FIFTY-THIRD YEAR—No. 38.

OREGON CITY, OREGON, FRIDAY, SEPTEMBER 26, 1919.

ESTABLISHED 1866

OFFICIALS GIVE STEEL WORKERS ULTIMATUM

INDIANA HARBOR, Ind., Sept. 24—Officials of the Inland Steel company sent an ultimatum to their striking employees today that unless they returned to work within two days the company will shut down the plant for six months.

The company's furnaces are said to have cost \$2,000,000 each, and the expense of starting a fire in a furnace after it has been drawn in set by company officials at \$50,000.

Union labor leaders said they would ignore the warning.

Reports from steel centers today record little change in the alignment of the opposing forces of the labor unions and the steel companies. In the Mahoning valley of Ohio the strikers' success is complete. The industry which is the backbone of Youngstown and a score of neighboring villages is paralyzed and all its 44,000 wage earners idle.

The issue still is doubtful on the great strategic sectors radiating from Pittsburgh and Chicago.

In the Pittsburgh district the Carnegie Steel company announced today that the situation "looks good and backed up its optimism with claims that men were returning" to work in considerable numbers.

These claims were stoutly denied by William Z. Foster, chief of staff for the unions, who claimed that two additional large plants had been closed today and that Homestead would be idle by the end of the week.

TOTAL WAR LOSSES SHOWN IN REPORT OF THE WAR DEPARTMENT

WASHINGTON, Sept. 23—Total casualties of the American army in the European war have just been tabulated up to September 1, 1919. The sum total is 332,182 casualties in the army and marine corps in the United States and Europe, including the Archangel and Vladivostok expeditions in Russia.

Total battle deaths were 50,327. The total number killed in action constituted 11 per cent of all casualties, while 5 per cent of the casualties died of wounds and 18 per cent died of disease. All missing have been accounted for.

KOLCHAK QUILTS IN FAVOR OF DENIKINE

COPENHAGEN, Sept. 23—The Bolsheviks have made all preparations for the evacuation of Petrograd, according to a Helsinki dispatch to the Central News agency.

Saturday's dispatches stated that the soviet of Petrograd had empowered the people's commissaries to accept peace on the terms fixed by the allied powers. Preparations for evacuating the city upon which the guns of the allies are trained are believed to be in following out that plan.

LONDON, Sept. 22—Admiral Kolchak, head of the all-Russian government at Omsk, has informed the allies that he resigns the title of chief ruler in favor of General Denikin, leader of the anti-Bolshevik forces in Southern Russia, according to a wireless dispatch sent out by the soviet government at Moscow. The message admits the Bolsheviks have abandoned Kursk after severe fighting against General Denikin's troops.

JEWS WANT BRANDEIS AS FIRST PRESIDENT OF JEWISH REPUBLIC

CHICAGO, Sept. 23—That Louis D. Brandeis, justice of the supreme court of the United States, will be the first president of the new Jewish republic, is the opinion voiced in this city. The 22nd annual convention of the Zionist organization of America, now in convention here, is mapping out the preliminary work for the establishment of the new nation.

The political aspects of the new republic have been settled. It will be an autonomous country, with Great Britain as a mandatory. It will be a home for the oppressed Jews of Poland, Roumania and Germany.

REVENUE OFFICERS RAID STILL IN HEART OF BUSINESS SECTION

Portland, Ore., Sept. 24—Federal operatives and Deputy Sheriff Hackett of the Clackamas Sheriff's office raided the home of J. E. Cluett at 512 Water street in this city Wednesday afternoon and discovered a still in full operation together with a quantity of mash estimated at five gallons.

Cluett, who is well known here, and is employed at the Crown-Willamette paper mills, was arrested and taken to Portland by the revenue men.

The still, which was complete in every detail and capable of producing a considerable quantity of high grade "moonshine" every 24 hours, was made of tin throughout. According to one of the Federal officers a still made of tin is very liable to corrosion with a resultant poisoning of the product which would be fatal to persons consuming any quantity. It is not known that Cluett disposed of any of the product of the still, but in the event of his having done so he would be liable to a more serious charge than that of operating a still should any of the purchasers suffer serious consequences.

