

# CORRESPONDENCE

(Continued from Page 3)

army camps, George says the army doctors do not even quarantine for it as they handle it now without the loss of an individual. They use quinine, calomel and salts, and confine the patient for a few days in a warm bed and are careful of the diet for a few days. He says you hear of no more deaths from the "flu" in the army as the disease is nine-tenths excitement and people with weak minds soon imagine they are affected.

Archie Averill writes from Chalotten, France, that it has rained there for three weeks steadily, and the government issued high rubber boots, leather jerkins, and leather gloves.

The question for debate at the Literary next Saturday, February 1, will be "Resolved, that the Government Should Own and Operate the Railroads, Telephones and All Other Industries." This is a burning question and one to solve right now. A case in point is the Pacific States Telephone Co., which now charges 10 cents for a call whether one gets the party or not. Charge for no service and will soon charge if you dream about using this bunch of pirates. This will not work long.

Ford is now after the seat in the U. S. Senate from Michigan, which Newberry claims he has been elected to. This precious (?) statesman spent a vast sum to win his election and it can be proven by even Republican testimony; that he resorted to

all manner of rascality to win out, Dickinson, who was elected lieutenant-governor on the Republican ticket last fall, warned Newberry that his campaign would bring on the worst scandals in the state of Michigan ever known.

Whoa, January!

The last day of January and very mild weather all the way through. Some predict a stormy month for February, and probably March.

Hardly any snow on the mountains until you get up to the snow line at a high altitude.

Work on the flume is being pushed right along with half a mile or more.

Our Chinese neighbor says that none of his people have died of the "flu," and very few have been sick, as their doctors know how to handle it and pay but little attention to it.

Mrs. Echo (Nancy) Finlay, whose earthly body was buried in Oregon City, was well known here, as she kept house for her uncle, Oliver Daily, on the Couper ranch last summer.

Sneed, who drives two big Pierce-Arrow autos stages daily here in the summer, is taking up a collection in Portland to have the roads planked all the way from Mikleson's mill at the Brightwood school, to Firwood. He will deliver the planks Tree with his auto truck, only asking the county to lay the planks. The distance is about 10 miles—more than half of which is already planked. This will be a great help. Entertainment at the schoolhouse Saturday night of this week. The question for discussion will be: "Resolved, That the Government Should Own and Operate the Railroads, Telephones and All Other Public Industries." Public economists of any standing are pretty much agreed that all property, privately used, should be privately owned, but public utilities publicly used should be publicly owned.

John Fuecher, who owns a bunch of cattle here and cared for by Wm. Webber, is out from Portland this week on a vacation, as he has been pretty steadily at work on a milk route in the city for seven months, in which he did not lose a day during the entire period.

The president surely is cutting ice in France as speeches are received with the greatest enthusiasm, and are models of expression and elegant diction, and mark him as one of the master intellects of the whole world. George Clemenceau, the prime minister of France, is a remarkable man in spite of his 77 years. He is a man of prodigious intellectual powers and boundless energy.

George Ten Eyck, who was honorably discharged from Camp Lewis last week, was a member of a heavy artillery division and went to the Atlantic coast, where they arrived on Nov. 11th with the expectation of embarking on transports on the 18th,

but the armistice was signed and most of them were disappointed. They did not speak highly of the fare at Camp Eustis, near Newport News, while at Camp Lewis they were treated fine.

The new peace map of Europe looks like a Chinese puzzle board, and surely leaves Germany pretty well tied up. It will be a long time before they start anything again. The Germans now claim a different set of men and ideas control that country now, but why do they keep old Hindenburg as head of their army, the biggest military man of the whole lot, and a warrior of the old Hun pattern? Much good it does, I don't think.

California has a community settlement established by the state in Butte, whereby settlers are sold land on long time at a low rate of interest and capital furnished for stock and improvements. One entire tract is already sold and another is being laid out. Settlers are furnished reliable information as to the nature of the soil and wheat crops are the most reliable according to state agents. Washington is also moving in this great work and will soon start a plan on the same program. Now it is time Oregon took steps in this matter, as it would furnish homes for many worthy people.

Germany wants a place in the sun. While their fight is lost and done. And their bloody career is already run.

