WASHINGTON, Sept. 9.—Former Senator James Hamilton Lewis, of Chicago, came to Washington today with a prediction of dire distress for the Democratic party unless things rapidly get on the mend.

The most distressing feature that Mr. Lewis sees in the Democratic horoscope is a radical division of the party with two Democratic candidates for president in 1920. "It is in the air now," said the former Illinois senator, "and unless there is something done to stop the course of things you may see two Democratic candidates for president after the next national convention."

"The Democratic party is in much the same condition that the Republican party was in 1912, and the peace treaty issue is the rock upon which the split may come."

Many great musical composers had exceptionally large appetites. When Handel dined alone at a restaurant, he usually took the precaution of ordering a meal for three. Haydn, yet more voracious, was known to consume a meal that would have satisfied five ordinary appetites.

The transport was sunk, however, and Blaikie was made prisoner and held until the armistice was signed.

SENATORS CHARGE PRESIDENT STATEMENT

WASHINGTON, Sept. 5.—President Wilson's address to the country in support of the treaty and the league of nations evoked prompt and spirited replies from the senate floor today.

Senators Borah, Idaho, and Sherman, Illinois, republicans, assailed statements by the President at Indianapolis and Columbus. On the other hand, Senator McCumber, republican, North Dakota, attacked the treaty reservations adopted yesterday by the foreign relations committee and presented six substitute reservations regarded as expressing the views of republican senators favoring reservations of "mild type."

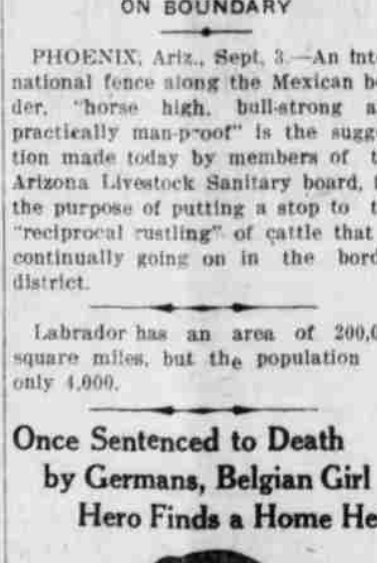

Referring to the president's statement at Indianapolis that under the league "we can mind no other people's business," Senator Borah criticized American military operations in Russia, declaring such to be "a usurpation of power" without authority under the constitution and for the purpose of aiding Japan's Siberian policy.

Hindu children are remarkable for their precocity. Many of them are skilful workmen at an age when the children of other nations are learning the alphabet. A boy of seven may be a skilful wood-carver, while some of the handsomest rugs are woven by children not yet in their teens.

U. S. Admiral Who Told Turkey Massacres of Armenians Must Cease

Rear Admiral Mark L. Bristol

Turkey received an informal warning recently from Rear Admiral Mark L. Bristol, commander of the United States naval forces in Turkey, that massacres of Armenians must cease. According to Paris despatches this caused quite a flurry in the Supreme Council of the Peace Conference. American interference in Turkey through missions and otherwise, although the United States has shown no disposition to accept the mandate for the administration of any Turkish territory, was sharply criticized.

FOUR PEACE CLAUSES IN TREATY ARE APPROVED

WASHINGTON, Sept. 4.—Four reservations to the German peace treaty were adopted late today by the Senate foreign relations committee dealing with the Monroe doctrine, withdrawal from the league of nations, domestic questions and article X of the league covenant. The treaty was then ordered reported to the senate.

By a vote of 9 to 7, the committee adopted a reservation regarding article X providing that the United States "declines to assume" any territorial obligation or mandate without express resolution of congress.

The Monroe doctrine reservation adopted, 11 to 6, declares the United States shall be its interpreter. By the same vote the committee adopted the resolution providing that tariff, immigration and similar domestic and political affairs of the United States shall be determined by that nation alone without intervention of the league.

"The president represented our government at the peace conference," said Senator Norris, "and he knows what was presented there and what the facts are. It is a matter of history that Great Britain and the other allies did not make the secret agreement with Japan until 1917. At the time that agreement was made all of Germany's possessions in China had been captured and there was not a German ship on the Pacific so the president has not got his history on straight. I challenge the president to produce evidence to substantiate what he said in St. Louis."

SEVERE QUAKE HITS OAKLAND; NO DAMAGE DONE

OAKLAND, Cal., Sept. 4.—Oakland and other cities in the east bay district were startled shortly after 1 o'clock today by the heaviest earthquake shock felt in several years.

No damage was reported.

An earthquake of one second's duration was registered on the seismograph at the University of California at Berkeley. The origin of the tremor was near Berkeley.

FORMER PORTLAND GIRL IN FEAR OF FLU COMMITS SUICIDE

LOS ANGELES, Sept. 9.—Obsessed by the fear that she was about to suffer a recurrence of influenza, from an attack of which she almost died in Washington, D. C., last winter, Miss Marian Belger, aged 24, shot herself through the head Sunday. Death was apparently instantaneous. The body was found by her mother upon her return from a religious meeting. Miss Belger was born in Seattle, but passed most of her life in Portland, where her father, John Belger, resides. She was a clerk in the war department at Washington during the war.

RECEPTION TO WILSON REPORTED LUKEWARM

WASHINGTON, Sept. 6.—The eyes of the east are focused curiously on the west at this minute to observe whether President Wilson accomplish, as more by his appeal in that far-away country than he has achieved here at home during his personal contact with the senate and the people of the east. It will hardly be disputed that since his return from abroad he has steadily lost ground in his fight to force the ratification of the treaty without harm to its jokers or ambiguities, and the ground lost during the eight weeks he remained on the job in Washington, which, by the way, is the total period of his presence at his post of duty since last December, is as nothing compared to what has happened in the three days since he entrained for the Pacific coast.

Reports which so far have come back from along the route indicate that the president has not yet emerged from the zone in which, as his opponents would say, he is known and understood.

Every report of the presidential receptions shows unmistakably that so far the tour has been nothing more than a series of democratic rallies and there can be no accounting for the admitted apathy and absence of cheering multitudes except perhaps that there are not as many democrats as there used to be.
