and he began to growl. But Jimmy plucked up heart and said, "Now Cousin Bruin cool off and push that barrel over, and the oysters will roll out. You don't know what ice is. It can't hurt you. You sleep all winter and you don't know about ice and snow. Why those silly people want to put ice on perfectly good oysters is more than I can tell."

Now Teddy Possum didn't care for oysters on the half shell or on the whole shell, and so he was keeping watch on the door of the wood shed, and he could hear Ranger whining in the barn and so he said, "Hurry, hurry!" Over went the barrel. Cousin Bruin crushed the oysters with his big paws, and chewed at them with his sharp teeth. Little Jimmy cracked as many as he could and ate as fast as possible, and soon not an oyster was left. Ice was all over the floor and Cousin Bruin had crushed in the side of the barrel, with his huge paw.

But now, Ranger in the barn began to growl. His white became a soft bark and the louder bark, and then he began to howl. Little William began to hear him in his sleep. He turned over in bed and said sleepily, "Oh Ranger, shut up, can't you let a fellow get a wink of sleep," and then little William snored louder than ever.

And Farmer Jones woke up enough to say in a cross voice, "Drat that dog Ranger. If I live 'till morning I will kill that dog or give him away," and Mrs. Jones just smiled, and only half awake she said, "Now

there, there, Ranger is a good old dog and you won't do anything of the kind. That is a stray cat prowling around.

And so all the Jones' family settled themselves for a long summer's nap, for they felt perfectly safe with Ranger to guard them.

Tomorrow—The Chase.

POLICE OF WINNIPEG ARE OUT ON STRIKE INDUSTRY PARALYZED

VANCOUVER, B. C., May 21.—Police have walked off the streets at Winnipeg, according to advices here, with the consequence that a state of martial law is being proclaimed. Dispatches said that the members of the force were dissatisfied because of interference on the part of the military, also protecting life and property, and that the entire critical situation was then left in the hands of the soldiers.

BANDON, May 21.—Industries of all western Canada are facing complete paralysis if unions in the various cities fulfill their present intentions to join in the general strike that has tied up Winnipeg. Reports reaching here today declare that unions in Victoria, Vancouver, Calgary and other western Canadian cities are ready to join in the general strike whenever their leaders direct them.

GERMAN ENVOY DECLARES FOOD IS MAIN ITEM

BERLIN, May 15.—Count Von Brockdoft-Rantzau, head of the German peace mission at Versailles, handed to M. Clemenceau, president of the peace conference yesterday, three notes, one of which deals with the economic aspect of the peace terms and the effect they will have on Germany. It is pointed out in the note that Germany is no longer an agrarian state and cannot feed more than 40,000,000 people.

The economic terms of the peace treaty with their restrictions of trade and other factors which are involved means, the note says, that many millions of people in Germany will perish all the more quickly, as the nation's health is already broken by the blockade.

U. S. SOLDIERS BEING HELD ON RHINE RIVER

WASHINGTON, May 20.—Apparently authentic reports from Paris, received here through semi-official channels, that all American troop movements home ceased after May 16, and that all American troops are being held for the time being, awaiting the action of the Germans, were credited here in well informed circles. The last information officially given out by the war department yesterday dealt entirely with ships sailing not later than last Friday, May 16. This was a list of 12 troopships and gave full detail of the passenger list and all the military units.

Senator Would Move Capital

WASHINGTON, May 21.—Senator Sherman, of Illinois, threatened today to have the capital of the United States removed from Washington to the Middle West.

The senator is still on the warpath against profiteering landlords of the District of Columbia and says if they persist in gouging the public after war-time legislation restraining them becomes inoperative, he will "up and move" the capital westward to grow up with the country. Washington never was a good place for it anyway, he insisted.

MORE TIME IS GIVEN HUNS ON PEACE TERMS

PARIS, May 21.—Count Von Brockdoft-Rantzau, head of the German peace delegation, has asked an extension of time for Germany to present her reply regarding the peace terms. The count stated that further notes were being prepared and that it would be impossible to complete them by 1 P. M. Thursday, when the time limit is up.

PARIS, May 21.—The German peace delegation has been granted an extension of seven days, or until May 29, in which to reply in full to the peace terms, according to an official announcement.

BERLIN, May 20.—Germany declines to sign the peace terms laid before it because they spell the "economic destruction, political dishonor and moral degradation of the entire nation, not only for the present, but also for still unborn generations," was a statement authorized by cable this morning.

