

MILWAUKIE & NORTHERN CLACKAMAS

Milwaukie

MILWAUKIE, Sept. 25.—Mrs. R. W. Brown has gone East for a visit, and R. W. is keeping batch those days.

Phillip Strieb has started work on his new bungalow in the Strieb addition.

Mr. Sammons and family, who have been living on the Kelso place on Minthorn, have moved to Portland.

The attendance at the grammar school has increased so much that it seems one or two more grade teachers must be employed. It is possible that one room in the high school will be used for grade work.

The attendance at the high school is increasing and the student work is well along.

Frank Fisher has been appointed Water Commissioner to fill the vacancy caused by the resignation of Samuel Riley.

W. Umstead has bought the J. W. Ray place in the Quincy addition and will move to his new home in a few days.

Miss Dorothy Wissinger will leave Saturday for Eugene where she will enter the U. of O.

Mr. Reed, our former Marshall, has been appointed Marshall to fill the vacancy caused by the resignation of Mr. Riley.

Mr. Riely and Mrs. Riely expect to go East for a long visit, about October 1st.

Abe Amie and Clarence C. Conner are expected home the last of the week. The two young men have been gone two years and have been in the First division through the war.

Mrs. Holton of Oregon City was visiting in Milwaukie Wednesday.

Jennings Lodge

JENNINGS LODGE, Sept. 25.—The sound of the school bell was pleasing to the youngsters of the neighborhood, judging from the bright and happy little faces, that gathered at the school house, on Monday to be enrolled and to get a list of the new books for their coming year's work. A much larger attendance has been enrolled than was thought for and the three rooms are taxed beyond their capacity. Work on the new building is being pushed without delay. It is evident that it will be necessary to employ another teacher, when the building is completed.

Mr. Ray Maple, who sailed on the Coast for China arrived in Hongkong on Sept. 22. The last letter received by his mother, Mrs. Geo. Maple, was mailed from Yokohama about Sept. 5.

Alden Kelly, who was with the 9th aero squadron in France and returned home early in June, left this week for Corvallis, where he will take up mechanical engineering at the O. A. C.

Mrs. Halmor Emmons entertained with an afternoon cards for Mrs. Woodward on Wednesday. Her guests from the lodge were: Mrs. Ben Losey, Mrs. Laura Newell and Mrs. Clemens. Tea was served.

Ralph Madison, only son of F. B. Madison, returned from overseas on Tuesday. Ralph is one of the last of the Jennings Lodge boys to return home, and his many friends are glad to welcome him home, after an absence of 2 years.

THE PERRY PHARMACY

Milwaukie, Oregon

W. B. Perry, Prop.

W. H. Tillman has recently purchased from Mrs. Eads what is known as the Waldron property located on the County Road.

Arthur Roberts has leased the Brubaker place and will take possession about October 1st.

Jean Robbins celebrated her seventh birthday anniversary in a pretty way on Tuesday. Her guests were seven of her little girl friends. Delicious refreshments were served and Jean was the recipient of many pretty gifts.

Louis Morris, of Nebraska is visiting at the Russell home. Mr. Morris is the son of I. J. Morris, who owned a large tract of land here some 12 years ago, now known as the Morris subdivision of Jennings Lodge.

Mrs. Addie Hodgkin passed away at the family home in Vancouver in September 20, after an extended illness. She was the daughter of the late Bertram Jennings and wife, pioneers of this place.

Besides her husband she leaves to mourn her loss two sisters, Mrs. Ella Spooner, Mrs. Lillian Clarkson and three brothers, John F., of this place, Wm. B., of Seattle, and Charles Jennings of California. Funeral services were held on Sunday afternoon.

Mr. and Mrs. Blinestone are enjoying a vacation, going by auto to The Dalles on a camping trip. Earl Boardman is assisting at the Blue Front store during Mr. Blinestone's absence.

Mr. and Mrs. Poole are among the recent arrivals at Jennings Lodge to make their home, leasing one of the Emmon's cottages.

Mr. and Mrs. Henry Smith attended the State Fair at Salem on Thursday. Mrs. G. D. Boardman, former resident of this place is seriously ill at a Portland Sanatorium.