ENGLISH PREACHER DEPLORES SWEARING AMONG BRITISH WOMEN

LONDON, Sept. 24—A gloomy view of England's womanhood is taken by Rev. F. B. Moyer, who has been preaching a series of sermons on the subject. In an interview printed in the Daily Express he says:

"I do not fear a food shortage nor labor troubles. But I do fear the consequences of a lowering of the standard of woman's modesty. The country is in real danger. The present fashions show a total disregard for everything we have previously looked on as noble in womanhood."

"Nor is it only in dress that women show a marked deterioration. They have become coarsened in their manners by association with men workers. The language of the girls in the subways and on the omnibuses is becoming awful. They have not only adopted the manners of the men, but they surpass him in vulgarity."

"It seemed that the women have developed among themselves a third sex which is neither masculine nor feminine. It is a compound of the worst elements of both."

EIGHTEEN HUNDRED DOLLARS YEARLY IS NECESSARY TO LIVE

WASHINGTON, Sept. 20—Widespread undernourishment of families with incomes of less than \$1800 a year has resulted from the increased cost of living in Chicago and other large cities, according to the conclusions of an investigation made public today by the department of labor.

The cost of food in Chicago, however, is less than in New York, Boston, and some of the other large cities, despite an 80 per cent rise of prices in Chicago since 1913.

DEATH TOTAL IN TROPICAL STORM AREA MOUNING

CORPUS CHRISTI, Texas, Sept. 18—The death toll of Sunday's tidal wave and hurricane today was estimated at from 300 to 600.

Reports from Aransas Pass estimated the dead at Port Aransas at 350, but this figure cannot be confirmed.

A chill driving rain which fell for 36 hours added to the intense misery. Construction of a tent city, started by military authorities on high ground here yesterday, was held up by the rain.

Arrival of an additional relief train from Houston last night brought more workers and supplies. It was believed clearing weather today would mitigate the suffering.

Airplanes which scouted the beaches for bodies and possible survivors were forced to give up flights yesterday afternoon because of the rain.

HUNS GIVE UP PLAN FOR UNION WITH AUSTRIA.

BERLIN, Sept. 17—The Zeitung Am Mittag says it is confidently expected that the German government will accede to the demand of the supreme council in Paris that Germany shall submit a written agreement or protocol that article 61 of the German constitution relating to a union between Germany and German Austria is not to be considered as transcending the section of the peace treaty forbidding such a union.

The Farmer Is Aroused

When the temper of the farmer is aroused he becomes just as ardent a supporter for a project as he has been a formidable opponent. This was evidenced here Monday night when out of an audience composed largely of people from the country districts, 124 men declared emphatically in favor of bonding the county to the limit for immediate construction of permanent roads, leaving only 13 people to endorse the pay-as-you-go idea, once so popular in Clackamas county.

We have a project comprehending the expenditure of \$1,700,000 for paving 144 miles of roads along the principal thoroughfares of the county, and it will be up to these same farmers who so enthusiastically adopted the plan at the courthouse meeting Monday, to keep up their enthusiasm to a concert pitch until after the election, which will be held at an early date. Talk is a cheap article, but votes count, and an intensive campaign will be necessary to put over the proposed issue of road bonds.

The farming community will be the great beneficiary by the construction of the roads proposed. Hard surfaced roads will enable them to travel to the market centers with as much ease in December as in July. Now that they have clearly indicated their desires, it will be up to them to organize their forces in each district to go to the polls at the special election to be held this fall and vote for the bonds.

The road committee of the Commercial Club of Oregon City, headed by Dr. L. A. Morris and M. D. Latourrette, have worked untiringly for many months on the preliminary program, and the farmers who want these roads speedily must join hands with the committee to a successful termination.

PORTLAND ASKS STATE FAIR AT SALEM OPENS WITH COLOSSAL ARRAY OF EXHIBITS

PORTLAND, Sept. 24—Mammoth harbor developments, with the widening and deepening of the river channel from Portland to the mouth of the Columbia, so that Portland will become one of the great ports of America, were decided upon by the Port of Portland commission and the public dock commission. A joint meeting was held yesterday afternoon.

