

OREGON CITY ENTERPRISE

FIFTIETH YEAR—No. 11.

OREGON CITY, OREGON, FRIDAY, MARCH 17, 1916.

ESTABLISHED 1866

OVER A MILLION AND A QUARTER IN BUILDING HERE

OREGON CITY WILL SPEND BIG MONEY DURING YEAR FOR MANY IMPROVEMENTS.

WOOLEN MILLS PLAN A NEW WEAVER'S STRUCTURE FOR FALL

Paper Mill Plant, Willamette Valley Southern Road, and County Make Up the Bulk of the Prosperity.

One million and a quarter dollars is the estimated amount in sight for building construction in Oregon City during the current year. The chances are that the total will exceed that sum by the close of the twelfth month. Nor is this a building boom for the city. It is only steady, conservative expansion and extension.

The Hawley paper plant is erecting, and will equip, the new addition to the present mills at an estimated cost of \$750,000. This improvement will necessitate the employment of at least 200 more operatives. Foundation for the structure is now being dug.

The Oregon City woolen mills have planned the expenditure of approximately \$50,000 for enlargements, which will call for the employment of 100 additional operatives. The capacity of the present plant is not sufficient to meet the growing business of the company. The output must be increased a third, according to General Superintendent William Hesselblad, to take care of the demands.

Among the new equipment contemplated are 26 looms, four cards and 2100 spindles. These will be housed in a new weaver's shed or building 72x180, two story and basement. It will be of brick and joined to the present plant on the north end and built towards the river.

Superintendent Hesselblad said Monday that the business of the woolen mills had already shown thus far in the new year an increase of thirty-three and a third per cent over the volume of last year and that the balance of the year would run as well, if not better. He says 1916 will be the biggest and most prosperous twelve-months the company has ever had.

Some twenty and more machines were installed in the garment department of the mills Monday, thereby increasing the output of that department a third, according to H. F. Tschirgl, superintendent of that branch of the plant. As many more are expected to be put in before the year ends.

The Willamette Valley Southern Railroad company is planning upon the expenditure of possibly \$100,000, and maybe more in betterments during the summer and fall. This will furnish employment to a hundred or more men.

Clackamas county has already let road contracts for nearly \$10,000 worth of construction, and during the year will spend about \$300,000 more. There may be other public and private work in and about the city to run the grand total of expenditures to a million and a half.

TAXPAYERS LOATH TO GIVE UP MONEY

Some \$40,000 less money has been collected on general taxes this year as compared to 1915, according to George Harrington, tax collector for Clackamas county. Also the number of receipts for taxes is therefore some \$600 more on hand than for last year. This does not mean that less money will be collected on general taxes this year than last, but it indicates that the taxpayers are holding back in larger number until the time limit for paying is reached or nearly so.

Under the law the penalty for delinquent taxes begins to run after April 1. One per cent a month interest is slapped on then for the first period. Should the delinquency run into the second period, which begins on October 1, then interest will run the same on both periods.

RURAL CREDITS BILL AND DRAINAGE AND IRRIGATION MEASURE SEPARATED

SALEM, Ore., March 16.—The Oregon Drainage, Irrigation and Rural Credits conference today decided, after a prolonged discussion, to have two committees, each with a membership of three, to take the necessary steps and perfect the necessary organization to secure the placing of the irrigation and drainage amendment to the state constitution on the ballot and to work for their passage. It is provided that the committees shall work with the attorney general and so far as possible, with each other.

The original amendment introduced by Jay H. Upton of Prineville, provided for a committee of seven to

ROAD CONTRACTS LET FOR \$7,500 OF WORK UPON TWO HIGHWAYS

TWO MILES OF PLANKING IN COLTON DISTRICT AND MILE OF MACADAM.

Contracts were awarded Thursday by the county court for road construction that will aggregate something over two miles at a cost of approximately \$7500.

A quarter of a mile of bituminous macadam will be put down on Oak avenue and nearly a mile more of the same character of material on the Oakfield road in the Oak Grove district. W. H. Counsell secured the contract for this work. Work will be commenced on the job Monday and pushed through speedily.

Martin Brothers received the contract for putting down two miles and more of plank roadway in District No. 45, better known as the Colton highway. There will be 300,000 feet of timber cut for this contract. A portable sawmill will get it out along the road as the work progresses. The contractors are expected to begin cutting and work by May 1.

Employment of between fifty and one hundred men will be called for by these improvements.