The little granddaughter of Mr. and Mrs. Ullabrand was operated on for throat trouble on Wednesday. Drs. Eaton and Eaton report the patient doing nicely.

Mr. and Mrs. Chas. Redmond were dinner guests of Mr. and Mrs. Emmon on Sunday previous to their departure for Southern Oregon.

Harry J. Robinson of Ballard Lake, Wash., was calling on friends on Tuesday evening.

Mr. Harry Holloway attended the State Fair at Salem on Monday, he being interested in the display of tractor engines.

Our 8th grade graduates are continuing their school work. Leo Cooke attending the McLoughlin Institute and Gertrude Kennedy, Nettie Geymer and Gladys Caldwell enrolling in the Oregon City High School.

Mrs. Jennie Butts and Mrs. Jane Davis of Portland, were visitors at the Maple home recently. Miss Marie Davis of Winlock, Oregon is making her home with the Maples and attending school at this place being enrolled in the seventh grade.

Mrs. Geo. Williams entertained the members of the Grace Guild with a tea on Thursday of this week.

John W. Meldrum passed away at his late home on Tuesday at the age of 79 years. Left to mourn his loss are his wife and sons, Charles E. and D. Thompson Meldrum. The funeral services will be held at the M. E. Church on Thursday Sept. 25th.

Mr. and Mrs. Cary came by auto from Montana and are visiting with the A. J. Zimmerman family.

Oswego

OSWEGO, Sept. 25.—Mr. and Mrs. Robert Ewing and children and Miss Cooper, Mrs. Ewing's sister, left Monday night for Butte, Montana, where they expect to make their home.

Mrs. James Gregory is very sick at Camas, Wash., with scarlet fever. Mrs. Gregory was formerly Miss Isa Austin of Oswego.

Otto Larson, of Altoona, Wash., is home again for a few days.

Mrs. James Mason and Mrs. Oliver Ordway and daughter, Laura, of Bend, were visiting Mr. and Mrs. Charles Bickner over the week end.

The Congregational church will give a tea at the home of Mrs. L. Newlands this week. Everybody is invited.

Mrs. Ralph Harris and little niece, of Portland, were visiting here this week. The Kaseah Council No. 25, of Oswego, was surprised by a visit from Wacha Council of Oregon City last Thursday night.

Mrs. Harry Baxter and son, Melva, of Camas, Wash., were visiting Mr. and Mrs. Geo. Bullock over the week end.

Mrs. Rolley of Portland was visiting her parents, Mr. and Mrs. Jack Mouk, a few days the last week.

The Oswego Grange had a great surprise at their last meeting, when Joe Ranger, one of their charter members, presented to them an eight hundred dollar mortgage which he held on the grange. It was also Mr. Ranger's birthday and the grange presented him with a pair of wool blankets.

Mr. Ranger is a faithful member of the grange and is always prompt in attending. Mrs. Gage, one of the grange members, proposed that resolutions be drawn commencing Mr. Ranger's philanthropic act for the grange and that it be read at a certain date each year in memory of Mr. Ranger.

Mr. and Mrs. J. K. Worthington have returned from Ohio where they have been visiting relatives and friends for the last four months.

George Rodgers, who was accidentally hurt while trying to start one of his trucks, and who has been in Oregon City hospital, was brought home Sunday and is getting along nicely.

OAK GROVE

If you have any items of news for the Oregon City Enterprise please hand same to Mrs. V. G. Benzie. They will be appreciated. Your subscription will receive prompt attention.

OAK GROVE, Thursday, Sept. 25—

The Parent-Teachers met Friday last for the first time since vacation. Mrs. R. E. Webb was elected delegate to the state meeting, which will be held in Medford, October 5, 9, 10. A social hour was enjoyed by the members and the teachers in order that they might become acquainted with one another, as there were four new teachers and the many parents who had but recently moved into the community.

W. B. Backsdale and wife have moved to Albina, Portland, and J. S. Smith, who recently purchased the Backsdale property, has moved in.

F. M. Maple and family are now living in the house recently vacated by Mrs. Eva Evans.

F. A. Smith returned recently from Great Falls, Mont., where he has been for the past month on business.

J. Feldman and family, who sold their property here last June and went east to Illinois to make their future home, have returned to Portland. Conditions in the middle west were not satisfactory and old Oregon is good enough for them.