Resolutions were adopted calling upon Col. J. R. Slattery, district engineer in charge of the local office of engineers, U. S. A., to recommend to his chiefs in Washington that the channel from Portland to the sea be dredged to a depth of 35 feet and a width of 600 feet. These recommendations are desired by the two port bodies in connection with a report of a survey for a 35-foot channel which will soon be forwarded to Washington by Col. Slattery.

Today was Governor Withycombe and Soldiers' day, and the crowd was liberally sprinkled with soldiers. In honor of the soldiers the fair management scheduled special events for the afternoon, and tonight special services will be held in the giant livestock coliseum for the late Governor Withycombe and the boys who helped win the war.

MAIL CLERK BOUND AND GAGGED; CAR ROBBED

SEATTLE, Sept. 19—At least \$25,000 was obtained by a robber who bound and gagged a mail clerk on an east-bound Northern Pacific passenger train between Seattle and Kankakee, Wash., today, according to reports received here by the police and railroad officials.

The train left here shortly after 8 o'clock today. When it arrived at Kankakee the mail clerk was found bound and the money gone.

ROOSEVELT SAYS AMERICANISM IS VITAL ISSUE

PORTLAND, Sept. 18—"When a fellow has a home, a wife and a flock of children around he's always a careful thinker and a good fighter." Six thousand people cheered this statement. Ten thousand would have done so had that many been able to crowd into the auditorium last night to hear Lieutenant Colonel Theodore Roosevelt speak. When the great building was filled to the uttermost, the doors were closed and thousands were turned away disappointed.

"If a man isn't willing to die for this country, by George, he shouldn't be allowed to live off this country!" This brought the house up with a roar that took some time to quiet. The colonel had been telling of German-born Italian-born, Grecian-born, Ireland-born Americans who had fought with his regiment, the 26th, and who had died for their adopted land.

Thrilling an audience of 6,000 persons who grined when he screwed his face into the Roosevelt smile and burst into round after round of deafening applause when he drove home a particularly apt phrase with the arm gesture forever associated with his father, Theodore Roosevelt Wednesday night told Portland about "Americanism—the One Hundred Per Cent Kind."

"I, W. W., red flag socialists and other anarchists are criminals and traitors to the country. Don't argue with them as if it were an academic question; go to the bat with them and go to the bat strong!" he fighting son of a fighting father" cried to his audience in the auditorium.

"Put down disorder of all kinds. Rioting is rioting; arson is arson. Stamp it out!"

COUNTY ROAD ROUTES FIXED

Sweeping changes were made in the hard-surface road map of Clackamas county at a conference at the courthouse Wednesday night of the committee representing the districts directly interested, and attended by farmers from nearly every section of the county. The county court was requested to abolish the 57 road districts of the county and create 11 new districts, 10 of which are to be tributary to the main roads proposed in the bond issue of \$1,700,000, and the eleventh to be formed out of the territory between Oregon City and the Multnomah county line through Milwaukie, as many miles of pavement have already been laid in this district.

Under the proposed bond issue, which will come before the people at a special election to be held as early as practicable, probably within the next 60 days, 144 miles of road are to be paved, at a cost of \$11,000 per mile for the pavement, and the grade and base for the pavement are to be paid for by the districts through which the roads are to run. County Commissioner Rufus Holman, of Multnomah county, secured the floor early in the evening and declared that pavement could not be laid for \$11,000 a mile, but his opinion was brushed aside with little comment, upon a statement of County Judge Anderson that pavement had been laid in this county by the county paving plant for that sum. City Commissioner John M. Mann made a fruitless effort to eliminate the Bluff road into Sandy from consideration and to substitute a road in the Bull Run district. Mr. Mann created a furor by charging that County Commissioner Proctor of Clackamas was interested in property along the bluff road and that he and County Commissioner Harris, of Clackamas, were parties to a frame up, but the committee stood firmly behind its own officials.

The committee was urged to give consideration to the Colton district and finally effected a compromise by securing a promise from the county court to name the road from Wright's Bridge to Colton as the first road to be designated for improvement under the market roads law.