MAPLE GRANGE HAS A LIVELY MEETING

A. J. LEWIS ELECTED DELEGATE TO STATE BODY—BIRDS TALKED ABOUT.

Maple Grange held its regular meeting Saturday with an attendance of 30 members, and about 20 visitors during the lecture hour. One new member was balloted upon and applications for two more candidates are on file.

Several live questions were discussed and acted upon, including temperance and preparedness. A. J. Lewis was elected delegate to represent Maple Lane Grange at the state grange convention.

The lecture hour is always public, but the young people had a special invitation to attend on this date to hear Mrs. William Hammond of Gladstone talk on "Birds of Clackamas County." It was interesting and instructive, so were the remarks on the organization of an Audubon society here.

Pomona had charge of the lecture hour and arranged a short program including several recitations and songs.

GOOD DAY FOR TAX COLLECTOR

Collections were good Saturday for the tax collector's office. More than \$5000 was paid in during the day. The penalty begins to run against delinquents after April 5.

DEPOSITS INCREASE IN ALL LOCAL BANKS

STATEMENTS OF THE OREGON CITY INSTITUTIONS SHOW GAINS SINCE LAST CALL.

Statements of the three banks of Oregon City, under the call of March 7, show a wholesome increase in deposits, which is always the barometer of the fiscal condition of a city. This last statement which has just been issued is a reflex of the prosperity in Oregon City.

The gain in deposits by the Bank of Oregon City since last statement issued under the call for Nov. 10 was \$50,370.05. The gain in deposits by the First National was \$31,348.27 between the last call and March 7. Deposits of the Bank of Commerce, according to its statement March 7, were \$59,218.54 as compared with \$8,656.73, on December 31.

J. WILBUR HELD TO FEDERAL GRAND JURY

United States Commissioner Drake in Portland Thursday held Julius Wilbur, manager of the Friars' club at Milwaukee, which was recently raided by United States internal revenue officers, deputy United States marshals and deputy sheriffs, in an unsuccessful attempt to find liquor there, to the federal grand jury on a charge of having conducted a retail liquor business from July of last year to January 1 without a federal license. The commissioner took this action after Mr. Wilbur in his own testimony had told of having served drinks to patrons of the tavern. He asserted he had gone elsewhere to buy the drinks and had charged them to the customers and that he had received no commission.

WOOLEN MILLS TO INSTALL 26 NEW MACHINES

IT MEANS EMPLOYMENT OF FIFTEEN MORE OPERATORS AT THE PLANT.

OUTPUT OF GARMENT DEPARTMENT INCREASED ABOUT A THIRD MORE

Business of the Company Growing So That Its Present Capacity Must Be Doubled Later to Meet Demands.

Twenty-six more machines will be installed in the garment department of the Oregon City woolen mills Monday, according to Superintendent H. F. Tschirgl.

This means that the output of this department will be increased one-third, making in all with the addition about 106 machines. It also means the addition of fifteen or more employees to work these new machines.

The machines reached Oregon City Saturday from Portland and will be unloaded and installed Monday. Within the next few months a similar increase will be made, according to Superintendent Tschirgl.

"The increase in business and growing demand for our output has made this extension necessary," said Mr. Tschirgl. "Orders are coming from markets which the company has not heretofore supplied with our products. We ship now as far east as New York. Wherever we sell once, we always get return orders, because of the quality and standard of our goods."

Intimation comes from the mill people that the present year will see further and larger improvements and extension to the plant in order to meet the growing business. These will be announced later, when the plans of company have been matured.

TO INCREASE CAPITAL STOCK OF W. V. S. ROAD

Much interest centers in the special meeting of the stockholders of the Willamette Valley Southern Railroad company in Oregon City Thursday to vote upon an increase of the capital stock of the corporation and the authority for its issuance.

HERE, REGISTER, IF YOU HAVEN'T DONE SO!

FORTY-EIGHT HUNDRED NAMES PUT ON POLL LISTS—GET BUSY, YOU!

Say, are you registered? If not, why not? Don't you know you cannot cast your ballot unless your name is upon the registration list. And April 19 is the last day for putting your name there.

If you have forgotten to attend to this duty, go the first thing today and get it off your mind. It is imperative. If you intend to vote at the coming primaries and later at the general election, and remember there is a president and vice-president of the nation to be elected in November, your name must be on the poll lists.

