FRANK MECKS FORMER RESIDENT OF CANBY DIES IN MONTANA

Funeral services of the late Frank Meeks, son of Mr. and Mrs. Perry Meeks, old time residents of Canby, but now of Milwaukee, were held from the home of Mrs. G. H. White, sister of the deceased, Thursday afternoon. Many friends of Mr. Meeks and of the family attended the services, and the floral tributes were in great profusion, and an evidence of the high esteem in which Mr. Meeks was held by the many Canby friends.

The interment was in the Zion cemetery. Mr. Meeks was about 45 years of age, and resided in Canby for some time before taking up his residence in Montana, where he had been engaged in farming.

Mr. Meeks is survived by his parents, Mr. and Mrs. Perry Meeks, of Milwaukee; Mrs. Warren Baty, of Molalla; Mrs. G. H. White, of Canby; Mrs. Mable Wolfer, of Milwaukee; Mrs. Ray Faust, of Prineville, Oregon; four brothers, George Meeks, of Canby; Ralph Meeks, of Aurora; Henry and Weaver Meeks, of Milwaukee.

This is the first child Mr. and Mrs. Meeks have lost, and their many friends here sympathize with them. Mr. Meeks recently underwent a critical operation for appendicitis, and was recovering from the effects of the operation when he was stricken with heart disease.

PEACHES MEET WITH DEMAND

Mr. Ufer, one of the prominent fruit growers of Clackamas county, whose home is in this city and near the Willamette river, is harvesting his last crop of peaches. The last load was taken to Oregon City Thursday of this week, and were of the late Crawford variety, and there was a big demand for the fruit. People gathered at the automobile at Sixth and Main Streets, where the peaches were disposed of. Owing to engine trouble of the automobile Mr. Ufer was unable to make the hills to deliver some of these, and the people were glad to purchase them at Main street.

The peach crop of this section has been unusually large this year. The orchard of A. H. Knight on bottom land near the mouth of the Molalla river, was laden with fruit. The crop was contracted for by Italian fruit dealers of Portland, but a number of rows of trees were reserved for the Knight family.

SEEDLING PEACHES DELICIOUS.

Growing in the yard of Dr. and Mrs. John Fuller at the Cottage hotel are two seedling peach trees with spreading branches and that have been laden with peaches. These trees are growing from a seed carelessly thrown by Mrs. Fuller about seven years ago, and now they are large trees. The peaches are unusually large, juicy and have the flavor of an Early Crawford. The meat is yellow and freestone, while the outside is of pinkish and red. Those having tasted the fruit pronounce it most delicious.

YOUNG KNIGHT RECEIVES GIFT.

W. Beauford Knight, only child of Mr. and Mrs. A. H. Knight, and one of the smartest and most popular chaps of Canby, is the proud possessor of a modern Indian bicycle, a gift from his father a few weeks ago. The lad has covered much territory since receiving the wheel, and has made about 20 miles so far, visiting a number of farms in the vicinity of Canby.

IMPROVEMENTS START ON BUILDINGS AT COUNTY FAIR GROUNDS

Work has already been commenced at the fair grounds in the way of improving the sheds for the race horses that will arrive there to take part in the big races during the fair. Other improvements are also to be made in the way of construction of buildings for the concessioners, and the livestock barns are to receive their attention as well.

The interior of the building where the exhibits are to be placed for display is to be thoroughly cleaned and in readiness when the displays arrive. This building will be in charge of Dave Long, of Hazella, who is sparing no pains to make this year a banner one for the fair.

Mrs. A. H. Knight, who is taking her husband's place at Canby during his absence and is assisting Mr. Long, has received a number of letters from those intending to exhibit at the fair. H. B. Evans has charge of the aeroplane attractions, and the flyer, Mr. Barnes, who gave a number of flights here several weeks ago, has decided to be at the fair during the four days, giving flights, and will also take passengers.

Among the business houses intending to have displays this year are the Carlton & Rosenkrans store, Canby Hardware Company, Thomas' Confectionery, of this city; The Molalla Electric Company, Price Brothers clothing store of Oregon City.

