PORTLAND LIVESTOCK MARKET HOLDS STEADY

TWO CARS OF MONTANA STUFF ARE SHIPPED PAST SEATTLE TO PORTLAND YARDS.

UNION STOCK YARDS, Portland, Ore., April 6.—The livestock market was a steady affair at the Portland Union Stock Yards this morning. The hog run was splendid and with the top at 9 cents the market was brisk. Not as many were sold as yesterday in the same length of time, but there is a demand for canned pork products and this is responsible for the steady movement. Prices should be higher here provided the quality is available. There were no cattle sales up to noon, but some were looked for after lunch. The lambs sold were ordinary.

One interesting feature in connection with today's receipts was the arrival of two cars of cattle shipped in by Fred Hunn, of Silver Bow, Mont. These cattle first went to the Seattle stockyards, but the market there was such that Mr. Hunn did not care to take a chance and ordered the cattle sent on here where he knew his livestock would bring what they were worth. His action is somewhat of a black eye for Seattle, but a feather in the cap of the local yards.

Receipts were 59 cattle, 1 calf and 388 hogs, a total of eight cars.

FULL PRICES PAID AT PORTLAND YARDS

WILLAMETTE VALLEY LAMBS ARE SOLD FOR \$10—SPRING LAMBS NOT RECEIVED.

UNION STOCK YARDS, Portland, Ore., April 7.—Full prices were paid at the Portland Union Stock Yards today for both hogs and lambs, the

former bringing \$9 for best and the latter, from the valley, \$10. In both instances these are top prices. Spring lambs would sell at \$13 if available. Thus far only one small shipment has reached the yards.

Receipts were 47 cattle, 9 calves, 433 hogs and 95 sheep, a total of six cars.

CATTLE MARKET IS SLOW IN PORTLAND

CONDITION IN TRADE AT UNION STOCK YARDS REMAINS PRACTICALLY UNCHANGED.

UNION STOCK YARDS, Portland, Ore., April 8.—The market for cattle continues rather slow at North Portland with some pulp-fed stuff held over. The condition in the trade is showing practically no change for recent days, so far as the price for tops is concerned, although for heavy stuff buyers are trying to secure supplies at about 15c to 25c less. The demand is best for well finished light weight cattle that weigh from 1000 to 1100 pounds, and for these the market continues intact at \$9.00.

Only one load of valley stuff arrived during the last 24 hours:

General cattle market range:
Choice pulp-fed steers \$8.75@9.00
Choice grain-fed steers \$8.45@8.50

continues steady at \$9 for tops.

ORDINARY STEERS GO UP 25 CENTS AT YARD

NO CATTLE DISPOSED OF AT LESS THAN \$8—SHEEP ARE IN STRONG DEMAND.

UNION STOCK YARDS, Portland, Ore., April 10.—While top prices were not lifted in any line at the Portland Union Stock Yards this forenoon, there was one feature which proved especially pleasing to the officials of the market, and that was the 25-cent advance scored in ordinary steers. Nothing was disposed of under \$8 a hundred pounds, and the price ranged from this to \$9. All thing considered, the market was in a healthy condition, and the prices paid were considered very good.

Hogs were steady at the \$9 price. It had been expected there would be a decline in the market, but the demand, combined with the quality, kept the market to the same point at which it closed Saturday.

Sheep are in great demand, but the 35 head received were not enough to even make an impression. It is expected it will be June before receipts in this division amount to anything. Extremely high prices would be paid now, but only for spring lambs, but all other kinds if they were available.

Receipts were: 101 cattle, 160 calves, 272 hogs and 26 sheep, a total of 65 cars.

PRICES IN PORTLAND YARDS HOLD STEADY

VOLUME OF TRADE NOT HEAVY CONSISTING PRINCIPALLY OF HOGS.

UNION STOCK YARDS, Portland, Ore., April 11.—Prices held steady at the Portland Union Stock Yards this forenoon, no changes being noted in any line. The volume of trade was not very heavy, consisting principally of hogs, the best of which again brought the top price. All but 15 head of sheep received went direct to Barton & Co., on a guaranteed price. Receipts were: 68 cattle, 23 calves, 215 hogs, and 142 sheep, a total of 7 cars.

Among the shippers was C. E. Luck of Canby, 1 car calves, sheep.

Spring.
Spring is looked upon by many as the most delightful season of the year, but this cannot be said of the rheumatic. The cold and damp weather brings on rheumatic pains which are anything but pleasant. They can be relieved, however, by applying Chamberlain's Liniment. Obtainable everywhere. (Adv.)

There is a Real Difference

Cream of tartar, derived from grapes, is used in Royal Baking Powder because it is the best and most healthful ingredient known for the purpose.

Phosphate and alum, which are derived from mineral sources, are used in some baking powders, instead of cream of tartar, because they are cheaper.

If you have been induced to use baking powders made from alum or phosphate, use Royal Baking Powder instead. You will be pleased with the results and the difference in the quality of the food.

MOUNTAIN SCHOOL IS PRAISED BY CALAVAN

The cleanest school yard in Clackamas county is not in one of the long established schools in a thickly settled part of the county, but located 14 miles from the nearest railroad and in the mountains seven miles back of Sandy.

County School Superintendent Calavan discovered the school one day recently. The grounds, about an acre in extent, had been recently plowed, all stumps had been removed and there was not a twig, piece of paper or stick on it that he could find. The nine pupils of the district, under the direction of their teacher, Miss Esther Krupke, had worked on the school grounds until there was not an improvement to be made.

The district was organized only three years ago and is known as Greenwood. Superintendent Calavan found inside of the building the same neatness which prevailed outside.

"The schools of Clackamas county need the spirit which is shown by that district in the mountains," said the superintendent Thursday. "Those nine pupils, under the direction of a live wire teacher like Miss Krupke, secure as much good from their work as they would if they attended the larger schools of the county."

Greenwood district is planning a fine new building to take the place of the present boxlike structure. Much of the taxable property in the district is tied up in the Oregon & California grant land tangle, and the district does not derive taxes therefrom, making the financing of the school difficult.