The 5-mile strip from Liberal to Macksburg was given to the Canby-Marquam road, giving that highway a total of 12 miles of pavement. The road from Oregon City to the Hog Hollow district, covering one mile, was given to the Estacada-Carver highway, which was routed through Eagle Creek and Barton along the north side of the Clackamas, instead of over the Barton bridge and down the south bank of the Clackamas, as originally proposed. The road from Springfield to Estacada was changed to run from Springfield into the Logan district along the south bank of the Clackamas, and the road from Damascus to the Multnomah county line was routed from Boring, instead of Damascus, a saving of one and one-half miles, which was given to the Zinser road. Dr. H. S. Mount and Judge Gordon E. Hayes objected to the routing of the road from Stafford which was changed to run over the present old survey to Oswego, thus connecting with the Pacific highway.

Under the terms of the proposed bond issue the county may lay pavement with its own plants or may contract for pavement, though on contracts it is restricted to the contracting for labor only, the materials to be purchased and furnished to the contractor by the county, following the California plan. It is estimated that the entire mileage can be paved with in five years, and that a 5-mill levy for 20 years will pay the principal and interest on the bonds. Farmers from every part of the county appear to be very enthusiastic for the programme.

HIGHWAY WORK NEAR ALBANY PROGRESSING; SURFACING TO START

ALBANY, Sept. 23—Grading is completed on the Pacific highway to within half a mile of the city pavement. The grading crew is knocking off the high spots and widening the roadbed just east of the city, between the Jewish cemetery and Geary street. A day or two more and the whole highway will be ready for the crushed rock.

STORM SWEEP LIGHT HOUSE IS HAVEN FOR HURRICANE VICTIMS

MIAMI, Fla., Sept. 22—Eleven days without food or water, 13 survivors of the recent hurricane huddled in a lighthouse on North Elbow, a small island in the Florida straits, which was swept clean of every vestige of human habitation during the storm, were located yesterday by a submarine chaser, which brought back a story of devastation and human suffering unsurpassed by any that has come from the storm area.

STATE FAIR WINNER—"FULLY UP TO OLD PRE-WAR STANDARD"

SALEM, Sept. 23—Total cash receipts at the State Fair grounds on the opening day were approximately \$4,000, practically double the figure for the opening day last year, according to J. E. McClintock, auditor. Single admissions were also larger by one-third than last year's receipts from this source alone exceeding those of the fair of 1915, the banner year of the proximately \$500.

More people are camped on the fair grounds than ever before and the concessions have contributed more to the state fair treasury than in past years.

"Fully up to the pre-war standard. Every bit as good if not better than the fair of 1915, the banner year of the Oregon State fair."

That's the way the department superintendents at the State fair grounds summed up the situation Monday.

Every stall in every barn is full of livestock—pure bred cows, horses, hogs, sheep and goats from all over Oregon, from California, from the middle western states and from Canada. And over in the poultry department it is the same story—given the S. R. O. sign has been taken down and every nook and crevice is filled with prize winning and near prize winning fowl.

The tractor exhibit, keeping pace with the progress of power farming, are the biggest and the most varied in the history of the institution.

OKLAHOMA CITY UNDER MOB RULE; ISOLATED

DRUMRIGHT, Okla., Sept. 23—A mob took control of Drumright late last night following a demonstration in connection with a strike of telephone operators during which members of the police force were driven from town and the chief of police was disarmed and threatened with death unless he resigned his office.

Three young women operators who refused to join the strike were held prisoners at the telephone company's plant by the mob.

The trouble is said to have been the outcome of the clubbing of a picket by a policeman.

OKLAHOMA CITY, Okla., Sept. 23—All efforts to reach Drumright, where rioting was reported last night in telephone messages to this city, failed early today through lack of telephone and telegraph facilities. Telephone and telegraph companies assert their wires have been taken over or cut by the mob which is demanding the resignation of Drumright city officials, according to last night's telephone report.

One unconfirmed report via Oilton stated that the mob was attempting to burn the Bell telephone building at Drumright. The riot started, according to reports, by telephone sympathizers, has gotten beyond control. Deputy sheriffs and armed citizens have started for Drumright from Shamrock, Oklahoma.

A request for troops from the beleaguered city was received at the office of Governor J. A. Robertson last night.

