about \$4000, and a committee composed of W. P. Hawley, Jr., chairman; B. T. McBain, Wallace Caulfield, Dr. Roy Prudden and Harry Tschirgi, will take over the work in securing the allotted quota for this county.

The committee appointed at the last meeting for the purpose of preventing a jitney line between this city and Portland, in order to still keep the present jitney running to Mountain View by the P. R. L. & P. company, was discharged after having failed to do anything in the matter. George Bannon, who was chairman of the committee, resigned,

claiming that he was not opposed to a jitney line between here and Portland. Other members on the committee failed to show up but W. A. Huntley, who in an address to the Wires, claimed that no concerted action could be had out of a committee appointed from Main street business men. A new committee will be appointed by Main Trunk Dye.

Later—Main Trunk Dye, of the Live Wires, made the announcement Wednesday evening of the committee named from the organization to take the place of the one which refused to serve on the jitney matter. The committee is composed of L. Adams, Charles H. Caulfield, Dr. Clyde Mount, Rev. C. H. L. Chandler, and Dr. L. A. Morris.

ELEVATOR SHUT DOWN; INVESTIGATION HELD

An investigation by Superintendent McCausland and Officer Burke was held Friday for the purpose of finding how many water faucets over the city were left open during the cold spell of the last few days. There has been so much water used in the city during the past two weeks, that the municipal elevator was shut down on account of not enough water to operate it. This caused an investigation by the water board, as there is now enough water coming from the South Fork to supply every need, besides running the elevator.

The officials, after investigating the homes over the city, found that where residents did not use the elevator, the faucets to their homes were left open, but those residents that did use the elevator, principally on the hill, were saving in their use of the city water. Strict measures will be imposed on those who are careless with the water, the members of the water board claim, and the elevator will not resume operations until the supply of water in the reservoir gains.

CLACKAMAS HEROES LOSE DISCHARGE PAPERS HERE

Goldwin P. Wilson, who arrived Saturday in this city from overseas service, and is visiting his mother here, Mrs. J. D. Wakeman, and William Wetzel, of Boring, who was recently discharged from the army at Camp Fremont, Cal., have both lost their honorable discharge papers from the army. The latter, while on a Southern Pacific train from California, fell asleep in his seat, and, upon awakening, found the envelope containing his papers upon the floor of the car, with the contents missing.

Corporal Wilson had his papers with him up to the time he arrived in this city, but is of the opinion that he lost them on the streets here. He entered the service on January 18, 1918, going first to England, later transferred to France, where he was in active service up to the signing of the armistice. He was with the 478th Aero squadron, and, upon the last papers reads: 478 Aero Squadron and also 25th company, 7th Battalion, 166th Depot Brigade.

Both of these young men are Clackamas county heroes, and would appreciate any information leading to the finding of the lost papers.

Weekly Health Talks What Doctor Pierce Has Done For Humanity!

BY DOCTOR CRIPPS.
It has always seemed to me that Dr. Pierce, of Buffalo, N. Y., should be placed near the top when a list of America's great benefactors is written. He studied and conquered human diseases to a degree that few realize. Whenever he found a remedy that overcame disease, he at once announced it in the newspapers and told where it could be bought at a small price. He did not follow the usual custom of keeping the ingredients secret, so that the rich only could afford to buy the medicine, but openly printed the name of each root and herb he used. And so today the names of Dr. Pierce and his medicines are widely known, and they stand for better health and better citizenship.

One of this great physician's most successful remedies is known as Doctor Pierce's Pleasant Pellets. These are little, sugar-coated pills, composed of Mayapple, leaves of aloe, root of jalap—things that Nature grows in the ground. These Pellets are safe because they move the bowels gently, leaving no bad after-effects, as so many pills do. Very often they make a person who takes them feel like a new man or woman, for they cleanse the intestines of hard, decayed and poisonous matter that accumulates when one is constipated. If you are constipated, by all means go to your druggist and get some of Dr. Pierce's Pleasant Pellets. They may prove to be the very thing your system requires to make you well and happy.

PERUNA A WONDERFUL MEDICINE

Rundown and Unable to Work
"I am pleased to recommend Peruna as it was beneficial in restoring my health when I was all run down from overwork and nervous worry and was unable to take up my regular work. A friend recommended Peruna and said he was sure that it would do me good. I soon found that I was getting better and in a little over two months I was able to resume my duties with renewed vigor and strength. It certainly is a wonderful medicine to vitalize the system."