There was a total of 4800 registrations up to Thursday. Of these there were 3345 Republicans, 1133 Democrats, 96 Prohibitionists, 112 Socialists, 83 Independents, and 30 Progressives.

The St. Helens Shipbuilding company have under construction at shipyard two five-masted auxiliary power schooners.

VILLA INVADES AMERICAN SOIL AND IS CHASED

COLUMBUS, N. M., ATTACKED BY 1500 MEXICANS WHO NOW ARE BEING PURSUED.

U. S. TROOPS IN MEXICO

United States Soldiers Have Brisk Engagement 15 Miles South of Border—Lansing Notices de Facto Government.

COLUMBUS, N. M., March 9.—A report reached here tonight, and was relayed to military headquarters at Hachita, N. M., that a Villa force had appeared on the American side of the border west of here with the apparent intention of attacking the Seventh United States cavalry border guard near that point.

COLUMBUS, N. M., March 9.—Francisco Villa, outlawed Mexican bandit, raided United States territory today. With 1500 men he attacked Columbus, killed at least 16 Americans and fired many buildings before he was driven back across the international border.

At least 250 troops of the Thirtieth United States cavalry followed the Villa band into Mexico. Reports to Colonel H. J. Slocum late today said that Villa had made a stand 15 miles south of the border, where spirited fighting ensued. In this engagement an unnamed private was killed and Captain-Adjutant George Williams was wounded.

The small detachment of troops under Majors Tompkins and Lindsay, fighting dismounted, made a determined stand against the renewed Villa attack and at last reports were holding their ground.

The raid to American territory proved costly to the bandit chieftain. The bodies of 18 Mexican bandits, including Pablo Lopez, second in command, had been gathered and buried before noon and troops reported an undetermined number of dead still lying in the brush.

Led to the attack under the slogan, "Death to the Americans!" Villa's followers fought with desperation. Just before dawn they crept along ditches skirting the United States cavalry camp and rushed the sleeping town, firing heavily.

WASHINGTON, March 9.—Washington stands squarely behind Colonel Slocum in sending his cavalrymen into Mexico in pursuit of Francisco Villa and his band of outlaws who raided Columbus, N. M., today, murdering American soldiers and citizens and firing the town.

Secretary Lansing tonight informed the de facto government of Mexico through Eliseo Arredondo, its ambassador designate here, that he trusted no objection would be made to the action of the American troops, they having followed what is known in military circles as a "hot trail." No orders have been issued for the return of the soldiers, and it is not probable any will be issued for the present.

Shocked indignation occasioned by news of Villa's outrage was quickly succeeded by undisguised satisfaction in official and congressional circles over the knowledge that after three years of patient forbearance United States troops actually were on Mexican soil to avenge the death of their comrades and bring to justice the outlaws whose depredations have terrorized Americans on both sides of the border.

Rumors that American troops were in action tonight probably 15 miles south of the border against a much larger force of bandits were heard with anxious interest in official circles.

DIVISION IN THE BIG SALEM CONFERENCE

RURAL CREDITS AND BOND AID TO PROJECTS MAY BE SEPARATED NOW.

SALEM, Ore., March 9.—It was apparent from the developments in the Oregon State Credits conference, which opened here today, that the plan to couple state aid to irrigation and drainage projects with the rural credits measure would be opposed. The opposition may be strong enough to divorce the two propositions.

Senator W. Lair Thompson, of Lake View, proposes that two separate committees be indorsed by the conference, one providing for the rural credits separately and the other providing for a combination of rural credits with state aid to irrigation and drainage. It is obvious, he pointed out, that the people may adopt the one and reject the other.

WEST LINN AND WILLAMETTE ARE ONE TOWN NOW

CONSOLIDATION OF THE TWO IS FORMALLY MADE AT FORMER'S HALL WEDNESDAY.

COMMUNITY WILL BE KNOWN AS WEST LINN IN THE FUTURE

Election Thirty Days Ago Determined the Merger by Almost Solid Vote—Several Improvements Are Planned at the Meeting.

West Linn absorbed the town of Willamette Wednesday night. The two became one automatically under the merger acceptance by West Linn, following the election on the proposition 30 days ago.

Mayor J. B. Lewthwaite of West Linn and the other two officers, including the council, met last night at the town hall, transacted some business and then received Mayor Wilson, Recorder Jenkins, Treasurer Diehl, Councilman Edwards, Chief of Police Critzer and other outgoing officers of Willamette.

