

Big Ben should be in every farmer's home

You men who live on the farm have got to be heavy workers. And if you are heavy workers you require heavy sleep and lots of it.

For heavy sleep is heavy work's reaction and it's not always easy for the heavy sleeper to get up without help.

That's where Big Ben comes in. He makes it easy every morning.

Big Ben is a truth-telling and reliable alarm clock.

He gets you up, he never fails.

You're always up on the dot if he's in the sleeping room.

See him in our window next time you come to town. Hear him greet you Good Morning. He is well worth meeting, indeed.

ST. VALENTINE NIGHT.

Philharmonic Orchestra Will Hold it Ball This Date.

Wednesday evening, February 14, the Philharmonic Orchestra will give its first annual ball at Busch's hall.

This dance is under direction of R. V. D. Johnson, the musician who came into Oregon City, got together a bunch of rather raw material, and has made of it an orchestra the city is growing proud of every day.

This dance is for the benefit of this orchestra, to help pay its bills and put a few cents in the treasury.

It is a St. Valentine dance and the committees propose to make it one of the real swell dances of the season, one of those affairs you will look back to and look forward to again, and it will no doubt be an annual feature.

The ball will be an invited affair, and as there is a host of friends of the young orchestra who will be only too glad to assist them, as well as have a splendid time themselves, the invitations will be looked forward to eagerly.

FIGHT ON WESTERN RATES IS BEGUN

Chicago.—A gigantic struggle between every railroad operating in the western part of the country, scores of commercial organizations and thousands of shippers in cities and towns throughout the west began in Chicago Monday at a hearing before George N. Brown, chief examiner of the Interstate Commerce Commission. The issue, which involves millions in freight rates, is whether the roads shall be permitted to put into effect on February 15 next a long list of changes in what is known as the western freight classification.

It is charged that the rail carriers, by shifting hundreds of classifications, are seeking to achieve the same results, so far as advancing freight rates are concerned, that they attempted to obtain in the big freight rate proceeding decided adversely to them by the Interstate Commerce Commission a year ago.

Helpful Hints on Hair Health

Scalp and Hair Troubles Generally Caused by Carelessness

Dandruff is a contagious disease caused by a microbe which also produces baldness. Never use a comb or brush belonging to someone else. No matter how cleanly the owner may be, these articles may be infected with microbes which will infect your scalp. It is far easier to catch hair microbes than it is to get rid of them, and a single stroke of an infected comb or brush may well lead to baldness. Never try on anybody else's hat. Many a hatband is a resting place for microbes.

If you happen to be troubled with dandruff, itching scalp, falling hair or baldness, we have a remedy which we believe will completely relieve these troubles. We are so sure of this that we offer it to you with the understanding that it will cost you nothing for the trial if it does not produce the results we claim. This remedy is called Rexall "93" Hair Tonic. We honestly believe it to be the most scientific remedy for scalp and hair troubles, and we know of nothing else that equals it for effectiveness, because of the results it has produced in thousands of cases.

Rexall "93" Hair Tonic is devised to banish dandruff, restore natural color when its loss has been brought about by disease, and make the hair naturally silky, soft and glossy. It does this because it stimulates the hair follicles, destroys the germ matter, and brings about a free, healthy circulation of blood, which nourishes the hair roots, causing them to tighten and grow new hair. We want everybody who has any trouble with hair or scalp to know that we think that Rexall "93" Hair Tonic is the best hair tonic and restorative in existence, and no one should scoff at or doubt this statement until they have put our claims to a fair test, with the understanding that they pay us nothing for the remedy if it does not give full and complete satisfaction in every particular. Two sizes, 50 cents and $1. Remember, you can obtain Rexall Remedies in Oregon City only at our store—The Rexall Store. Huntley Bros. Co.

THIS is not the only store that sells Crockery and Glassware in this state, but it is the one that sells **reliable** Crockery and Glassware.

It may be news to you that a cup and saucer made of the same material and finished in the same way, may have two grades—"firsts" and "seconds." This is caused in the making, firing and handling of the cup and saucer. The cups and saucers that come out of the process best are "firsts" and the next are "seconds." It is the same with Glassware. Most stores carry "seconds" only. We carry both.

But when we offer you the **best** Crockery and Glassware at this store it **is** the **best.** Inspect our stock, compare our prices with those of any other store—**Then look at the quality**

J. E. SEELEY

A GLIMPSE OF WAR.

The Sensations of a Young French Soldier at Sedan.

We could see the lines and lines of helmets A bad sight to see those helmet spikes.

And I cannot remember when it was that there crept through our ranks the feeling that those helmets were not only in front of us, but in every direction round about, and that we were surrounded. I suppose it came from the sound of firing coming from so many directions.

It is at such a time that one feels of a helplessness And the noise—did I tell you of the noise? There were single booms and crashes of volley firing, and then there would be just one great roaring, one great thundering, that deafened you and in which you could not tell one sound from another.

There was smoke, smoke, everywhere, and the ground would tremble when the cavalry made charge.

I would tell you all that I remember of most interest. But is it interesting to tell you that shells burst and that our ranks thinned and closed up and that I felt more and more that we were to be beaten?

I would have wept, but I had too much to do in firing and in watching the lines of helmets.

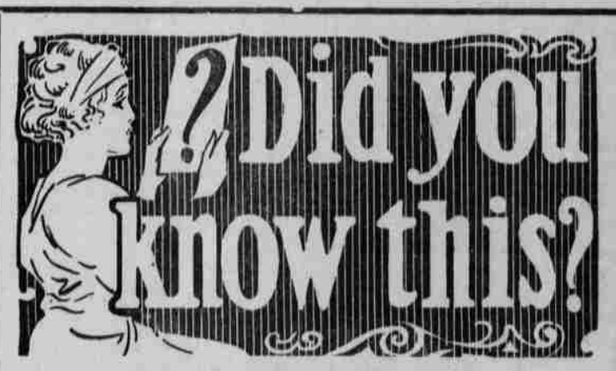

It is that a soldier gets full of an excitedness. You do things and you scarcely know that you do them or why.

It was early that day that my comrade was killed. And he jumped up twice—so, so! And he fell flat on his face. I turned him over, and my captain said: "No time for that. You are a young soldier or you would know there is no time for that."—Robert Shackleton in Harper's Weekly.
