And still the war drags on and more and more nations are being dragged into it. When this great conflict is over there will be a complete upheaval in society and kingcraft and priestcraft will cease to exist.

No more palaces for kings nor cathedrals for priests while the people who built them live in hovels.

A wholesale man from Portland was through here last week trying to unload a lot of high-priced foodstuffs on the country merchants, while they were passing the buck to the people, the ultimate consumer, who gets it in the neck every time.

They are hedging as the war may blow up any day and prices go down. Flour is cheaper and some other things, in London and Paris than it is here and congress is being urged to do something to put these food speculators on the blink.

A rancher in Sherman county writes that he couldn't sell 300 bushels of wheat lately as the boosters are already loaded up to the utmost and are trying to unload. Enquiry revealed the fact that the warehouses in Chicago were full to bursting, also the same in other cities. In the meantime the pulpit and the press are doing but little to show up the greedy wretches who are strangling the people and trying to force the poor to pay still higher prices for the necessities of life.

Had Trouble Four or Five Years

No one appreciates good health like those who are ill. W. J. Furry, R. F. D. 2, Salem, Mo., writes: "I have been bothered with bladder trouble four or five years. It gave me a great deal of pain. I took different medicines, but nothing did me any good until I got Foley Kidney Pills." Many persons suffer from kidney and bladder trouble when they can be relieved. Backache, dizziness, rheumatic pains, stiff or sore joints and other symptoms yield to Foley Kidney Pills.—Jones Drug Co.

STAFFORD

Quite a number of Stafford people, old and young, went to the exercises at the Hazelia school house last Saturday evening and were highly entertained, especially by the unique hard times band. Every one was examined by a competent committee at the door, and fined 10 cents for each bit of jewelry they had on, or patent leather shoes, or if they did not have at least two patches on their clothes.

The judges decided that Vernon Davidson of Hazelia and Dora Oldenstadt of Stafford were the most artistically patched and awarded them the prize, a box of delicious home made candy. The committee realized about \$22, to be applied to the piano fund for the school.

MOUNT PLEASANT

The entertainment Saturday evening was a great success socially and financially.

Yes, Mr. City Dweller, you had better come out on the farm. Sure, a good farm is better than a bank now.

Yes, we farmers raise the crops and Uncle Sam sees that it is all sunk in the Atlantic, so what is the use?

Mrs. E. L. Camp has returned home from the hospital much improved in health.

The many friends of Mrs. Worthington will be pleased to hear of her much improved condition, though she is not able to leave the hospital.

Born to Mrs. Lucile Kellogg O'Rourke a 9-pound boy. Mother and baby are doing nicely and you that have been there know what grandma thinks.

Charles Brown received 1250 baby chicks, the second unit of his 4000. Quite a poultry farm.

Mount Pleasant sure will cast one big vote against the road bonds. The event of the times was the marriage of Miss Mildred McLain to

David McKillican. David was born and raised and educated here and was always regarded as a model young man. Miss McLain was a favorite and a church worker. MRS. BURR ON EDUCATION

Says Those Who are Slow Make Successes in After Years

Clackamas, Rt. 1, April 23, 1917.—To the editor—Some of our professions are beginning to see flaws in our schools and teachers. Some complain that the teachers do not take interest enough in the schools and others that the scholars do not make their grades.

Now then, teaching is work and a good teacher works hard to make a success of her school. It is not so much the education a teacher has as it is her ability to impart that knowledge to others.

That "aristocracy" which Mr. Ginter speaks of need not trouble our professors as teaching is hard work and this aristocracy will soon seek other employment. Get married, perhaps, and be the mothers and fathers of other children who will in time be the inmates of our school houses.

And our teachers need not worry if Johnnie or Julia do not make their grades at the stated time they have made out on their program. These children often times know their own minds on other things besides their books. It is not the brightest scholars that always make the best men and women. Some children show a talent for school and make good professors. While there may be one out of each room who has a talent for books or teaching, each child has some talent which in time will develop itself. Knowledge comes to every one through thought and hard work.

A child under twenty has very little knowledge because they have not had the time to develop thought. The world is new to every child and the first twenty years of any one's life is just the foundation of after life. If the first twenty years is spent in building up a good foundation the children will develop into useful men and women, men and women who will be called on to manage the world's affairs.

