SEE US

FOR most of us the war has been a severe and trying experience--it has thrust upon us economies such as we probably will never again be forced to undergo. But if rightly received it has not been without its lasting benefits--and one of these has been to correct the besetting sin of our national EXTRAVAGANCE.

In the next few weeks and months we'll prove to ourselves whether or not we've learned our lesson--it is a matter for each to decide. We suggest that you begin now to practice that THRIFT which is essential to making our nation and households an example to European Countries.

Thrift implies the PLANNING of Spending. No better way than to study the values on this page--values are here! Resolve to take advantage of them! ---then act early upon your Resolution.

Resolved: to wear clothes that will make me a better-dressed man for the coming year. I will buy my clothes from
