

CANBY AND SOUTHERN CLACKAMAS

13TH ANNUAL COUNTY FAIR TO OPEN OCTOBER 1

The thirteenth annual Clackamas County Fair will commence next Wednesday morning, October 1, and from present indications the county will have one of the best and largest fairs in its history.

With plenty of amusements, including horse races with some of the fastest horses in the states entered which are now racing on the big track at the State fair, airplane flights, Browning Carnival Company with all kinds of attractions, big dancing pavilion that is now under construction by Lee E. Johnson and George Meeks, both well known men of Canby, great inducements will be offered to the people to attend.

The Hubbard Jazz orchestra has been engaged for the four days and nights and this will be the first time that dancing has been enjoyed at the fair grounds. There will be attractions in the evening, and many are planning to attend the evening sessions where it is impossible to go during the day.

Prizes are being offered in all the various classes, one for the most unique, the best commercial booths, individual farm exhibits, granges and in general display.

The First National Bank is offering a \$25 cup for the best grange exhibit; Bank of Oregon City \$25 cup for best general livestock exhibit, and the Bank of Commerce offers a \$25 cup for best community exhibit. These must be won for three successive years and at the expiration of the third year the cup is owned by the three-time winner. These cups are handsomely engraved, and have been purchased here.

Among the amusements that have been secured by Dave Long at the Oregon State Fair are the educated pigs, owned by J. E. Owen, of San Francisco, which are proving a big feature at the State Fair.

The Juvenile department is to be one of the big attractions in the big pavilion.

Among those who will have booths this year are Price Brothers, Hogg Brothers, Dr. Roy Prudden, William Bates, of Oregon City; J. C. Robinson with a display of electric light fixtures representing the Molalla Electric Company, and Portland Flouring Mills. The latter will have several booths where demonstrators will be in charge and give samples to the visitors at the fair.

J. C. Kaupisch, who has always made a record for himself, will be assisted by his wife in showing what can be raised on a small farm at Canby. He is to be one of the prize winners from all indications.

Want to Feel Just Right?

Take an NR Tonight

JUST TRY IT AND SEE how much better you feel in the morning. That "tired," headachy, tired, don't-know-what's-the-matter feeling will be gone—you'll feel fine.

TROUBLE IS, your system is clogged with a lot of impurities that your over-worked digestive and eliminative organs can't get rid of. Pills, oil, salts, calomel and ordinary laxatives, cathartics and purges only force the bowels and prod the liver.

Nature's Remedy (NR Tablets) acts on the stomach, liver, bowels and even kidneys, not forcing, but toning and strengthening these organs. The result is prompt relief and real, lasting benefit. Make the test. Nature's Remedy will act promptly, thoroughly, yet so mildly, so gently, that you will think nature herself has come to the rescue and is doing the work.

And oh, what a relief! You'll be surprised to find how much better you feel—brighter, better every way. If habitually or temporarily constipated, take one NR Tablet each night for a week. Then you'll not have to take medicine every day. Just an occasional NR Tablet after that will be sufficient to keep your system in good condition—keep you feeling your best.

BEAUTIFUL KAUPISCH RANCH NEAR CANBY BRINGS RECORD PRICE

The beautiful bungalow of Mr. and Mrs. J. C. Kaupisch, of Canby, including 12½ acres of land all under cultivation, has been sold to E. E. Lofgreen of Eastern Oregon. The price for the property was \$10,000. This has been the home of Mr. and Mrs. Kaupisch for several years, but they have resided in Canby for ten years, coming to this place from Corvallis. Mr. and Mrs. Kaupisch are to move into their home in the city of Canby in the near future.

The Kaupisch farm is considered one of the best, if not the best, in Clackamas county. The bungalow is modern throughout, with handsome fireplace, hot and cold water, bath and plastered throughout. The house contains large reception hall, living and dining room, kitchen, breakfast room and washroom on the first floor, while the second floor has three large sleeping apartments and bath. The residence is equipped with electric lights.

The water is pumped from a well into a 10,000 gallon tank supplying the home and the grounds with water. All of the outbuildings are in first-class condition, and one of the improvements is a silo already filled with silage, which is taken over by the new owner.