Mrs. Bertha Hurst, of Canby, will have charge of the floral display, and there are several special prizes offered in the class. Among these are \$5 for best display of flowers; \$1 for best display cactus dahlias; \$1 for best display peony dahlias; \$1 for best display show dahlias; \$1 for best display single dahlias and there will be prizes offered on other cut flowers including gladioli, sweet peas, chrysanthemums, geraniums.

Mrs. A. H. Knight will have charge of the domestic science department, and a special prize of \$3 is offered for assortment of Jellies, jams (six or more no two alike).

One of the attractions this year will be a war trophy booth to be in charge of some of Canby's boys who have returned from France.

SHERIFF IN NIGHT RAID GETS TWO AND STILL

Sheriff Wilson, Deputy Sheriff Hughes and George Tonkin, the latter a warden of the State Game Commission, surprised two moonshiners in the midst of their operations in a lonely cabin about one mile north of Canby at a late hour Monday night and placed them under arrest, confiscating their still, 15 gallons of fresh whiskey and 320 gallons of mash.

The raid was brought about by information furnished by Warden Tonkin and was engineered by Sheriff Wilson with complete success. The offenders, Freaan Sargo and Joe Mihaljevich, of Portland, were brought to Oregon City and placed in the county jail. The still, moonshine and mash were loaded into Sheriff Wilson's automobile and brought to the city as evidence.

Following the arrest of Freaan Sargo and Joe Mihaljevich by Sheriff Wilson and securing signed confessions from the two men which it is believed will furnish information that will lead to the disclosure of a well-organized ring, who are engaged in systematically breaking the law in the manufacture and sale of illicit whiskey. Both prisoners stoutly maintained that they were making the whiskey for their own use, but they also freely acknowledged that the still was capable of producing 11 gallons of the moonshine variety every 24 hours. Their profession of being able to consume that amount between them is not received.

Tuesday forenoon Sheriff Wilson and government agents succeeded in securing signed confessions from the two men which it is believed will furnish information that will lead to the disclosure of a well-organized ring, who are engaged in systematically breaking the law in the manufacture and sale of illicit whiskey. Both prisoners stoutly maintained that they were making the whiskey for their own use, but they also freely acknowledged that the still was capable of producing 11 gallons of the moonshine variety every 24 hours. SCHOOLS OF CANBY WILL COMMENCE ON MONDAY MORNING

The Canby schools will commence Monday morning, September 15, with the following teachers:

High school—Mrs. Pearl Gregory Carlidge, principal; O. A. Schultz, a graduate of the Reed college, who recently returned from overseas, science and athletics; Miss Helen Westall, who taught at Joseph, Oregon, for three years, languages; Miss Mary Eleanor Eyre, who taught last year at North Bend, Oregon, history.

Grammar school—Howard M. Eccles, principal; Mrs. Stonewall Vaughan, fifth and sixth grades; Miss Davis, third and fourth; Miss Burns, second; Miss Mary Miller, first.

From the indications the fall term will commence with a larger number of students, as a number of new families have moved into this city during the summer months.

The band hall, purchased by the district in the early spring, will be used this year as a gymnasium and entertainment, and a number of entertainments are being planned for the future.

with a great degree of credence by officials of the Sheriff's office.

At the preliminary hearing of the two prisoners held in Canby Tuesday forenoon friends produced \$150 to pay fines imposed by the Justice, of the Peace of that place. An attorney from Portland, sent out to handle the affairs of the prisoners by the mysterious ring which is supposed to be back of them in their operations, was instrumental in securing the fine money and was on the point of congratulating himself on the fact that he had secured the release of his charges from the county officials thus easily when he had the doubtful pleasure of seeing the men taken in hand by agents on a Federal charge of violating eight distinct statutes. They were taken to Portland shortly afterward to face the federal charges. It was stated that they stand liable to fines totalling several thousand dollars and imprisonment aggregating twenty years.

