Opportunity for education not only calls but is thrust upon our youth. It is all in line with the great reconstruction movement of our nation, of the world. PEACE TREATY DEBATE BEGINS ON NEXT MONDAY

WASHINGTON, Sept. 8.—Replies from the floor of the senate to President Wilson's speeches to the country and negotiations between senators advocating "strong" reservations to the League of Nations covenant and those supporting "mild" reservations are expected to be the outstanding features of the ninth week beginning today in the peace treaty controversy.

The peace treaty will be reported to the senate next Wednesday noon, Chairman Lodge of the foreign relations committee announced today. It is planned to call up the treaty for debate beginning next Monday.

WASHINGTON, Sept. 9.—Just about the time President Wilson's vigorous declaration against American reservations to the peace treaty reached Washington by wire from Omaha last night negotiations had been virtually concluded bringing the Republicans into practical unanimity and assuring the adoption of the Lodge program of reservations with one slight modification.

The "mild reservationists" were persuaded to make substantial concessions with regard to their objections to the reservation dealing with Article X, and by a rearrangement of the language were brought to the point of practical agreement. The reservation, even if modified to meet the "mild reservationists' objections, will still be far more drastic than originally proposed, according to opposition senators.