One report received here was that the citizens of Drumright had appealed to Sapulpa for assistance, and that a number of deputies had started for the scene from that place.

Another report was current that the mob had captured the mayor, the chief of police and a member of the city council and were holding them prisoner in the city jail.

PRESIDENT OPPOSES UNIONS OF POLICEMEN

WASHINGTON, Sept. 19—President Wilson and Samuel Gompers appear to have reached the parting of the ways on the question of unionizing the police, a movement viewed in the senate as leading eventually to the unionizing of the army and navy and the subjection of the government to domination and control by organized labor.

Mr. Wilson has sent to Washington a telegram declaring that any organization of the police with a view to striking against municipalities should not be "countenanced or permitted."

Beyond reiterating that the American Federation of Labor stands squarely behind the striking policemen of Boston, Mr. Gompers declined to indicate his views of the president's pronouncement.

BERNSTORFF NOT PICKED FOR FOREIGN SECRETARY.

BERLIN, Sept. 20—It has been officially announced that Count von Bernstorff, former ambassador to the United States, is to be made state secretary to the foreign office.

A Berlin dispatch of September 19 quoted the Zeitung Am Mittag as declaring von Bernstorff would become permanent state secretary of the foreign office, but a statement issued by official Berlin denies the authenticity of this report.

ANGELES NATIONAL FOREST FIRE SWEEP

LOS ANGELES, Sept. 24—Two mountain fires which have devastated more than 100,000 acres of timber and watershed area in the Angeles national forest near Los Angeles were burning unchecked today. More than 800 men were battling against the two fires.

A desperate effort was being made early today by 400 men to prevent the Pacoima canyon fire, 25 miles northwest of Los Angeles, from spreading into the Arroyo Seco, above Pasadena, north of here. There are many valuable homes in the Arroyo. The fire, according to R. H. Charlton, forest supervisor, has burned over more than 70,000 acres.

The San Gabriel canyon fire, which started September 13 in Coldwater canyon, was worse today at Rimco ranger station, about eight miles north of Azusa, according to forestry officials.

JOHNSON TO RETURN TO PACIFIC COAST TO RENEW LEAGUE FIGHT

MINNEAPOLIS, Sept. 22—Senator Hiram W. Johnson of California, who brought his Middle Western tour to a close at two rousing meetings here, expects to carry the fight against the league of nations to the Pacific coast next week.

Before taking a train for Chicago last evening he expressed a hope that his amendment to the third amendment to the covenant of the league of nations, giving the United States equal voting powers with Great Britain, will be disposed of this week in the senate, permitting him to continue his interrupted tour while the question is fresh in the minds of the voters of his native state.

TRAIN ROBBERS GAG AND BIND CLERKS AND ESCAPE WITH \$75,000

QUEBEC, Canada, Sept. 18—Five masked men bound and gagged the mail clerks on the Ocean Limited express of the Canadian National railway near Harlaka early today and robbed the mail car of \$75,000 in paper and silver. The money was being shipped from Montreal to Halifax.

Shortly after midnight when the train left Harlaka, the five masked bandits smashed in the rear door of the mail car and at the point of revolvers ordered the mail clerks to hold up their hands. The five clerks then were gagged and bound.

The bandits, seizing the bags containing the currency, jumped from the train as it slowed down in approaching St. Thomas. Posses were organized at once.

EMMA GOLDMAN FACES DEPORTATION AFTER RELEASE FROM PRISON

ST. LOUIS, Sept. 18—It became known today that a warrant for the deportation of Emma Goldman was served on her last Friday in the Jefferson City penitentiary where she has finished serving a two-year sentence for attempting to obstruct the army draft. Her release from the penitentiary is set for September 27.

It was announced that Miss Goldman will be arrested as soon as she leaves prison, and unless she can provide a \$15,000 bond she will be placed in jail to await a deportation hearing.

When Miss Goldman entered the prison at Jefferson City in July, 1917, she said she was born in Russia and in case the deportation is ordered, the immigration authorities were under the impression that Russia would be the country to which she would be deported.

French soldiers in uniform are allowed to ride on the railways at quarter fare.