The two mayors felicitated each other upon the occasion of joining hands, pointing out the economies that must naturally flow from the union. Then some of the other officers made addresses and responses that cemented the union in sentiment as well by law. West Linn performed the feat of swallowing the young town without difficulty.

The transfer of the books and records and cash will be made today by the various officers, completing the merger in fact. West Linn now has an estimated population of some 2000, including the newly annexed town. It will begin negotiations for the purchase of the water plant in Willamette, which is owned by a private company. Its value will have to be determined by appraisal. When taken over, West Linn will extend and improve it to meet the new demands. It will, of course, be consolidated with the West Linn plant.

The West Linn council last night adopted an ordinance providing for nine additional 100-watt lights along Maple and River avenues at Fifth, Sixth and Seventh streets.

The recorder was instructed by an ordinance to ask for bids for the construction of four horse houses, two for the hill section, one near Mayor Lewthwaite's house and another at Bolton.

CONTAGION IS LESS THAN LAST YEAR'S

COUNTY HEALTH OFFICER HAS SCHOOL SPRING CLEANED TO PROTECT PUPILS.

Eleven contagious cases were reported to the state health board from Clackamas county by Dr. Orel A. Welsh, health officer, in his February report. Six of these were from school. Only one was typhus. The others were scarlet fever and chicken pox.

Dr. Welsh investigated the spring at the Willamette school, the water of which had been complained against, and found that the contamination was slight. He ordered the spring cleaned and his order was immediately carried out.

The Parkplace school was closely by Dr. Welsh's order four days during February, because of contagion there.

There were 42 cases of contagious in the entire county during February of last year. Since 1915 the county has been subdivided into registrar districts, therefore it is difficult to make a comparative statement of the contagious cases at this time, but the record for last month is more favorable, according to Dr. Welsh.

RISLEY TOSSES HIS HAT INTO THE RING

C. W. Risley, of Concord, filed his declaration with the county clerk Friday as candidate for county commissioner before the forthcoming Democratic primaries. His slogan is that he will "serve the people to the best of his ability."

Mr. Risley is the first Democratic candidate to announce for commissioner. There are five Republican candidates also offering for the office. They are E. L. Pope, W. A. Procter, S. Mullen, J. W. Reed and W. H. Bottelmer. Others may offer before the closing time.

ANOTHER CHAPTER OF OLDS' SPRING IS BEING WRITTEN

CASE ON TRIAL TO RECOVER MONEY PAID FOR RIGHT THAT DID NOT EXIST.

Another chapter in the history of the Olds' Spring or what was facetiously called the "mudhole case" is being written by the litigation that is now being fought out before Circuit Judge Campbell here.

Theodore and Anna Bornbrodt are suing Ellen, Ruth, Ardin M. and J. A. Rockwood to recover \$1500 alleged to be damages growing out of the purchase by the plaintiffs from the defendants of certain alleged rights in the Olds' Spring, located on the river road and two miles north of Oregon City.

Some time ago the circuit court in a case adjudicated the right of the spring, vesting sole ownership in Edward Olds, because its location upon his side of the highway. The litigation sprang out of the piping of water by neighbors for use.

When the Rockwoods sold their tract of land near the spring, they believed they owned a right in the spring and conveyed it to the Kornbrodts. The latter's right to the water was questioned and the records showed that they had bought a right that did not exist. This suit followed. The case was not completed Saturday. The trial will be resumed Monday.

CUMMINS NAME WILL BE ON THE BALLOT

IOWA SENATOR WILL BE BEFORE VOTERS IN OREGON PRIMARIES SAYS TREASURER KAY.

SALEM, Ore., March 14.—The name of Senator Cummins will go on the ballot at the May primary in Oregon as a candidate for the Republican nomination for president, either through the filing of a declaration by the senator himself or through a petition signed by 1000 names, says State Treasurer Kay. Cummins' campaign manager, Kay said it is probable that a petition will be filed.

Kay takes the view that it would be absurd for Justice Hughes' friends to try to get his name on the ballot, inasmuch as he has refused to permit the use of his name elsewhere.

Certain Roosevelt enthusiasts have been insisting that Hughes' name should go on the ballot. It was explained to them by Secretary of State Olcott, February 18, that if a petition were filed and Hughes did not decline in writing before April 20, his name would go on the ballot. So far they have filed nothing.

Roosevelt's name cannot go on the ballot, because he is registered as a Progressive, according to State Treasurer Kay.