Mr. and Mrs. H. Spalding have returned to this place and will soon be located in their own home.

Mrs. L. Armstrong returned to Wheeler Saturday.

Charles Graham has gone to The Dalles and has opened a confectionery store.

Last Friday a number of the boys and girls of our school exhibited some of the fruit and vegetables put up by the canning club, and some of the "pet stock" of rabbits and chickens raised by them to a member of the State Industrial Work Club and several of our resident ladies.

The Oak Grove Community church is just closing a very remarkable year despite the fact that the "flu" epidemic made them late in starting the real work. However, they have just cause to be proud of the year's progress. Some of the special high lights are: The "Father and Son" banquet; Easter observance, Children's Day program; baccalaureate sermon to graduates of public school, and a number of visits to the Portland Open Air Sanatorium, where they sang for the sick people. The Sunday school has had an attendance of from 60 to 100 and the regular preaching services found creditable and appreciative audiences. Visitors are always welcome. We trust more of our people will avail themselves of the opportunity to be of service in our community by being in attendance at some of the services at least and help support and maintain our community, the church and the resident minister.

E. Worthington has gone to Marmot, his family expect to move there later.

AMERICA'S LOW PERCENTAGE

Only 12 Per Cent of Present Mileage Is Improved—Little Built for Heavy Traffic.

The American public, though fast becoming awakened to advantages to be enjoyed by improved roads, may not realize the immense effort which must be exerted to catch up with European nations' highway systems. When Germany entered the war in 1914, Prussia alone had 75,000 miles of hard-surfaced highways. In proportion to the size of the two countries, the United States would need to have 1,611,914 miles. The present road mileage in the states is 2,500,000, of which 12 per cent is improved and only one-quarter of 1 per cent constructed for heavy traffic.

GETTING RID OF ROAD TAR

Must Be Attended To Promptly or Unsightly Streaks and Spots Will Be the Result.

Unless washed off promptly with soap and water, road tar will quickly harden on a car, leaving unsightly streaks and spots. There are several good ways of removing it, however. One consists in the application of butter or oleomargarine which will soften the tar without injuring the varnish. Another good solvent is cocoa butter, which is used in the theatrical profession for removing grease paint. This can be purchased at drug stores, and is a harmless solvent of all kinds of oil and grease, as well as tar.

Wife Gave Husband a Tip. Wife (at the play)—"That act was full of dry humor."

Husband (delightedly)—"I suppose that's why I'm so thirsty. Excuse me a minute."—London Tit-Bits.

And He Generally Is. He—The lecturer said that a wife should be an open book to her husband.

She—I admit that, my dear. And a husband should be an open pocket-book to his wife.

Explained. "I wish you would speak to my husband about oyster culture."

"Isn't he interested in it?" "I should say not. You just ought to hear him eat oyster stew."

How He Did It. "Did you hear that our friend Jones got caught in a copper corner?"

"Was he investing heavily?" "No, took a little too much hilarity aboard, and ran into a bunch of policemen just around the corner."

Affinity. "A friend of mine has a small son who asked him the other day why they took up church collections in pews."

"What did he tell him?" "That it was the natural thing to take a pat to get the dough."

Adventurous Italian Poet and Aviator Who Led Troops Into Fiume

Soon after Captain Gabriele d'Annunzio entered Fiume at the head of several thousand "irregular" troops, the government at Rome prohibited publication of any news concerning military events in the city on the Adriatic. Early reports told of withdrawal from Fiume of the British and French troops which, at the request of the troops, which, at the request of the adventurous post-aviator soldier, lowered their flags.

TOPSY-TURVY.

"As a true socialist," remarked the man with rumbling whiskers, "I protest against these street car fares. I want them evened up."

"You think the passenger who rides the farthest ought to pay the most?"

"No, sir. The long ride is no favor to him. The man who has the comfort and convenience of a short trip is the one who ought to pay the most."

Something to Worry About. "What's the matter, old pal? You look terribly blue."

"I am blue. I've been rejected."

"Oh, cheer up! There are plenty of other girls, and anyhow she may change her mind."

"Great Scott, man! It's not a girl, but a life insurance company that has rejected me."

Her New Hat. Old Brother—Now that strikes me as a silly hat. Why, you can't see where you're going and it doesn't shade the back of your head.

