There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

YOUTH WRITES HOME FROM GOAT ISLAND

R. E. Boyer, who sends the Courier the following letter from the naval hospital training school near San Francisco, formerly lived with his parents in Oregon City, later moving with them to their farm near Clackamas station.

San Francisco, Cal., Aug. 13, 1917.

To the Courier:

I would like to ask for a little space in your paper so that I can give the boys at home the life of my hospital boys.

There are nearly 700 men going to school at the Hospital school, which is situated on Goat Island in San Francisco bay. We have a splendid place here; the Hospital is on top of the island. We have a clear view of all the towns and cities around the bay. All the streets of the camp are kept as clean as the floors of our homes which we left behind. We have the finest set of officers here at the hospital and some of the best medical officers that can be had.

Every one has to roll out at five o'clock and make his bed, roll up the tent walls, put the cots out to air if weather permits, then tents are swept out clean, then we have Swedish exercises for 20 minutes, then all streets are swept clean, then we have breakfast at seven o'clock. Assembly for drill at eight o'clock. We have one hour of drill, then we have three classes before noon. Dinner at 12 o'clock and assembly at one o'clock again. We have classes then till four o'clock, and from four to five we clean up our street and get ready for supper at five. We have the evenings to ourselves and Thursday nights, when we have to attend church services or study for the evening.

The Y. M. C. A. has charge of all the meetings. They have just completed a large Y. M. C. A. in which they will hold all services and show moving pictures. There is no school on Saturday or Sunday, so we have those two days to ourselves. We have camp inspection every Saturday morning at 9 o'clock. Everyone has to stand in front of his tent dressed in spotless whites or blues, whichever the dress of the day happens to be. All tents are scrubbed out every Saturday morning and everything has to be shining. Then the medical

officers make a tour of the camps. All odd-numbered companies get Wednesday afternoons and Saturdays off for shore leave. All even-numbered companies have different days.

We are treated royally in town. All large hotels have club rooms for the boys. All the big churches give socials for the sailors' benefit.

The boys from now on have to take a six month course. Before it was only three months. They are sending boys out to all of the navy base hospitals.

Oregon is well represented here in the school. There are several Portland boys. We Oregon boys are going to make Oregon proud of her sailors who are in the hospital service.

TAXES MAY BE PAID

Mr. West Gets Information of Settlement from Government

Any of the 18 western Oregon counties containing Oregon & California grant lands is authorized, under a ruling of the Federal department of the Interior, to accept payment of taxes due on those lands at the time the Chamberlain-Ferris bill was passed without prejudicing their rights for the further collection of taxes, penalties and interest.

Advice to this effect was received by ex-Governor Oswald West who has classified the lands for taxation purposes and who asked the department if this could not be done. The reply says:

"This department sees no objection

WOMAN NOW IN PERFECT HEALTH

What Came From Reading a Pinkham Advertisement.

Patterson, N. J.—"I thank you for the Lydia E. Pinkham remedies as they have made me well and healthy. Some time ago I felt so run down, had pains in my back and side, was very irregular, tired, nervous, had such bad dreams, did not feel like eating and had short breath. I read your advertisement in the newspapers and I advise every woman, single or married, who is troubled with any of the above-said ailments, to try your wonderful Vegetable Compound and Blood Purifier and I am sure they will help her to get rid of her troubles as they did me."—Mrs. ELISE J. decided to try a bottle of Lydia E. Pinkham's Vegetable Compound. It worked from the first bottle, so I took a second and a third, also a bottle of Lydia E. Pinkham's Blood Purifier, and now I am just as well as any other woman. I advise every woman, single or married, who is troubled with any of the above-said ailments, to try your wonderful Vegetable Compound and Blood Purifier and I am sure they will help her to get rid of her troubles as they did me."—Mrs. ELISE J. to the course suggested, provided, however, that it be made plain that by entering into such a stipulation the government in no way recognizes that the counties have any further rights in the premises. In other words, while it is entirely satisfactory that the counties may expressly reserve such rights as they have, by agreeing to that, the government does not concede that any such rights exist."

YOUTH JOINS NAVY

Harold Nash Has Enjoyed Most of Injuries Possible

War, after all, is a mere bag of shells. Its terrors are minimized and its hazards a matter of mirth to Harold Nash, son of Mr. and Mrs. C. A. A. Nash, formerly of Oregon City. With his parents the young man moved to Michigan early this year and from his new home comes the news that Harold has enlisted in the navy. From all angles it appears that the young man, who has not yet reached his majority, went before the naval examining board at Muskegon, Mich., without a fear. And the reason for such fearlessness is evident to his friends in Oregon City.

While the youth lived here he suffered several times with a broken leg, his nose was broken, an arm was fractured and several ribs met the same fate. He enjoyed a friendly little ordeal with smallpox and another with typhoid fever. Speaking of operations, Harold "met up" on cordial terms with a surgeon's knife when he was operated upon for appendicitis and as a farewell reminder of his happy and carefree life in Oregon he almost severed a foot when he struck the member with the business end of an ax. With such a record it is doubtful, his local friends believe, that he will view the approach of a submarine with even a quail of fear.

Red Cross Raises Money

Friday afternoon, a meeting of the knitting department of the Red Cross society of Gladstone was held at the home of Mrs. Julia Tingle, when \$15 was raised to go toward purchasing yarn for making articles for the soldiers in France. Those in charge of the affair were Mrs. E. M. Mendes and Mrs. M. E. LaSalle. They were assisted in entertaining by Mrs. Tingle.

MANY TROOPS MOVE

Plans for Transporting Soldiers Put into Hands of Association

Plans for the movement of over a million men—the largest troop movement in the history of the country—are now being perfected by the American Railway Association at the request of the United States government. Altogether, 687,000 men will have to be transported to the various cantonments now building to house the new national army, and 350,000 national guardsmen are even now being assembled at their camps. This was the announcement made by C. J. McDonald, who, as general agent of the western department headquarters of the association, is perfecting the details out here.

"The movement will start about September 5," said McDonald. "Between that date and September 9, the roads will complete the entrainment of 200,000 men, or about thirty percent of the total to be moved to the camps. It is expected that a second movement of another 200,000 will begin on September 19, continuing for four days thereafter; and a third movement of the same size will start on October 21. An idea of the task in making out schedules that will guarantee the safe and prompt transportation of these armies may be gleaned from the fact that, to move merely one field army of 80,000 takes 6,229 cars, made up into 356 trains, with as many locomotives and crews. And there are over twelve times as many men concerned in the plans we are now working out. We have also been asked for transportation to carry the 250,000 members of the national guard to their training camps. The national guard movement has already

started and will continue in increasing volume until all have been moved. Shippers and receivers of freight have been appealed to by the car service commissions, and can greatly help if they will cooperate with respect to commercial freight, keeping in mind the herculean task the roads are performing in handling this enormous traffic."

He Felt Like Ninety

Nothing will make a person feel old quicker than disordered kidneys, for when they are not working properly the whole system is infected with poisons that cause aches and pains in all parts of the body. A. W. Morgan, Angola, La., writes: "Oh, I suffered with pain in my back. I am 43 years old, but I felt like a man 90 years old. Since I took Foley Kidney Pills I feel like I did when I was 21." They tone up and strengthen the kidneys, and promptly relieve annoying bladder troubles.—Jones Drug Co.
