LOGAN

Every dark cloud has a silver lining. Sometimes it takes close observation to see it but it is a comfort to know it is there. This year threshing bills, transportation bills, hay hauling bills and a few others will not be large and there is the grain of comfort to the payer, not considering the payee.

Thrashing machines are going two or more times to a farm as the grain ripens.

A few prunes ran the gauntlet of the bad season but some of them are drying off for want of moisture to mature them.

J. B. Newkirk and Frank Kohl constitute Logan's contribution to the army and navy. The former has gone we believe, and Frank is out to bid relatives goodbye before going to New York in a few days.

Mrs. A. Newkirk has rented her farm to G. B. Trotter, her son-in-law, who formerly lived at Logan.

Mr. and Mrs. Noah, from Roseburg, have been visiting their daughter, Mrs. E. H. Gerber.

Stephen Carver reports that he will put three crews to work on his Clear Creek railroad on September 1. That seems to indicate that the survey is completed. The writer recently went over the roughest part of the route, about a half mile between the bluff and creek on B. A. Benson's place, and that will certainly take powder like an artillery charge in Belgium.

The writer, while bathing in Clear Creek last Sunday, caught a crawfish with a big pincer on one side and a little one on the other, which seems to show that God did not intend human beings to fight or he would have arranged to have us sprout new arms and legs in case of loss.

"Grandma" Kehnhofer was a caller at the home of Mrs. E. R. Boyer last Sunday.

Mrs. James Moore was a visitor at Cedar Springs last Sunday.

The hum of the thresher is a thing of the past and the grain did not come up to what it ought to on account of the dry weather since May. Some of the oats took a notion not to get high enough to be amputated by the binder and had to be cut by the mower. All in all, this will add to the high cost of living.

The advent of the fall season it is hoped will soon bring some rain, which will help fall pasture. Most potatoes and garden are too far gone to be benefited.

There will be an entertainment at the church Saturday evening of this week.

The large automobile truck is now delivering plank over this road district. Over 100,000 feet will be laid on the main auto road and all low places and hills will be planned.

A petition is being circulated to have the voting in this precinct at Cherryville instead of Salmon river or Brightwood. This is now probably the largest voting precinct in the U. S., extending east and west over 30 miles. It was originally located here but for some reason it was first moved three miles east and then seven miles east without any legal action or without any petition being circulated. The voters in the eastern part of the precinct realize that the district ought to be divided and are willing that this place be designated.

Thousands of copies of the appeal are being distributed by the director of agriculture to division superintendents of schools, constabulary officers, health officers, provincial officers and members of the bureau of agriculture field force, who will act as distributors. ADAMS

Quit Business SALE

NOW GOING FULL SWING

Oregon City probably never before witnessed a sale where the people took such a deep interest as in this sale. They know our dry goods are all new and dependable—none better. They know our clothing, shoes, furnishing goods, and furniture are the best that money can buy—they know this store gives exactly what it advertises—they know that merchandise of all kinds is going sky high in price and many a man, woman and family are not only anticipating their present wants, but buying their future needs as they realize that they may never again have an opportunity to buy goods at such prices as are now offered at this MIGHTY CLOSING-OUT SALE. This is no clearance sale or sale to reduce stock and unload—it is a real, genuine, bona fide closing-out sale and without regard for present high cost of merchandise we are sacrificing our entire \$100,000.00 stock bought before the big advance—at prices very much less than wholesale costs in many instances. REMEMBER every dollar's worth of goods in this store must and will be sold and there will be no let up to the cutting and slashing of prices until every dollar's worth is disposed of. All our fixtures, show cases, safe, adding machine, etc., are for sale and no reasonable offer will be refused.

ren are responding to the war's call with the same enthusiasm that their brothers and fathers are showing in joining the militia.

One of the earliest indications of the response to President Wilson's appeal is the request from Lipa, Batangas, for an enormous number of coffee seedlings. The coffee industry is especially adapted to this province, and although it has been neglected lately, in times past has been a flourishing business. In addition to sending several thousand coffee plant seedlings to the experiment station at Lipa, the bureau of agriculture has sent material for the establishment of a vegetable garden to serve as a model for kitchen gardens.

War necessity promises to play into the hands of the bureau of agriculture, which has been conducting one of the most important campaigns ever inaugurated in the Philippines.