LANCASTER DROPPED BY EMERGENCY FLEET AFTER INVESTIGATION

PORTLAND, May 22.—Samuel C. Lancaster, well known civil engineer who laid out the Columbia River highway, has been relieved of his position as district plant engineer of the Oregon district of the Emergency Fleet corporation, it developed today, at an official investigation of certain complaints made by Lancaster to the shipping board headquarters at Philadelphia, following his dismissal.

The investigation is being conducted in the office of Lloyd J. Wentworth, district supervisor of the government's wood shipbuilding activities of the Oregon district.

Lancaster was removed from his position as district engineer some three weeks ago, but the news did not become known until the investigation was started today.

PRESIDENT HAS MERCY FOR BEER AND WINE

WASHINGTON, May 20.—President Wilson's cabled message outlining legislation for the extra session of the new congress was read separately in the senate and house today by clerks, and arrangements were made by congressional leaders for immediate consideration of the vast legislative program, with the equal suffrage resolution to come up tomorrow in the house.

Major recommendations of the president were for the early return to private ownership of railroads, telegraphs and telephones, for repeal of war-time prohibition insofar as applying to beer and wine, for women suffrage, retaliatory tariffs, protection of the dyestuff industry and labor and employment measures. The president announced his intention to turn back the railroads at the end of the calendar year.

SIBERIAN TROOPS CAPTURE IMPORTANT CITY ON VOLGA

BERNE, May 15.—The troops of Admiral Kolchak have captured Samara, an important city on the Volga river, the Ukrainian press bureau here says. It learns from a well informed source.

BERLIN, May 14.—An isolated band of Russian prisoners of war, armed and wearing Bavarian uniforms and under the command of Spartan leaders was overwhelmed by Wuertemberg troops in a wood near Graefelfing, Bavaria, according to newspaper reports. They were court-martialed and 72 men with the leaders were condemned to death and shot in a gravel pit near Loehausen.

WEEKLY SOLDIER LETTER

The following letter has been received by Mrs. W. P. Kirchm of Logan, from her son, Floyd, who received his discharge from the service at New York, May 3, and who has arrived at the family home at Logan:

U. S. S. Western Belle, Constantinople, Turkey, March 5, 1919.

"Dear Mother:

"Well, I've been among the Turks for almost two weeks now, and have not been killed, so guess they are not so dangerous after all.

"We came back here from Derinje, March 2, after discharging the cargo there. We are taking on some tobacco and mohair here, but the bulk of our cargo will be taken up on the way.

"Have had a very good time here so far; are many interesting things to see, and got a few souvenirs.

"I drove a Reo truck at Derinje, hauling flour from the ship to the warehouse. It's wonderful how much stuff the United States is sending here for the Armenians. Since February 5 there has been four more ships here with everything from toilet paper to trucks and tractors. I came very near being set off there as the U. S. N. commander wanted to attach me to the station there, to help take care of the trucks, do guard duty, etc., but our skipper said nix, for he was short of men. If I had stayed I would have been there a year at least. (ugh!)

"The warehouses and railroads at Derinje were built by the Germans in 1918. Is the Berlin and Bagdad railway.

"There is a large quantity of Krupp ammunition, mostly 65 centi-

meter shells owned by the Turks; also several cannons. The stevedores that unloaded the ships were sure a sight to look at. They worked twelve hours a day and all they had for a meal was half a loaf of bread, and say! talk about people in rags. They have the world beat, I'm sure. Hardly any had shoes to wear and it was cold and rainy weather all the while we were there. Quite a few of them wear Turkish soldiers' uniforms. Many women and children too, came to the warehouse with little bags and gathered up every bit of flour spilled from torn sacks.

"Altogether had about a hundred sacks stolen.

"Constantinople is quite a pretty place to look at from the bay and we are anchored only a few hundred yards from the Sultan's palace, and it's some 'shack', too. There are a few good streets, but most of them are just narrow, cobblestone alleys. The sidewalks are narrow and everything seems so dirty. Everything is high here.

"Hoping all are well, as ever,

"FLOYD."

Oregon Headquarters for Soldiers, Sailors and Marines, New York City May 13, 1919.

Editor of Enterprise, Oregon City, Oregon.