The grounds have been beautifully improved since Mr. Kaupisch and his wife took possession. A portion of the residence has been retained for a lawn, and surroundings are beautiful and rare flowering plants, while other parts of the grounds are devoted to growing vegetables, fruit and all kinds of farm products. There is no ground whatever going to waste, for every bit of space is under cultivation. The new owner says it is the finest little farm he has found in his efforts to find a new location, and is delighted with his new home. Besides all kinds of vegetables grown here there are all kinds of fruit, including 25 cherry trees, 15 peach trees, 100 apple trees, of eight varieties, various varieties of grapes, raspberries, Loganberries, strawberries, many of the plants now bearing large crops, currants and gooseberries. Included in the sale of the farm is a portion of the poultry, a horse, three cows, one of which is making a record for herself. This is "Daisy," a Holstein, who is making an average of 97 pounds of milk per day, and requires milking three times daily. There are also swine, 40 tons of silage, nine tons of hay, grain and various other articles.

Mr. and Mrs. Kaupisch are to show what they have produced on this modern farm at the Clackamas county fair, and a space of about 25 feet for individual farm exhibit, and another space of about 30 feet for general exhibit has been engaged by Mr. Kaupisch. Everything from a strawberry to nuts and China pheasants will be shown in the space engaged. He has made a number of exhibits at former county fairs and always carried away the first prize.

Mr. and Mrs. Kaupisch are to move back to their residence now occupied by Mr. and Mrs. Robinson within a few weeks when Mr. Lofgreen will take possession of the farm now occupied by the Kaupisch family.

Mr. and Mrs. Kaupisch came to Canby from Corvallis ten years ago, where Mr. Kaupisch was engaged in the creamery business. When leaving that city he turned his interests over to his son, Waldemar, of Portland, who is now in business in Portland, at the head of the Peerless Creamery Company of that city. Mr. Kaupisch established a creamery here, but later retired and devoted his attention to his farm in Canby.

His farm has been visited by many people and those who have seen it have pronounced it a most wonderful place, and it has been a profitable place since being owned by Mr. Kaupisch and his wife.

LARGE CROP OF PEACHES.

The peach crop on the farm of L. J. Bacon was exceptionally good this year, the young man having harvested about 400 boxes of the Charlotte variety. There are about 175 trees, some of which are young and coming into bearing. There was a large demand for the fruit, and Mr. Bacon received a good price.

LIVELY REAL ESTATE TRANSFERS AT CANBY

During the past week the real estate business at Canby has been lively, and there are no desirable vacant houses left. It is keeping the real estate men busy trying to accommodate the large number of applicants for homes.

During the past week a number of important sales have been closed. The Bates Real Estate company reports a number. Among these is the E. V. Betts place near Union Hall, sold to J. A. Cobb, of Portland. A few days after Mr. Cobb disposed of the property. A Mr. Baars, of Marquam is the new owner, who takes possession immediately. The property is seven acres with a modern four-room bungalow.

Mr. Bates also sold the Sebastian W. Bany place, consisting of a house and two lots. M. H. Mooney, of Canby, also the Gunzell place on the Molalla river, consisting of 54 acres. Mr. Kent has purchased this property.

The two places of Frank and Charles Oglesby, adjoining on Gribble Prairie, have been sold by the J. J. Sandness Real Estate company to Vaughn Vigen, of Central Wisconsin. These places brought \$4000 cash. One of the places consists of ten acres, and the other 20 acres.

Mr. Sandness has also sold the Riley Meeks place at Macksburg, consisting of 57 acres. This property has been sold to Mr. Sandness' son-in-law, Edgar Smith, a well known young man of Canby, who has been in the service. Mr. and Mrs. Smith are to take possession of their property October 1. The price paid by Mr. Smith was \$8000.

Through this firm the John Himmelman property has been sold to Robert Vorpal. This consists of 2½ acres, east of Canby, and Himmelman has purchased 10 acres at Woodburn.

ARTESIAN WELLS AT BARLOW

Barlow and in the vicinity of that little village are found a number of artesian wells that are adding value to the land of that section. Among those having wells on their property are Ray Parmenter, and on the Porter place. Several wells have been dug at the depth of 75 to 150 feet and there is an intense flow of water.

If proper facilities are established the ground of that section can easily be irrigated when necessary requires. Most of the land where the wells are found is between Pudding river and Molalla river.

PUBLIC SALE.