Young Sister—Never mind my head or where I'm going. The purpose of a woman's hat is to make men look under it.—Sidney Bulletin.

They're All Alike. The Dog Fancier—Don't get scared, man. The pup don't mean nothing by it. He always growls like that when he's fed.

The Customer—That doesn't disturb me. I've been feeding a husband for six years.

AN UNRULY NAG. Bug Driver—Look what that fool horse does every time I say "back up!"

QUEER. Chick: It's funny. Turtle: What is? Chick: You say you're 80 years old, and you're not out of your shell yet.

Real Literature. I scorn the magazine designs. I love to read the little signs displayed on every street.

Mean Hint. "Are these flannel cakes, Mrs. Jiggers?"

"No, sir, they are not flannel cakes. Why do you ask?"

"I merely judged they were by their taste."

Magnate's Expenses. Crawford—Since he became a magnate his expenses are enormous. Crabshaw—No wonder. He hires a doctor to keep him out of bed and a lawyer to keep him out of jail.—Life.

Nightgowns Taken Off. Little Vivian entered the parlor one morning and her quick eye discovered that the slip coverings had been removed from the furniture.

"Oh, look, mamma!" she exclaimed. "The chairs have looked them nightgowns off."

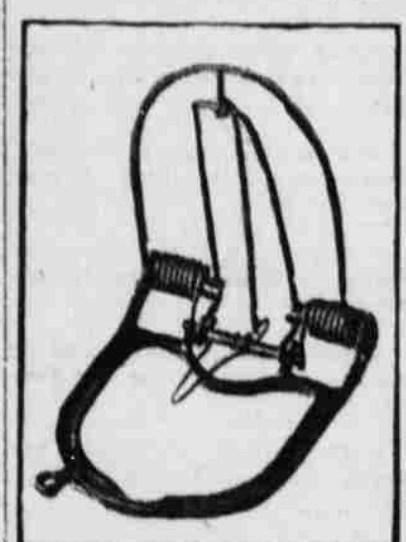

TRAPPING HARMFUL LITTLE PINE MICE

Rodents Usually Follow Moles in Their Burrowing.

Considerable Damage Done to Vegetables Stored in Ground in Eastern States—Pests Can Be Destroyed by Trapping.

(Prepared by the United States Department of Agriculture.)

Pine mice, which usually follow moles in their tunneling and burrowing through the soil, have inflicted considerable damage recently in Virginia, Maryland and other eastern states, especially to vegetables stored in the ground and to early sown garden seed. The mole often gets the blame for the damage which is wrought by the field mouse. Moles live chiefly on worms and insects and do not destroy seeds.

Guillotine Trap Made Entirely of Metal.

of vegetables, while field mice gain a living from stealing seed and root crops.

These pests can be destroyed by trapping on small areas where the infestation is not extensive and where it is undesirable to put out poison. Twelve to 20 traps an acre may be used. The tunnels of the pine mouse should be excavated sufficiently to admit the trap on a level with the bottom, a garden trowel being used for digging.

Where mice are abundant on large areas poisoned bait should be distributed in teaspoonful quantities in the mouse runs and at the entrance of burrows. A mixture containing one ounce of powdered strychnine, one ounce of powdered bicarbonate of soda, and one-eighth ounce of saccharine should be sifted from a perforated tin box over 50 pounds of crushed wheat or 40 pounds of crushed oats, mixing the grain constantly so that the poison will be uniformly distributed. This dry mixture may be kept indefinitely without danger of fermentation.

Where it is necessary to use whole oats, the poison must penetrate the kernels, because mice hull the oats before eating them. Hence it is essential to dissolve one ounce of strychnine sulphate in two quarts of boiling water.

Where it is necessary to use whole oats, the poison must penetrate the kernels, because mice hull the oats before eating them. Hence it is essential to dissolve one ounce of strychnine sulphate in two quarts of boiling water.

On Trial for Betraying Edith Cavell to Germans

Georges Gaston Quien.

This photograph of Georges Gaston Quien, called the man who "betrayed Edith Cavell to the Germans," was made while he was answering questions during his trial in Paris. He was found guilty and sentenced to death for being responsible for the execution of the martyred British nurse.
