BILLINGS, Mont., Sept. 11.—Plunging right into his argument that the treaty of peace is all that will prevent a complete European catastrophe, and stressing that "the world is waiting on America for leadership," President Wilson here today addressed one of the most enthusiastic audiences to greet him since he left Washington on his tour around the country to "render a report of his stewardship."

There was a good sized crowd in Billings to greet the president on arrival. The special pulled into the station exactly on the dot of 9. The members of the reception committee told the president the people had come from a distance of 100 miles to see and hear him.

The hall was too small to accommodate all who wanted to get in and most of the people had to be content to cheer the president from the side walks. There was a large percentage of returned war veterans in the crowd that greeted the president here.

WASHINGTON, Sept. 13.—Establishment of a commission similar to the interstate commerce commission for the regulation of food production and manufacture is the plan incorporated in a bill drawn by the officials of a number of farm organizations and submitted to members of congress Friday. Efforts are being made to have the bill introduced in both the senate and the house.

Under the provisions of the proposed bill the commission would have quasi-judicial functions and would be given authority to act in determination of profits to be made in the production of food products.

General Pershing Leaving New York City After Reception

New York knocked off work when General Pershing returned. Old timers say that never has an individual, in public or private life, received such an ovation as the commander in chief of the A. E. F. as he went up lower-reception, gives some idea of the great Broadway to the city-hall. This photo-crowds that swarmed about the City graph, showing him leaving the City Hall Park to do homage to the leader Hall for his hotel after the official of our victorious doughboys.

FLIER SETS WORLD'S ALTITUDE RECORD; GOES UP 34 000 FEET

MINEOLA, Sept. 16.—A new unofficial world's altitude record, it was learned yesterday, was established here Saturday when Roland Rohlsen, testing pilot for the Curtiss Aeroplane & Motor Corporation, climbed to a height of 34,000 feet—more than six miles—beating the previous world's unofficial record of Adjutant Casale of the French army at Vallacoubly last June of 28,400 feet.

Rohlsen explained he took the air intending only to make a test flight but he found conditions so satisfactory that he decided to keep climbing until his air apparatus showed the new record altitude.

LEAGUE OF NATIONS STOCK SELLERS FIND READY PURCHASERS

BIRMINGHAM Ala., Sept. 15.—One of the most remarkable unique stock selling schemes yet heard of has been unearthed here. Stock is being sold in the League of Nations, and, according to one of the victims, "it is going strong, without reservations."

A prominent lady of this city arrived at police headquarters all excited and out of breath and after extracting the promise of Chief of Police Shirley that her name would be withheld, told of how she had bought some stock in the League of Nations, "without reservations."

KLAMATH FALLS SEES METEOR DURING DAY; TOWN STONE DRY TOO

KLAMATH FALLS, Sept. 16.—A flaming ball of fire, supposed to be a meteor, was seen to flash across the sky at 12:55 Saturday night and fall somewhere in the south. Many persons in Klamath Falls saw the phenomenon plainly. It appeared to be about half the size of the moon. In its wake was a trail of smoke which lingered for a minute or more.

ORGANIZED STEEL WORKERS STRIKE TO BE SETTLED AT MEET

PITTSBURG, Sept. 17.—Whether the organized steel workers of the country as well as all the members of the allied trades employed in the steel plants would go out on strike next Monday or await the outcome of the industrial conference called by President Wilson for October 6, was to be determined at a meeting here today by representatives of 24 international unions and the national committee appointed by the A. F. of L. to organize the steel industry.

There was some disappointment because President Samuel Gompers of the A. F. of L. could not be present. Although there was a report that Gompers had counseled against "direct action" until after the conference with the president, the expressed sentiment of the labor leaders before the meeting opened was that the strike would stand. It was admitted, however, that several of the steel men want a postponement.

Kissing either wife or child was a punishable offense in England in the seventeenth century.

PORTLAND LEGION LAUNCHES MOVE TO CURB FOREIGN PRINT

Complete prohibition of all foreign papers was advocated but did not carry because of the possible unconstitutionality of the move and because of the educational value of the translation into English in parallel columns.

PORTLAND, Sept. 12.—James Elmer Watson, of 565 Roselawn avenue, today faces federal charges of white slavery in Oregon and Washington on the complaint of Eva Baker, an orphan, aged 18, whose home is in Oregon City.

Eva, small of stature and exception, ally pretty, Wednesday appeared with her married sister before Assistant United States Attorney Barnett Goldstein. Last April, she said, she inserted an ad in a local paper in which she applied for a position as housekeeper for a bachelor or widower. The next day she heard from Watson, who is 38 years old and who represented himself as a wealthy rancher of Vancouver, Wash.

The girl said she went to Vancouver with Watson and entered into what Watson claimed was a "common-law marriage." She signed some kind of document and thought she was his wife. Until a few days ago she lived with Watson.

In June Eva ran away from Watson and came to Portland to see her sister. Watson followed the girl, and demanded her release, claiming he was her husband. After he had taken her to his home on Roselawn avenue, Watson threatened to kill her if she ever again went to her sister, Eva said.

Several days ago, the girl's sister learned through official channels that the marriage was fraudulent and went to Watson's home, where she got the girl. The two then decided to see Goldstein.

Two hours later Watson was in the county jail. He admitted to Goldstein that he had not married the girl, but said he hoped to become her husband when they became "better acquainted."

WASHINGTON, Sept. 12.—Preparations for the return of the railroads to private control, Director-General Hines today ordered all roads to begin an inventory of supplies on hand as of December 31, 1919, the date indicated by President Wilson in his address to congress as the termination of government supervision.

The Plumb plan for tripartite control of the railroads under government ownership must be "buried beyond all hope" if it is not to be made a "rallying point for the nationalization of all industry," Edgar J. Rich, transportation counsel for the Associated Industries of Massachusetts, declared today before the house interstate commerce committee considering legislation for final disposition of the railroads.

OTTAWA, Ont., Sept. 12.—The Canadian parliament, at an early hour today, passed unanimously a resolution approving ratification of the peace treaty.

BOSTON, Sept. 13.—A woman and a man were shot at the corner of Boylston and Tremont streets this morning during an attempt of the state guards to make loiterers move on.

Police Commissioner Curtis, with full knowledge of the proposal of President Gompers of the American Federation of Labor that the striking policemen return to work, issued an order that no striking policeman was to be allowed to return to duty or to be permitted to loiter about any station house.