FREIGHT IS DERAILED AND TWO ARE KILLED

THE DALLES, Ore., March 10.—J. W. Stimpson, brakeman, and Lew Kaster, fireman, were killed in a wreck on the O.W. R. & N. Shanks branch last night. Alfred Williamson, engineer, was horribly burned, but will recover.

The wreck was caused by a derailment of an extra freight two and one-half miles east of the station of Biggs. Fireman Kaster was so badly injured that he died immediately after the victims had reached the station. Dr. Covert, who attended the injured men, said Engineer Williamson, though painfully scalded, would recover.

Brakeman Stimpson died instantly, being crushed under the engine. Brakeman A. B. Strong was slightly injured, though his injuries did not incapacitate him from assisting in the rescue work.

COUNTY COURT NAMES T. A. ROOTS ROAD BOSS; S. A. COBB, ENGINEER, AS AIDS TO HIGHWAY SUPERVISORS

So that the road supervisors can profit by the advice and help of experienced and practical men, and so that the county court can be kept in better touch with road matters in all parts of the county, the court has named T. A. Roots, of Clackamas, road boss of the county and S. A. Cobb, road engineer.

Mr. Roots, after 10 years work for Multnomah county at the Kelly Butte rockpile and two years as road supervisor at Clackamas, is considered a thoroughly competent man in road matters. He will devote his attention principally to grading.

DEAL FOR COUNTY FAIR GROUNDS IS CLOSED BY COURT

PRICE IS ONLY \$7950, WHICH IS SUM TOTAL OF OUTSTANDING MORTGAGES.

ASSOCIATION TO PAY INTEREST FOR USE OF SHOW-PLANT

Agreement to Be Signed and Deed to Property to Pass as Soon as Attorney Hedges Approves—No Strings Attached to Sale.

The county court is preparing to complete the purchase of the county fair grounds at Canby for \$7950, the total of outstanding mortgages against the property, and an agreement between the court and the Clackamas County Fair association will be submitted soon to District Attorney Hedges for his approval.

The action of the court in preparing to complete the transfer follows the stand taken by the taxpayers at the annual county budget meeting last December, when the taxpayers voted to appropriate funds to take over the property.

County Will Get Interest.

Under the terms of the agreement between the county and the fair association, the county will buy the property, but the association will continue to run the fair as in the past. The association, however, will pay the county 5 per cent interest on the purchase price as long as the property is used for fair purposes and the fair is conducted by the association.

Judge Anderson said he was ready to sign his name to the agreement as soon as District Attorney Hedges had approved the legal side of the document.

The agreement carries no strings, and the county will acquire the property without restrictions or reservations that it must be used as a county fair site.

No Strings Attached.

"If we want to use the land for a county poor farm or for any other purpose, we can do so," said the county Judge Thursday. "We will receive a clear title to the property."

The purchase price is the total of outstanding mortgages. The land is situated in Canby, and is considered worth double the price the county will pay.

As soon as the taxpayers at the budget meeting had taken a stand in favor of the purchase of the property by the county, Estacada in particular and the eastern part of the county in general endeavored to stop the transaction, at least until the proposition had been put on the ballot at the May primaries and the court had an opportunity to learn the sentiment of the people of the county.

Judge Anderson said Thursday that the court did not intend to put the issue on the ballot, as the taxpayers of the county had had ample opportunity to express their views at the budget meeting last December. The matter for the court to follow in the course was plainly laid out by the action of the taxpayers themselves, he declared, and the court now had no other course to follow.

BONE IS GRAFTED ON LEG OF YOUNG OLDS

D. W. Olds, son of E. D. Olds of Oak Grove, was taken to the Good Samaritan hospital at Portland Saturday and operated upon for bone grafting. Dr. Rocky removed a portion of sound bone from his left leg and grafted it upon his right leg, which was badly injured while Olds was working on a bridge in the Sandy district last summer. The young man was taken to Portland by John F. Risley. In the latter's automobile.

COUNTY COURT NAMES T. A. ROOTS ROAD BOSS; S. A. COBB, ENGINEER, AS AIDS TO HIGHWAY SUPERVISORS

ing this spring," said County Judge Anderson, Thursday, "and we intend to put Mr. Roots at the head of this work. He will go from district to district cooperating with the road supervisors in the work."

Mr. Cobb, who has been working for the county part of the time for several weeks, will attend to engineering problems in connection with road work.
