Stomach Out Of Order? Try NR

Nothing Better to Straighten You Out After Eating Too Much. Tones Liver, Regulates Bowels, Acts Pleasantly. Guaranteed.

Many people eat too much every day and most eat much too much some days. That is why Americans suffer more than any people in the world from indigestion, biliousness and constipation.

With a little thoughtfulness and care, however, a great amount of this distress could be avoided and you'll never realize how true this is until you become one of the several million people of this country who keep a box of Nature's Remedy (NR Tablets) constantly on hand and use it whenever indigestion, biliousness or constipation threaten.

Unlike laxative purges, cathartics, such as oil, calomel, etc., which merely force bowel action, Nature's Remedy exerts a beneficial influence upon the entire digestive and eliminative system—the stomach, liver, bowels and even the kidneys. Its purpose is to promote vigorous and harmonious action of all the organs that handle the food and body waste.

That is why the results which follow the use of Nature's Remedy are always a certainty except to those who first try it. The action while prompt and thorough, is so mild and gentle and pleasant as to cause no self, and the thorough cleansing the body receives, giving a feeling of real relief and health, such as no laxative pill or cathartic ever produced for anyone.

Get a 25c box of Nature's Remedy (NR Tablets) and try it. There is no risk in doing so, for it must give you greater relief and benefit than any liver or bowel remedy you have ever used or money back instantly. It is sold, guaranteed and recommended by your druggist.

## Macksburg

MACKSBURG, Sept. 4.—Never did the first days of Autumn come in sayer dress or richer tone than in the present year. The great harvest, larger in volume than ever before—is at its height, while the weather is all that the most exacting harvester could desire.

The nights—almost cold—induce the soundest sleep, the mornings bracing as they could be in October, the mid-day growing warm enough to assure us that the miracle of growth is uninterrupted, still, and that ripening is steadily going on.

The winter vegetables are maturing duly and the corn is fast coming into the prime condition for harvesting that all the other grains have shown.

The prevailing wish is for more room. "Wherever to bestow our