Verboten!

They want all their colonies back, And put at once on fortune's track And all the grub they badly lack.

Verboten!

They want freedom and good will And all mankind to pay their bill, And promise no more to kill.

Verboten!

They do not want a bit to pay For mankind no longer to say Your bloody Huns have had your day.

Verboten!

Raus mit jui, and also ausgespeil— That's the way we all do feel, Go to work, come woe or weal.

Verboten!

## CLARKES

Mr. and Mrs. D. F. Moehne were in Portland last Monday.

Geo. Clarke and Frank Nicholas were in Oregon City last week.

H. C. Kleinsmith is going to saw wood for W. H. Bottumiller.

Mrs. George Clarke and children visited her sister, Mrs. Clarence Lee, and family last Sunday afternoon.

Miss Florence Kleinsmith came home from Woodburn last Sunday.

Ed Buol is hauling lumber for the D. F. Moehne saw mill.

David Moehne and family, and Arthur Hornschuh and family visited Christ Muralt and family, and Ed. Hornschuh, of Portland, last Sunday.

Alvin Hornschuh is working for the D. F. Moehne saw mill.

Rupert Marquardt was in Portland last week.

Mrs. Clarence Lee was in Oregon City last Saturday.

Miss Violet Wettlaufer, of Portland, came home to rest because she was ill with the influenza.

## PARKPLACE

This is the sort of weather that makes all the school children want to play hockey. Isn't it just like Spring, tho!

We all extend the deepest sympathy to Mr. and Mrs. Kent, in the loss of their son, Lowell, who was drowned at New York, a few days ago. He was one of the finest fellows from Parkplace, and his parents were expecting him home soon.

Mr. Friedrich is recovering from a stroke of paralysis. He had started to work in Oregon City last week and his daughter found him about half an hour later, at the foot of the hill, in front of their house, unconscious.

Gertrude Blood, of Portland Heights visited her grandmother recently.

## FOR STUBBORN COUGHS AND COLDS

Dr. King's New Discovery has a fifty year record behind it

It built its reputation on its production of positive results, on its success in relieving the throat irritation of colds, coughs, grippe and bronchial attacks.

"Dr. King's New Discovery? Why, my folks wouldn't use anything else! That's the general nation-wide esteem in which this well-known remedy is held. Its action is prompt, its taste pleasant, its relief gratifying. Half a century of cold and cough checking. Sold by druggists everywhere.

**Bowels Out of Kilter?**

That's nature calling for relief. Assist her in her daily duties with Dr. King's New Life Pills. Not a purgative in the usual dose, but a mild, effective, corrective, laxative that teaches the bowels into action and chases "blues."

Ensign Lyle Kellogg, of Seattle, Wash., who has been visiting his home in Oregon City for the past few days, was in Parkplace Saturday visiting his grandmother, Mrs. Brayton. This is the first time the young man has been able to visit his home for nearly four years, and needless to say his friends and relatives were very glad to see him. His grandmother is extremely proud of her grandson, and the splendid record he has made while in the navy.

Mrs. Brayton also has another grandson in the service, Leslie Kellogg, in France. She received a letter from him this week, and he said he was coming to see her before very long. He is expecting to be sent home soon.

Well, it seems good to be able to drive to Oregon City again. The water sure did cover the road for awhile, making it necessary for everyone to go up on the street car. Even the high school students, who usually walk, for health's sake you know, were forced to go on the car. But those things are all in the past now, for the road is very much traveled again.

Well, here's hoping this sort of weather last awhile. Did we hear some farmer disagreeing? Oh well, such is life!

**Sues to Recover Land**

Suit to recover on a tract of land sold to A. Vesta and Anna Vesta in 1915 was filed here Thursday by John Anderson. The plaintiff claims that a mortgage was given for \$500 for three years at seven per cent. The property has since been sold several times. In April, 1917, Vesta sold it to Carl and Emil Lovegren, who in turn disposed of it in July, 1917, to A. M. Holt. Holt sold the property to C. W. Johnson. Each purchaser assumed the mortgage in turn. Anderson claims that the mortgage is long overdue and asks settlement and \$100 as attorney's fees.