Dear Mr. Brodie:

Was very much interested to read the Enterprise, they have on file here at the Oregon headquarters. It made me homesick to read of all the boys getting back, but then I hope soon, within the next six months, to hike for Oregon myself. The navy is of course

needful of men to bring the doughboys back.

"It may be of interest to you to know that a Portland built boat was the first to go from a United States port into Germany. We went through the Kiel Canal and thence on up through the Baltic to Danzig. Of course it is now an international port, but at that time both Poland and Germany wanted it and there were numerous small fights and at least they were all ready to fight at the least provocation.

"The food we took to Germany, however, was not meant for them, but for the Polish people and Jewish war sufferers. The food was unloaded, guarded and transported by the Germans, but they only got a good look at it that was all.

"My brother, Harry, and I had charge of the wireless station on board the 'Westward Ho' which was then manned by the navy.

"What I am writing for, however, is to tell you that in the Oregon headquarters here, Baker county, Union county and Linn county have placards telling the boys that they are waiting for them to come home and that jobs are waiting. Now I naturally looked for the Clackamas county sign but could not see it so I am wondering if you could not make up such a sign and send it to the address on this letterhead and I am sure they would be glad to post it in a prominent place.

We have a fine little place here and we're all very proud of Oregon's records in the Victory loans and in everything she has done to beat the Hun. Hoping this letter has not taken too much of your time I remain

Very sincerely yours,

Health Suggestions

Colds and Hoarseness—Borax has proven a most effective remedy in certain forms of colds. In sudden hoarseness or loss of voice from colds, relief for an hour or so may be obtained by slowly dissolving and partially swallowing a lump of borax the size of a garden pea, or about three or four grains held in the mouth for ten or fifteen minutes before speaking or singing. Another remedy is also given, and is as follows: A flannel dipped in boiling water and sprinkled with turpentine laid on the chest as quickly as possible, will relieve the most severe cold or hoarseness.

To Cure a Sting of Bee or Wasp—Bind on common baking soda, dampened with water. Or mix common earth to about the consistency of mud.

Leanness—Is caused generally by lack of power in the digestive organs to digest and assimilate the fat-producing elements of food. First restore digestion, take plenty of sleep, drink all the water the stomach will bear in the morning on rising. Take moderate exercise in the open air, eat oatmeal, cracked wheat, graham mush, baked sweet apples, roasted and broiled beef, cultivate jolly people and bathe daily.

Toothache—Oil cloves, one-half drachm; oil peppermint, one-half

drachm. Mix. Moisten a small piece of cotton in this mixture and insert in the hollow tooth.

Relief for Asthma—Sufferers from asthma should get a muskrat skin and wear it over the lungs with the fur side next to the body. It will bring certain relief. Or soak a blotting paper in saltpetre water, then dry, burning a night in the patient's bedroom.

Another excellent remedy is: Take a powdered licorice root, powdered elecampane root, powdered aniseed, each one drachm, powdered licorice, ten grains; powdered lobelia, ten grains; add sufficient amount of tar to form into pills of ordinary size. Take three or four pills on going to bed. An excellent remedy for asthma or shortness of breath.

IN THE SPRING

When Energy and Vitality are Lowest, then—Influenza!

(By B. C. BOWEN, M. D.)

At this time of the year people feel weak, tired, listless, their blood is thin, they have lived indoors and perhaps expended all their mental and bodily energy and they want to know how to renew their energy and stamina, overcome headaches and backaches, have clear eyes, a smooth, ruddy skin and feel the exhilaration of good health tingling thru their bodies. Good, pure, rich, red blood is the best insurance against ill of all kinds. You are apt to suffer from an attack of influenza if your health is run down.

Purify the blood and you can defy influenza. This is the time to clean house and freshen up a bit.

Drink hot water a half hour before meals, and for a vegetable tonic there's nothing better than Dr. Pierce's Golden Medical Discovery, the old-fashioned herbal remedy, which has had such a fine reputation for fifty years. It contains no alcohol or narcotics and is made into tablets and liquid. Send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. for trial package.

Maryville, Calif.—"I needed a tonic, my blood was thin, I was run-down, my back ached, my kidneys were weak and digestion was so bad that I could not even drink milk. I remembered that mother had always depended on Dr. Pierce's Golden Medical Discovery, so I decided to take it. In a short time I was greatly benefited. I continued taking it and was a well woman."—Mrs. J. S. Barber, 211 8th St.