Through its untiring efforts the Filipinos have become interested in the possibilities of their native soil, and it is inevitable that a crisis of the present sort will serve to increase their interest to a large degree.

Booms are reported in the growing of rubber, cane, kapok, hemp; in the increase of irrigation systems; in the scientific treatment of the soil—all largely through the efforts of the bureau of agriculture. It is expected that President Wilson's appeal, through the bureau of agriculture, will hasten a better understanding of their soil on the part of the Filipinos.

MANY ANIMALS GRAZE

Forester Asks Help in Collecting Surplus Hay Crop

District Forester, Geo. H. Cecil, Portland, announces that the national forests of Oregon and Washington are furnishing grazing during the present summer for 177,167 head of cattle and horses belonging to 3,269 ranchers, and 1,025,843 head of sheep, owned by 705 sheepmen. These figures show an increase of 462 cattle, with 19,478 head of cattle, and 48 sheepmen with 29,102 head of sheep above the numbers taken care of in 1916. This increase is due to the introduction of better methods of handling the stock; the blanket or open method of grazing sheep as advocated by the forest service and the management of cattle under special rules established by the district forester and based on the needs of the range.

In addition to these figures 359 owners were given free permits to cross 6,535 head of cattle and horses and 551,895 head of sheep over the national forest range to shipping points, and for other purposes. Free permits were also given to 215 owners on account of private lands within the national forest boundaries for 7,675 head of cattle and horses and 107,488 head of sheep; 41,647 ewes were also lambing on national forest range.

The district forester finds there is a serious shortage in the regular hay crop throughout the district. He hopes, however, that the amount of inferior grain crops cut for hay will offset this. He has planned to have all farmers who have surplus hay on hand communicate with his office at Portland, and a strong effort will be made to get the information to stockmen who need the hay.

EGGS WILL BE HIGH

Poultry Raisers Said to be Eliminating Small Flocks

Because of high price of feed small flocks of poultry in the state are being reduced at an alarming rate, according to E. J. McClannahan, president of the Oregon State Poultry Breeders' association. He asserted that many of the people in the cities are disposing of all their chickens, and that poultry raisers who had 180 chickens last winter will average but 100 chickens during the coming winter, according to present indications.

"As a result of the reduction in the number of laying hens, says Mr. McClannahan, 'the people of Oregon will pay from 60 to 75 cents per dozen and possibly even higher prices, for eggs during the coming winter, as compared with 40 cents last winter.'

"The poultry raisers are making the mistake of their lives when they sell their hens at 14 cents a pound. My advice is that they keep all hens. They will make big money before spring and at the same time perform a patriotic service by helping keep down the cost of living."

Mr. McClannahan says corn is one of the best feeds for chickens and with prospects of the greatest corn crop in the history of the nation it is not improbable that poultrymen in this state will get together and ship

in corn during the coming winter, providing as cheap feed as possible.

CLACKAMAS COUNTY

LOANS OUT \$4400

Out of an allotment of \$220,100 of rural credits money divided among the counties of the state a few months ago, \$99,150 remains unloaned. Loans aggregating \$120,950 in the 36 counties had been made.

The Big Event

Pendleton, Ore., Aug. 30.—The greatest aggregation of world's champions ever seen in one contest will compete at the Round-Up, September 20, 21 and 22. The contests will be the biggest things the world has ever seen. All former champions will meet and compete for the supreme title. In the cowboys' relay race Ruth Parson, Mabel DeLong, Bertha Blacett, Mrs. Parsons, Lila Smith and Josephine Sherry will ride against each other. In the cowboys' relay race Allen Armstrong, Darrell Cannon, Allen Drumheller, Paxton Irwin, Knapp Lynch and Bob Anderson will ride. These riders are all champions. In the steer roping Geo. Wier, Charlie Wier, Joe Beason, Henry Yabeny, Sammy Garrett, Tom Grimes, Ed McCarty, Dan Clark and John Judd, all former winners, will compete. In every other one of the competitive events it will be the same thing, champion against champion and then some outsiders. The directors say it will be the biggest Round-Up ever pulled off. These people will all positively be here, as the Round-Up never makes such an announcement until it is a sure thing. Indications are that the crowd will be up to normal. The seat sale opens Sept. 1, and the advance sale is already above 1915.