## DARTING, PIERCING SCIATIC PAINS

Give way before the penetrating effects of Sloan's Liniment

So do those rheumatic twinges and the lumbago, the nerve inflammation of neuritis, the wry neck, the joint wrench, the ligament sprain, the muscle strain, and the throbbing bruise.

The ease of applying, the quickness of relief, the positive results, the cleanliness, and the economy of Sloan's Liniment make it universally preferred.

**Sloan's Liniment Kills Pain**

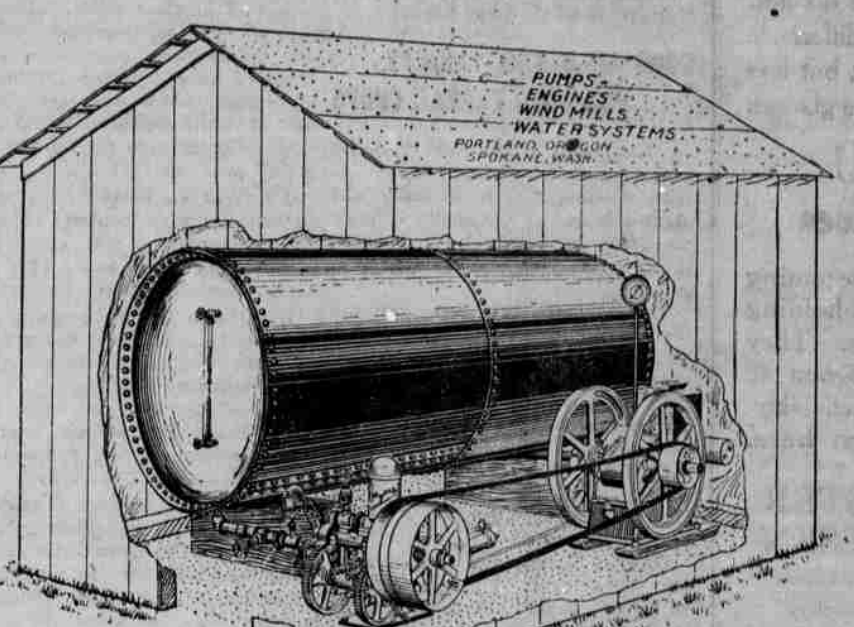

## Water Systems

will be found on hundreds of farms and suburban places in Oregon and the Northwest. They have been sold here by us for years. They give satisfaction. WHY? Because they are made up of good units such as

Stover  
Gasoline  
Engines

Myers  
Pumps and  
Cylinders  
and Tanks  
that are  
made right  
and  
thoroughly  
tested

and we make proper installation, using men for this purpose who have had years of experience. Besides all this, if anything isn't right we try to make it right. When you install a water system you put in something that is to serve you for many years. Better get a good system made up of good units, put in by a responsible concern with experienced men and in the right way.

In short

## W. J. WILSON & CO.

OREGON CITY, OREGON

### The Drainage Boosts Values

Sheboygan County, Wis., farmers received much benefit in 1918 from community tile drainage project conducted by the farm bureau and the county agent. Over 40 farms were visited, 85,000 feet of tile were run, and 70,000 feet of tile was laid, which reclaimed 75 acres of land. It is estimated that as a result of the land drained, the value of farm lands in the vicinity has increased \$12,000. The project will be continued in 1919, and it is planned to reclaim 500 acres of land.

Telegram and Courier, \$4.25.

## YOU MEN WHO PAY THE FAMILY SHOE BILLS

Tramping 18 miles a day, Mr. H. M. Foreman, a mail carrier of Allentown, Pa., found that shoes with ordinary soles last about one month. But he says a pair of Neolin-soled shoes gave him more than nine months of service, in which time he walked over 4,000 miles.

His experience shows how you may save shoe money by providing your family with Neolin-soled shoes, which give extra wear where other shoes wear out quickest.

You can get Neolin-soled shoes in any type of shoe you want. Prices are about the same as for shoes that give only ordinary wear, sometimes they are even less. If your dealer hasn't the style you want, he can get it for you quickly. Remember, Neolin Soles are created by science to be what soles should be. They are available everywhere for re-soles as well as on new shoes. They are made by The Goodyear Tire & Rubber Company, Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear any other heels.