A. H. KNIGHT LEAVES FOR EAST.

Canby has an attraction that is being greeted by the people of this city. This is the moving picture show started in the gymnasium formerly the band hall, and is given Wednesday

Knots of the Treaty

While Mr. Wilson is going about the country telling the people that the treaty should not be changed to the extent of the dot of an I nor the cross of a T, the senate from day to day is tying knots in that historic document that will be hard to untangle. There are three distinct viewpoints in congress, those senators who in and out of season are ready to do the president's bidding, those whose views are diametrically opposed to those of the executive for partisan reasons or from conviction, and those who are not willing to accept the treaty in its present form, but who would modify it only slightly.

The president takes the advanced position that the treaty should be confirmed in its entirety and without change. He defends those sections that appeal to him, but passes calmly by those other portions that he was compelled to swallow at the peace table. He is in the unfortunate position of having no supporters in congress who are able to speak from a first hand knowledge of the situation, and he has none to blame for this condition save himself. Had he remained at home and served the people as president and permitted the appointment of a peace commission that would have been truly representative of the people of the United States, then it would not have been necessary for him to now put in his time explaining his actions to the four corners of the country.

Mr. Wilson's pedagogic temperament has gotten him into difficulties before, and, if he remains in public life, will again. He does not surround himself with the best minds of the country, even the best minds of his own party, and if he seeks the advice and counsel of his cabinet, it is his kitchen cabinet and not the heads of the several departments of the government.

Merrill Hampton and Walter Duell, who have been spending the past six months in Alaska, have returned to Canby, and are glad to be back into civilization again. They have been employed in a cannery and have seen all they want of the north for the present. While in Alaska they secured many interesting photographs taken with their cameras, and among these are a large number taken a little bit of darkness at home. They were near the Bering Sea.

Mrs. W. H. Bair, Mrs. M. J. Lee and Mrs. C. E. Sheldon formed a party that went to Portland Saturday evening to witness the performance "The Time, The Place and The Girl" at the Alcazar theater. The play was much enjoyed by the Canby women.

Macksburg

MACKSBURG, Sept. 11.—The threshing season is in its last days. So far the best report comes from Mr. Will Roth whose wheat yielded 44 bushels to the acre.

The weather, now, being ideal the remaining work is likely to meet with no interruption and the final harvest report will soon be in our hands.

Much of the harvest work has been done by soldiers home from the war. Many of whom—we rejoice to say—have returned imbued with a love of the soil. The activities of military life have created in many a soldier a distaste for the four walls of factory or shop.

Silverster Gibson—the last of the Gibson brothers to return—is in the U. S. on his way home.

The Mothers' club will meet in the present week at the home of Mrs. Fritton.

The Little Girls' Sewing circle is to meet with Mrs. C. M. Baldwin, September 20.

Their Medicine Chest For 20 Years

IT is characteristic of folks after they pass the allotted "three score years and ten," to look back over the days that are gone and thoughtfully live them over. I find myself, at seventy-one, frequently drifting back a quarter of a century, when I see myself in the little drug store I owned at Bolivar, Mo., making and selling a vegetable compound to my friends and customers—that was then known only as Dr. Lewis' Medicine for Stomach, Liver and Bowel Complaints.

For many years while I was perfecting my formula I studied and investigated the laxatives and cathartics on the market and became convinced that their main fault was not that they did not act on the bowels, but that their action was too violent and drastic, and upset the system of the user; which was due to the fact that they were not thorough enough in their action, some simply acting on the upper or small intestine, while others would act only on the lower or large intestine, and that they almost invariably produced a habit requiring augmented doses.

I believed that a preparation to produce the best effect must first tone the liver, then act on the stomach and entire alimentary system. If this was accomplished, the medicine would produce a mild, but thorough elimination of the waste without the usual sickening sensations, and make the user feel better at once.

After experimenting with hundreds of different compounds, I at last perfected the formula that is now known as **Nature's Remedy**, which I truly believe goes farther than any other.
