YOUR ACCOUNT INVITEDIs Your Watch
Cleaned and Oiled
Regularly?

UNLESS your watch is thoroughly cleaned and oiled every other year you should not expect it to serve you satisfactorily.

Day and night, year in and year out, you expect your watch to keep perfect time by winding it daily.

Heavy locomotives, automobiles and other engines and machinery—working less than half as much as your watch—constantly require new repair parts, cleaning and oiling.

Your watch is a delicate bit of machinery running continually, with never a holiday. Naturally, the oil will gum up and accumulate dust and grit. Then, instead of acting as a lubricant, it wears and cuts like a file. When your watch gets in that condition, the parts most exposed to wear may be permanently injured.

Insure your watch by having our experts attend to it. We do only first-class work, which we fully guarantee. You don't want a blacksmith to repair your watch at any price.

Our charges are quoted before any work is done, and in no instance do we charge more than the work is worth.

Mrs. S. B. Couture, sister of L. Adams of Oregon City, passed away at her home in Condon on Saturday, leaving a great number of friends and many relatives to mourn her death. Mr. Adams left here Saturday morning to be at the bedside of his sister, after receiving word of her serious illness. A short time after his departure word of the death of Mrs. Couture was received. Funeral services were held from the family home at Condon on Monday morning. Mrs. Couture had been a resident of Oregon for a number of years and had led a very active life. Her brother, L. Adams, returned to his home in this city on Tuesday.

ELECT BROWNELL

Candidate Pledges Earnest and Honest Work at Salem

There are three men to be nominated in the republican primary election for representative from this county. There is no democratic seeker for the offices.

I was in the state senate for twelve years. I am well qualified on account of my experience to do great work for the taxpayers of the county if elected to return to Salem for another term, and there being no democratic candidate in the field I solicit your moral support, at least, in the primary election.

I have pledged my word that, if nominated and elected as one of the representatives, that I will earnestly and honestly work to abolish commissions, cut down state expenses and reduce taxes in the interest of the people of the state and of this county.

I know how to do these things, and I have said that I WILL do them. What do you say to giving me a chance to make good? I know that I am in earnest and you should know, from my past service on behalf of Clackamas county and the state of Oregon, that I will keep faith with the voters and taxpayers.

There has been too much extravagance in the state legislature. Senators and representatives have not been properly safeguarding the public funds. The time has come to call a halt on the extravagance and high taxes and I will exert every effort, if nominated at the primaries and elected at the general election, to bring about the reduction of expenditures and of taxation, in addition to working to do away with useless commissions.—(Adv.)

GEORGE C. BROWNELL

HORSE THIEVES IN JAIL

Lads Accompanied by Pretty Girl Arrested at Roseburg

Two very young half-breed Mexican youths are in the county jail here looking forward to a term in the state reform school for stealing a horse, buggy and harness owned by Dr. Pettit of Silverton. The lads, Edward and Everett McDonald, stole the outfit at Molalla late last week and made their escape. Sheriff Wilson immediately sent circulars throughout the state and early this week he received notice that the boys were being held at Roseburg.

Sheriff Gellatley of Benton county brought the prisoners back as far as Corvallis and the Clackamas county official took them in charge there on Tuesday. The boys are aged 16 and 18 years respectively and are too young for commitment to the penitentiary for their crime. It is probable that the case will be turned over to County Judge Anderson, who will commit the young culprits to the reform school.

The brothers traveled south from Molalla after stealing the doctors rig and at Albany they met with a group of horse traders. They exchanged Dr. Pettit's horse for one owned by the traders, getting a small sum of cash in addition, and proceeded on toward California. Sheriff Wilson's description reached Sheriff Quinn at Roseburg in time to permit him to take the boys into custody.

When apprehended the boys had with them Shirley Mitchell, an attractive young daughter of a horse trader. The girl, through whom the Mexican lads were able to combine their thieving adventure with a wild romance, had her trunk and trinkets loaded into the buggy with the boys and the three were a considerable distance ahead of the main party of traders of which the boys were members.

She was allowed to join her parents in the party when it arrived at Roseburg. The McDonald boys are sons of a Mexican mother and an American father, and with their parents make a business of horse trading, traveling up and down the coast. The horses they get to supply the demands of those whom they trade with are, for the most part, acquired as was Dr. Pettit's horse. The doctor divides his practice between Silverton and Molalla and was attending patients at the latter place when the boys made away with his horse and buggy.

REPUBLICAN CANDIDATE
OUT FOR REPRESENTATIVE
OF CLACKAMAS COUNTY

Taxpayers:

I cannot see any just reason why we should not build all of our main roads as well as the much talked of Pacific highway by a state tax, or I will concede, an appropriation from the state either way, just so that the people that are benefitted the most have to pay their share, and that is just the reason I place it in my pledge to support a measure of that sort and will introduce it.

Every man knows (if he knows anything) that for every mile of road built the metropolis of the state gets the lion's share of benefit. Take the 24,000 automobiles in the state; over one-half are owned in Portland alone and the rest are scattered all over the state. Look at Multnomah county with her \$300,000,000 assessed valuation and about four times the amount of road to build. Why should Clackamas be taxed to death to build roads for the benefit of Portland? If you raise a 2-mill state tax for a hard surface road fund to be proportioned according to the miles of main trunk line in its county, then you can get your main lines hard surfaced and not until you do, and then reduce your main road tax if you want to. Now, if you don't do something of this kind, you will confiscate the farmer's land, for if they are in the same fix that I am, which I guess they are, we can't stand many more 18-mill taxes like I am paying now, and have for three years past. Portland has only 1.8 mills and then hollers her head off because we don't build roads for her motorists.

I don't believe I ever asked for anything but what was just and right in my life, but I believe this is equitable and right and just and if it is right why should I not ask for your support to try and put a measure through of that sort, and if I accomplish that alone it will be worth the while.

Laborers of All Classes: When you go into the booth to cast your ballot for the office of Representative to the Legislature, think of this: Every man when put to a test should, if he has the proper stuff in him, being true to himself and family, which I will give the other fellow credit for having, vote for and work for his particular line of business. My opponents are doctors, lawyers, bankers and ex-bankers. I am a laboring man, and, you all know, a fighter if necessary, Yours,

E. D. OLDS.

WHAT CATARRH IS

It has been said that every third person has catarrh in some form.

Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil-food in Scott's Emulsion which is a medicinal food and a building tonic, free from alcohol or any harmful drugs. Try it.

Scott & Bowne, Bloomfield, N. J.

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All druggists, 75c.—F. J. CHENEY & CO., Toledo, O.

"FEW DIE AND NONE RESIGN"

(Thomas Jefferson)

No other way is open for the evasion of my unqualified pledges to the people

If I am nominated and elected District Attorney, I will, during my term of office, endeavor every day to perform useful public service.

I will give the same earnest, thoughtful and diligent care to the People's cause that a faithful lawyer gives to the cause of his most favored client, and I will keep in mind, constantly, the public welfare, as opposed to all private or selfish interests.

Anyone qualified for the office can take care of the work easily without a deputy; I will not require one.

I will join hands with all moral forces in making useful citizens instead of criminals out of wayward boys and girls, and I will make the office of District Attorney a creditable and useful department in county administration.