It isn't so much education as it is the right principles, the right thoughts and hard work that makes men and women who do things.

Give every child a good foundation and if he is slow to develop he will do all the better for it in after years. The bright children make good teachers or professors, but the ones slow to learn are the ones who usually manage our affairs in after years.

MRS. VIOLA BURR.

LOYAL GERMANS

Salient Extract from Address to Congress by President Wilson

"We are, let me say again, the sincere friends of the German people, and shall desire nothing so much as the early re-establishment of intimate relations of mutual advantage between us—however hard it may be for them, for the time being, to believe that this is spoken from our hearts."

"We have borne with their present government through all these bitter months because of that friendship—exercising a patience and forbearance which would otherwise have been impossible."

"We shall, happily, still have an opportunity to prove that friendship in our daily attitude and actions toward the millions of men and women of German birth and native sympathy who live among us and share our life, and we shall be proud to prove it toward all who are in fact loyal to their neighbors and to the government in the hour of test."

"They are, most of them, as true and loyal Americans as if they had never known any other fealty or allegiance. They will be prompt to stand with us in rebuking and restraining the few who may be of a different mind and purpose."

"If there should be disloyalty, it will be dealt with with a firm hand of stern repression; but, if it lifts its head at all, it will lift it only here and there, and without countenance"

except from a lawless and malignant few.

"It is a distressing and oppressive duty, gentlemen of the congress, which I have performed in thus addressing you. There are, it may be, many months of fiery trial and sacrifice ahead of us. It is a fearful thing to lead this great, peaceable country into war, the most terrible and disastrous of all wars, civilization itself seeming to be in the balance."

A New Russia

The basis of the new government established in Russia shows that democracy has won a complete victory. It reads as follows:

"1. An immediate general amnesty for all political and religious offenses, including terrorist acts and military and agrarian offenses."

"2. Liberty of speech and the press; freedom of alliances, unions and strikes with the extension of these liberties to military officials within the limits admitted by military requirements."

"3. Abolition of all social, religious and national restrictions."

"4. Proceed forthwith to the preparation and convocation of a constitutional assembly based on universal suffrage, which will establish a governmental regime."

"5. The substitution of the police by a national militia, with chiefs to be elected and responsible to the government."

"6. Communal elections, to be based on universal suffrage."

"7. The troops which participated in the revolutionary movement will not be disbanded, but will remain in Petrograd."

"8. While maintaining strict military discipline for troops in active service, it is desirable to adopt for soldiers all restrictions in the enjoyment of social rights accorded other citizens."

"The provisional government desires to add that it has no intention to profit by the circumstances of the war to delay the realization of the measures of reform above mentioned."

Freedom of speech and of the press—these are not only fundamental but they furnish the broad base upon which to erect popular government. If the czar had permitted freedom of speech he might have known something of public sentiment and saved himself by yielding. The ruler who silences his critics and tries to run his government according to the flattery of his courtiers invites revolution.

"Universal suffrage" at one step. How different from the experience of the countries where the extension of suffrage has been gradual—each step won after a struggle. "The abolition of all social, religious and national restrictions," and "amnesty for all political and religious offenses!" They have torn despotism out by the roots and planted in its place the tree of liberty. The people are king—"long live the king!"—W. J. Bryan.

Spring Fever?

This is the time of year to look out for trouble! We feel weak—our blood seems hot—no appetite. It's time to clean house! This is when the blood is clogged and we suffer from what is commonly called a cold.

Doctor Pierce's Golden Medical Discovery (in liquid or tablets) purifies the blood and entirely eradicates the poisons, but it increases the activity of the blood-making glands, and it enriches the body with an abundant supply of pure, rich blood. For sale by druggists. Take it as directed and it will search out impure and poisonous matter in the stomach, liver, bowels and kidneys and drive it from the system through the natural channels.

ASK YOUR NEIGHBOR! Portland, Oregon.—"Dr. Pierce's remedies have been used in my family for years, and with good results. I always gave my children the 'Golden Medical Discovery' as a tonic in the spring. My husband took it for poor blood, torpid liver and indigestion. My daughter found it especially good for bloating caused from indigestion. I am glad to recommend Dr. Pierce's Golden Medical Discovery."—Mrs. M. Cunningham, 509 Ross Street.