On Tuesday, September 30, there will be a public sale at the Riley Meeks farm, when a livestock, farming implements and household goods will be sold at auction. The owners of the place and articles to be sold are Riley Meeks and Mrs. L. Armstrong. William Heinz is to be the auctioneer, and the clerk Arthur Graham, of this city. Lunch is to be served from the lunch wagon on the grounds.

Mr. Meeks has disposed of his farm, and is to leave Clackamas county. The sale will commence at 10 a. m. The Meeks farm is located on Gribble Prairie and about four and one-half miles from Canby.

Murder Mysteries

Well worth perusal of every citizen is the new book of George A. Thacher, well known Oregon criminologist, entitled "Why Some Men Kill, or Murder Mysteries Revealed," just off the press. The volume is of peculiar interest, as it treats of terrible tragedies that have occurred in Oregon in recent years and of murders that are still fresh in the public mind. One chapter is devoted to the murder of the Hill family in Clackamas county.

Mr. Thacher goes into the causes of crime, or rather the reasons that some men commit capital crimes. He analyzes particular tragedies showing the motive and in many instances proves by a justifiable line of reasoning that the murderer is not only a moral degenerate, but that he is of unsound mind, and he draws the moral clearly that it is high time society should provide for the cure of mental defectives and so reduce the number of crimes by removing the impulse that prompts them.

For 50 cents the reader is given a volume that has its thrills, and its ugly tales, truthfully told and graphically. But the book is not written at all for the purpose of interesting the reader in a story of horrible tragedies. From the introduction by a prominent Eastern criminologist to the last page, the volume is more than a mere history of Oregon crimes, and it points the way for better legislation to deal with the unfortunate men and women who, through inheritance or neglect or both, are dangerous and are more than likely to take human life through revenge or slight rebuke. One chapter, especially interesting in its conclusions, is that dealing with the murder of Mrs. Daisy Wehmer, and the assertion that John Arthur Pender, for many years an inmate of the state penitentiary after his conviction in Columbia county, is innocent.

"Tinker Bob" Stories

by Carlyle H. Holcomb

Major Polecat took from his bundle some lumps of cherry gum and spread them as smooth as he could on a log nearby. Then he scattered some berries about. "Now," said he, "watch me catch that saucy Jay when he comes this way." And he hid himself in the end of the log to wait.

It wasn't long until Jerry the Jay came flitting through the trees "as saucy as ever. He soon spied the berries on the log. Then he was silent. The warm sun had softened the gum on the log, and when Jerry had decided that Major was away from home, he hopped over to the log and perched himself in the midst of the berries where the gum was the thickest. He ate until the berries were gone, then he called at the top of his voice: "Major Polecat! Major Polecat, come out! All your berries are gone."

Major Polecat did come out of the log, to the surprise of Mr. Jay. But when Jerry the Jay lifted his wings to fly his feet were fast in the cherry gum on the log.

"Now will you call me names and make fun of my fur coat?" said Major Polecat. "I will have you for my supper."

"Please, Mr. Polecat, I was only fooling," cried Mr. Jay. "You wouldn't harm a poor Jay bird who has a family of four to feed?"

"What do I care about your family? I have a family to feed also and you came and stole my berries."

"Oh, let me go!" pleaded Jerry Jay, "and I'll never do it again."

"It's too late now. You should have thought about that before. I'm going to pull every feather out of your wings and stick them in this log to warn your friends to keep away from home."

Jerry Jay screamed and cried, but Major Polecat laughed. Tinker Bob was sorry to think of Mr. Jay's fate, but he dared not interfere. Major Polecat climbed upon the log and sat beside Jerry Jay and started to pull the feathers from his wings. Jerry Jay screamed as one by one the feathers came out.

Then there came to Tinker's ear another sound down the winding pathway came the Hunter's Hound. Major Polecat scented him and crouched to the log. As he came closer Jerry the Jay screamed the louder. Then Major tried to climb down off the log. But said indeed he too was fast to the log, in his own trap—the cherry gum.

Seeing the terrible condition of Major Polecat and Jerry Jay bird because of their greed and selfishness, and thinking both would be killed if something did not happen quick, Tinker raised his arm and threw the first stone. The Little Old Man had given him at the Hunter's Hound. Instantly the scene changed.
